*Boston Noir* Dennis Lehane,2025-07-01 Dennis Lehane steps up to the plate as editor and presents a scintillating collection of deep dark fiction Dennis Lehane advises us not to judge the genre by its Hollywood images of sharp men in fedoras lighting cigarettes for femmes fatales standing in the dark alleys Lehane writes persuasively of the gentrification that has left people feeling crushed New York Times Crime Fiction Column Akashic Books continues its groundbreaking series of original noir anthologies launched in 2004 with Brooklyn Noir Each story is set in a distinct neighborhood or location within the city of the book Brand new stories by Dennis Lehane Stewart O Nan Patricia Powell John Dufresne Lynne Heitman Don Lee Russ Aborn J Itabari Njeri Jim Fusilli Brendan DuBois and Dana Cameron From the introduction by Dennis Lehane Boston is a city that produces guys or in the city s vernacular knuckleheads who once stole the replica of a cow that sat in front of a Braintree steak house The cow weighed what a car weighed and yet these knuckleheads had the industry to get it onto a pickup truck drive it back to South Boston and deposit it in the middle of Broadway They did this solely so they could then call the Boston Police Department and ask them to respond to a beef going down on Broadway So we have our distinct humor and our distinct accent and our distinct vocabulary All of which sadly possibly is now endangered by progress Because

one can't ignore that Boston has been beset by a new class war of late one you'll see reflected in the stories herein It's a war of gentrification As the city continues to lose its old school parochialism and overt immigrant tribalism it's also losing a lot of its character Whether that's a bad thing or a good thing is up for debate but what can't be argued is that it is in fact happening That's the paradox of the new Boston what's lost has in many cases been taken what's left is what people can't sell Noir is a genre of loss of men and women unable to roll with the changing times so the changing times instead roll over them

The Antinomies of Realism Fredric Jameson, 2015-03-10 The Antinomies of Realism is a history of the nineteenth century realist novel and its legacy told without a glimmer of nostalgia for artistic achievements that the movement of history makes it impossible to recreate The works of Zola Tolstoy Proust Galdós and George Eliot are in the most profound sense inimitable yet continue to dominate the novel form to this day Novels to emerge since struggle to reconcile the social conditions of their own creation with the history of this mode of writing the so called modernist novel is one attempted solution to this conflict as is the ever more impoverished variety of commercial narratives what today's book reviewers dub serious novels which are an attempt at the impossible endeavor to roll back the past Fredric Jameson examines the most influential theories of artistic and literary realism approaching the subject himself in terms of the social and historical preconditions for realism's emergence The realist novel combined an attention to the body and its states of feeling with a focus on the quest for individual realization within the confines of history In contemporary writing other forms of representation for which the term postmodern is too glib have become visible for example in the historical fiction of Hilary Mantel or the stylistic plurality of David Mitchell's novels Contemporary fiction is shown to be conducting startling experiments in the representation of new realities of a global social totality modern technological warfare and historical developments that although they saturate every corner of our lives only become apparent on rare occasions and by way of the strangest formal and artistic devices In a coda Jameson explains how realistic narratives survived the end of classical realism In effect he provides an argument for the serious study of popular fiction and mass culture that transcends lazy journalism and the easy platitudes of recent cultural studies
