Florensa, 2008-10-01 Antología de la Literatura Española Siglos XVIII y XIX challenges traditional concepts of eighteenth and nineteenth century Spanish literature by providing exciting new material never before available in modern editions It includes examples of popular dramatic genres such as the sainete and the zarzuela usually excluded from anthologies and recognizes the contributions of women writers such as Gertrudis Hore Carolina Coronado Gertrudis Gómez de Avellaneda Rosalía de Castro Concepción Arenal Cecilia Bahl de Faber Fernández Caballero and Emilia Pardo Bazán Siglos XVIII y XIX dashes the commonplace that there was little novelistic activity during the eighteenth century through the inclusion of selections from a wide range of fiction In addition it incorporates fascinating new research on the theoretical basis for the development of the novel during the 1700s This anthology also challenges the notion that the baroque withered after Calderón Examples from the works of transitional poets and playwrights illustrates that baroque styles and themes continued to be popular throughout much of the century In the area of nineteenth century literature Siglos XVIII y XIX is the first anthology to provide a truly balanced view of the political social and literary debates of the period It includes ideological prose by a wide variety of thinkers conservatives as well as liberals Neo Catholics as well as Krausists Unlike other collections on the market this

volume gives a thorough account of the development of the historical novel and of the novela de costumbres contemporáneas during both the first and second halves of the century. While in their critical introductions the editors avail themselves of the very latest research they avoid modern and often inaccurate terminology preferring the terminology used by nineteenth century theorists themselves.

**Sobre el periodismo** Joseph Pulitzer, 2015-09-16 Libro imprescindible sobre la escuela de periodismo de la Universidad de Columbia. Cuál es el estado de la sociedad y la política de nuestra república dentro de 70 años cuando algunos de los niños que ahora van al colegio a los 11 estén vivos. Conservaremos un gobierno basado en la Constitución en la igualdad de todos los ciudadanos ante la ley y en la pureza de la justicia o nos gobernarán el dinero o la mafia. Joseph Pulitzer se lo preguntaba a principios del siglo XX cuando por su iniciativa nació la Escuela de Periodismo de la Columbia University de Nueva York. Estaba convencido de que la respuesta dependería en buena medida de la calidad de la información. Despues de un siglo cuando el consumo de noticias ha alcanzado unos ritmos antes inimaginables la calidad de la información resulta más decisiva aún para el bien común. Porque nuestra república y su prensa avanzarán o caerán juntos. Una obra que permite comprender la importancia del periodismo y de una información de calidad en nuestra sociedad.

**SOBRE EL AUTOR**

Joseph Pulitzer (1847-1911) nació naturalizado americano, fue uno de los más grandes periodistas y editores de la historia. Emigró a los Estados Unidos en 1864, cuatro años más tarde fue contratado como reportero en el periódico alemán Westliche Post de St Louis. Despues de haber fundado y llevado al éxito el St Louis Post Dispatch en 1883, adquirió un pequeño periódico de Nueva York, el World, convirtiéndole en pocos años gracias a una gráfica y una maquetación innovadoras en un periódico de gran difusión. Desde las columnas del periódico Pulitzer promovió un periodismo de investigación que originó memorables campañas de denuncia de la corrupción política y financiera. A su nombre va asociado un legado de dos millones de dólares que hizo posible la fundación de la Escuela de Periodismo de la Columbia University en 1912 y un fondo para el más deseado premio americano de periodismo literatura y música, el Premio Pulitzer.

**EXTRACTO**

El director de The North American Review me ha pedido que responda a un artículo publicado recientemente en sus páginas donde se critica a la Facultad de Periodismo que yo he financiado como parte de la Universidad de Columbia. Aunque no de atender a su solicitud he preferido abarcar también con mi respuesta otros temas y críticas muchos sinceros otros banales algunos basados en malos entendidos pero que en su mayor parte no demuestran más que prejuicios e ignorancia.

**La sabiduría de Mnemosine** José Luis Mendivil Giró, 2012

**Crisis política, autoritarismo y democracia** René Torres Ruiz, Darío Salinas, 2023-03-07

Las crisis y las pugnas por la democracia constituyen uno de los más antiguos desafíos para el pensamiento político latinoamericano. Terreno de lucha permanente su avance demanda constantes esfuerzos de defensa y profundización. Esta obra es resultado de una reflexión colectiva de largo aliento sobre la instauración y el funcionamiento de la democracia en la región y sus ciclos de avance y retroceso y los efectos contradictorios de este proceso. Su objetivo es recuperar la centralidad de la democracia dentro de un debate regional mayor así como explorar su dimensión geopolítica. A lo largo de sus doce capítulos el volumen busca indagar diversas aristas que

incumben a los procesos de emancipación y democratización en los países de América Latina desde el análisis de sus sistemas electorales y la emergencia de demandas colectivas en favor de derechos ciudadanos hasta el estudio de aquellos óbtulos que condicionan su desarrollo como la instauración de modelos neoliberales y el poder del capital financiero transnacional que aprisiona los centros de decisión políticas locales. La colección Miradas Latinoamericanas Un Estado del Debate tiene como objetivo relevar las novedades teóricas metodológicas y temáticas en diversos campos del saber tanto a través de perspectivas trans e interdisciplinares como desde diferentes tradiciones intelectuales. Los libros que integran esta colección reúnen trabajos que exponen las novedades y dan cuenta de las transformaciones en relación con las temáticas abordajes enfoques teóricos preguntas y objetos de investigación en los campos de las ciencias sociales y las humanidades para poner en valor la originalidad la relevancia y el impacto del conocimiento producido desde la región.

**Alquimia del dolor** Luis Montiel, 2014-06-30 Alquimia del dolor pretende explorar las relaciones entre medicina y literatura tanto en la perspectiva de la más exigente investigación académica como desde el punto de vista de la utilidad de los textos literarios en la formación de los profesionales de la salud. Su tema lo constituyen las reflexiones de algunos de los más importantes creadores de la literatura occidental sobre los tres grandes asuntos que estructuran la obra: la enfermedad, la muerte y la medicina, el inconsciente y la locura y las ciencias de la vida en el espejo de la literatura. Los estudios que componen el libro son el resultado del trabajo de su autor durante más de treinta años en este ámbito de investigación y docencia universitaria.

**Estética y diseño** Wenceslao Rambla Zaragoza, 2007-01-01 El autor analiza cuánto entra a el binomio estética y diseño partiendo de lo que supone la experiencia estética en ambos sentidos a continuación en la lectura personal de las posiciones acerca de las artes de determinados autores. Finalmente aboga por el persistente valor de las categorías estéticas abordando el problema del gusto y el dominio categorial de la estética e incidiendo en el aspecto funcional de los objetos.

**Fuentes de información especializadas de la Documentación: análisis y criterios de calidad** Raquel GÓMEZ DÍAZ, José Antonio CORDÓN GARCÍA, Julio ALONSO ARÉVALO, 2014-06-04 Fuentes especializadas en Ciencias Sociales y Humanidades Raquel Gómez Díaz, Araceli García Rodríguez, José Antonio Cordón García, 2017-09-14 Una de las tareas fundamentales de la investigación científica es la revisión de la literatura especializada para su cotejo crítica y fundamentación. El investigador se encuentra ante la difícil tarea de buscar, identificar, analizar y ponderar entre miles de contribuciones con calidades y procedencias muy diferentes. Además, cada disciplina científica posee sus propias fuentes de información con pesos y distribución distintos según las áreas. Para el investigador, pero también para el docente o para el estudiante de cualquier nivel, el conocimiento de las principales fuentes existentes en su campo de conocimiento es imprescindible para poder abordar cualquier estudio con solvencia y seguridad. Estas fuentes, por otra parte, se han ido incrementando y diversificando a medida que las ciencias han ido evolucionando, mejorando en sus prestaciones, cobertura y accesibilidad gracias, sobre todo, a la combinación de contenidos y tecnologías de la información. Bases de datos, páginas web, blogs, especializados, repertorios,

asociaciones profesionales revistas etc constituyen un abanico de recursos a los que hay que prestar atenci n para estar actualizado en cualquier materia que se estudie En esta obra se muestra un an lisis de las fuentes de informaci n especializadas m s importantes que existen en las disciplinas asociadas a las Ciencias Sociales y las Humanidades mediante una exposici n y un examen cr tico de ellas Cada uno de los cap tulos ha sido elaborado por especialistas reputados en la materia con conocimientos adquiridos tras largos a os de experiencia e investigaci n
