Subject Siam Tamara Loos, 2018-07-05 Unlike its Southeast Asian neighbors Thailand was never colonized by an imperial power However Siam as Thailand was called until 1939 shared a great deal in common with both

colonized states and imperial powers its sovereignty was qualified by imperial nations while domestically its leaders pursued European colonial strategies of juridical control in the Muslim south The creation of family law and courts in that region and in Siam proper most clearly manifests Siam's dualistic position Demonstrating the centrality of gender relations law and Siam's Malay Muslims to the history of modern Thailand Subject Siam examines the structures and social history of jurisprudence to gain insight into Siam's unique position within Southeast Asian history Tamara Loos elaborates on the processes of modernity through an in depth study of hundreds of court cases involving polygyny marriage divorce rape and inheritance adjudicated between the 1850s and 1930s Most important this study of Siam offers a novel approach to the question of modernity precisely because Siam was not colonized yet was subject to transnational discourses and symbols of modernity In Siam Loos finds the language of modernity was not associated with a foreign colonial overlord so it could be deployed both by elites who favored continuation of existing domestic hierarchies and by those advocating political and social change

Interactive Sketch-based Interfaces and Modelling for Design Alexandra Bonnici, Kenneth P. Camilleri, 2023-05-31 Sketching is a natural and intuitive communication tool used for expressing concepts and ideas that are difficult to communicate through text or speech alone In design applications drawings are used at various stages of the design process from the early concept drawings scribbled on a piece of paper to immersive interactions in which users manipulate and adjust the 3D form of an object in virtual or augmented reality environments This variety in drawing activities brings about the need for different interpretation strategies that support not only the sketching activity itself but also allow sketch based interactions such as sketch based queries to take place In this book we explore the different drawing approaches used in design and the algorithms required for processing and interpreting the different sketches and drawings in design The book is divided into two parts The first part focuses on sketching in the 2D domain This includes the digitization of offline and paperbased sketches techniques for online sketch recognition observations of user drawing habits

algorithms for inferring depth from 2D drawings as well as non photorealistic rendering techniques that are then applied to sketch based queries The second part of the book focuses on 3D sketching in virtual or augmented reality spaces Here we present the processing and rendering of the 3D strokes the different interaction devices available for 3D sketching and look at different applications where immersive 3D sketching has been applied with success

Hinduism and Buddhism: An Historical Sketch (Complete) Sir Charles Eliot, 2020-09-28

Probably the first thought which will occur to the reader who is acquainted with the matters treated in this work will be that the subject is too large A history of Hinduism or Buddhism or even of both within the frontiers of India may be a profitable though arduous task but to attempt a historical sketch of the two faiths in their whole duration and extension over Eastern Asia is to choose a scene unsuited to any canvas which can be prepared at the present day Not only is the breadth of the landscape enormous but in some places it is crowded with details which cannot be omitted while in others the principal features are hidden by a mist which obscures the unity and connection of the whole composition No one can feel these difficulties more than I do myself or approach his work with more diffidence yet I venture to think that wide surveys may sometimes be useful and are needed in the present state of oriental studies For the reality of Indian influence in Asia from Japan to the frontiers of Persia from Manchuria to Java from Burma to Mongolia is undoubted and the influence is one You cannot separate Hinduism from Buddhism for without it Hinduism could not have assumed its medieval shape and some forms of Buddhism such as Lamaism countenance Brahmanic deities and ceremonies while in Java and Camboja the two religions were avowedly combined and declared to be the same Neither is it convenient to separate the fortunes of Buddhism and Hinduism outside India from their history within it for although the importance of Buddhism depends largely on its

foreign conquests the forms which it assumed in its new territories can be understood only by reference to the religious condition of India at the periods when successive missions were despatched **Sketch of the Singphos, Or the Kakhyens of Burmah** Simon Fraser Hannay, 1847 **The Bulletin of the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.), 1923 New ser v 6 10 include 77th 81 Report of the trustees 1946 50 previously published separately

Missions in Southeast Asia Kiem-Kiok Kwa, Samuel Ka-Chieng Law, 2022-09-26 As the boundaries between cultures and religions blur in an increasingly globalized world the church finds itself in need of new approaches to understanding and embracing otherness both inside and outside of its established communities Southeast Asia has long been one of the world's most diverse regions with over a hundred ethnicities represented and members of every major religion living as neighbors In this rich and complex environment the church has an equally rich and complex history at times flourishing at times floundering but inexorably taking root In this collection of essays contributors from throughout the region reflect on the history and future of Christianity in Southeast Asia providing an overview of missions in the region and exploring how local churches are defining a uniquely Southeast Asian approach to interreligious engagement Combining missiological research with contextual theology this volume offers profound insight into the challenges accompanying missions in a multireligious environment From ethnic and religious conflict resolution to navigating hybrid identities this collection of essays makes an excellent contribution to global conversations surrounding the future of missions in a globalized world *Letters to my Pupils, with narrative and biographical sketches. Second edition* afterwards SIGOURNEY HUNTLEY (Lydia Howard), 1851
