**Droits des Personnes Agées et Droits des Personnes Handicapées** Pascal Touoyem, 2023-10-22 Cette publication est certainement la toute premiere grande syntese tematique et critique sur la condition des personnes socialement vuln rables PSV en Afrique Une excellente brochette de 40 experts et Institutions de differents oavs du continent t deploie un effort d intelligibilite de ce phenomene devenu oreoccuoant a travers un Inventaire analvtique complexe retrospectt Tactuel actuel chittre ponctuel prospectif et

relativement exhaustif. Les différentes contributions sont assorties des recommandations fortes qui interpellent pour leur application les détenteurs d'enjeu dans une démarche de co-construction pour une citoyenneté de transformation active. C'est un document de plaidoyer, de requête et de lobbying en faveur de l'aménagement de la protection et de l'amélioration des conditions sociales des personnes âgées et des personnes handicapées en Afrique, autant en matière de santé, d'alimentation, de logement, d'environnement, de protection sociale que de maintien de revenu, d'emploi et d'enseignement. Eu égard à l'augmentation croissante de leurs effectifs en valeur relative et absolue, la question des personnes socialement vulnérables est ainsi mise en avant. Il y a une garde des préoccupations politico-sociales et scientifiques importantes, voire permanentes. Il y a aussi des investigations et des réflexions récurrentes au sein du mécanisme social de l'Union Africaine, au sein du groupe de travail sur les personnes âgées et les personnes handicapées de la Commission Africaine des Droits de l'Homme et des Peuples. L'assignation initiale et originaire tant de construire des véhicules juridiques, psychologiques, socio-anthropologiques et politiques afin d'amorcer un changement positif et une protection durable des personnes, ainsi que des protocoles coutumiers pour leur valorisation dans les cultures et traditions africaines. This publication is certainly the first major thematic and critical synthesis on the condition of socially vulnerable persons (SV) in Africa. An excellent line up of 40 experts and institutions from different countries of the continent is making an effort to understand this phenomenon which has become worrying through a complex retrospective, factual, current, quantified, punctual, prospective and relatively exhaustive analytical inventory. The various contributions are accompanied by strong recommendations that challenge the holders of issues for their application in a process of co-construction for an active citizenship of transformation. It is a document of advocacy, indictment and lobbying in favor of the development, protection and improvement of the social conditions of the elderly and persons with disabilities in Africa in terms of health, food, housing, environment, social protection, income, maintenance, employment and education, given their increasing numbers in relative and absolute terms. The issue of socially vulnerable people is thus brought to the forefront of important, if not permanent, political, social and scientific concerns. It is the subject of recurrent investigations and reflections within the special mechanism of the African Union, the Working Group on Elderly Persons and Persons with Disabilities of the African Commission on Human and Peoples Rights. The initial assignment is to build legal, psychological, socio-anthropological and political vehicles in order to initiate positive change and sustainable protection of VHPs as well as customary protocols for their valorization in African cultures and traditions.

**Pauvreté, jeunes de la rue et SIDA** Momar Coumba Diop, 2002-01-01. Dans les villes africaines, des populations de plus en plus nombreuses prouvent des difficultés à satisfaire leurs besoins de base et accéder aux services sociaux essentiels. Au sein de ces populations, la jeunesse marginalisée a souvent attiré l'attention des pouvoirs publics, mais d'un point de vue essentiellement sécuritaire. Pourtant, cette population est particulièrement exposée à un problème majeur de santé publique : le risque de contamination par le sida. Malgré cela, elle est faiblement prise en charge par les programmes officiels. Et peu d'efforts systématiques ont été consacrés à l'amélioration des

connaissances relatives aux rapports entre la pauvreté les maladies sexuellement transmissibles et le sida dans le milieu des jeunes des rues C est pour mieux comprendre les mécanismes de cette dernière question que le Programme de gestion urbaine PGU et le Programme régional de lutte contre le sida PRS de la GTZ ont réalisés des études sur les jeunes des rues en Côte d'Ivoire et au Ghana Ce livre propose les principaux résultats de cette recherche en apportant ainsi de nouvelles informations sur un aspect particulier de la pauvreté urbaine Cet ouvrage met ainsi à la disposition des décideurs urbains des chercheurs et des praticiens des informations et des pistes de réflexion susceptibles entre autres d'alimenter la élaboration des politiques officielles et en conséquence de contribuer à la réduction des risques de contamination des jeunes des rues par le sida

Public Policy Lessons from the AIDS Response in Africa Fred Eboko, 2020-10-29

Public Policy Lessons from the AIDS Response in Africa examines how the interplay between national state dynamics in Africa and the global political arena has shaped the global AIDS response and in this context develops a framework for analysing public policy action more broadly in contemporary Africa. By applying comparative political sociology to AIDS public action, this book identifies four political models that are applicable to public initiatives. Fred Eboko goes on to test these in other domains, namely the malaria and tuberculosis health subsectors and the education and environment sectors. By articulating global and national connections and contributing a critical perspective grounded in African scholarship and French political science, the author builds a bold and ambitious framework with the potential to enable coherent and effective public policy action in Africa. This book will be of interest to scholars and students of public health, global health, political science and development studies as well as policy level practitioners in the areas of global health and development.
