Sidelines Gunawan Mohamad, 1994 Collection of pieces first printed in Tempo the banned Indonesian weekly news magazine Focuses on many of the issues facing Indonesia including social justice democracy censorship human rights Islam and the impact of western culture Includes a glossary bibliography and index The author was editor and proprietor of Tempo the magazine that caused the clampdown on Indonesia's free press and was closed in June 1994 **Sidelines** Gunawan **Scandal and Democracy** Mary E. McCoy, 2019-03-15 Successful transitions to enduring democracy are Mohamad.2005 both difficult and rare In Scandal and Democracy Mary E McCoy explores how newly democratizing nations can avoid reverting to authoritarian solutions in response to the daunting problems brought about by sudden change The troubled transitions that have derailed democratization in nations worldwide make this problem a major concern for scholars and citizens alike This study of Indonesia s transition from authoritarian rule sheds light on the fragility not just of democratic transitions but of democracy itself and finds that democratization s durability depends to a surprising extent on the role of the media particularly its airing of political scandal and intraelite conflict More broadly Scandal and Democracy examines how the media s use of new freedoms can help ward off a slide into pseudodemocracy or a return to authoritarian rule As Indonesia marks the twentieth anniversary of its democratic revolution of 1998 it remains among the world's most resilient new democracies and one of the few successful democratic transitions in the Muslim world McCov explains the media s central role in this change and corroborates that finding with comparative cases from Mexico Tunisia and South Korea offering counterintuitive insights that help make sense of the success and failure of recent transitions to democracy

Privatizing the State Béatrice Hibou, 2004 In the new global political economy privatization names a transformation of the roles of public and private actors with the goal of reforming government policies and economic aid programs It is an objective a slogan a fetish But what does it signify On the one hand it refers to the process of changing industries businesses and services from governmental or public ownership to private agencies But privatization now also extends to what are normally the prerogatives of national states taxation customs internal security national defense and peace negotiations In much of the literature privatization is associated with the retreat decline or even demise of the state Using Max Weber's concept of delegation or discharge as a point of departure Hibou and the contributors of this volume propose an alternative view interpreting the contemporary restructuring of economic and political relations in much of the world as the privatization of the state This book challenges received ideas about the process of globalization and its presumed homogenization by suggesting that rather than weakening the powers of the state privatization actually strengthens it With examples from Russia Poland China Taiwan Indonesia North Africa and sub Saharan Africa the book questions the supposed inefficiency of states in regulating capitalism and the role economic and financial knowledge play as substitutes for political and social **Privatising the State** Béatrice Hibou, 2004 Privatisation is supposed to bring about the retreat of the state But analysis what happens when the state privatises itself and even its core functions tax collection internal security customs are auctioned to the highest bidder Does this imply a weakening of the state Or rather does it lead to a scrutiny and control The contributors to this work examine these phenomena in the former Second and Third World Central and Eastern Europe China and other parts of Asia and Africa highlighting the very different ways in which continuing state interference and

privatisation are implemented What we are witnessing according to this study is not the eclipse of the state under the impact of globalisation but the end of the relatively short era of the development state and its commanding role privatisation does not necessarily lead to a weakening of state control it leads to new and often more informal forms of interference and influence and it is these that are the book s central theme
