Linda Mortimer,1994 Readers of Eudora Welty s stories often encounter a protective and domelike nighttime sky the moon and constellations beckoning a character to venture beyond the familiar visible world This striking metaphor for the human need to seek out the unknown serves as an anchoring image in *Daughter of the Swan* Gail L Mortimer s study of Welty s lifelong inquiry into the nature and contexts of knowledge Mortimer argues that Welty s views on epistemology and the elusiveness of certainty lie at the heart of this writer s subtle and revelatory work Employing the psychoanalytic object relations theories of Nancy Chodorow and Carol Gilligan she reveals how Welty uses assumptions about relationships to shape her characters consciousnesses Mortimer also contrasts Welty s world with William Faulkner s each elucidates the other s remarkably different ways of perceiving humanity relationships and approaches to the unknown The author then turns to Welty s childhood to consider her evolving sense of what and how things can be known Her childhood with adults created impressions of a benign wondrous orderly world As Mortimer observes Welty eventually replaced these impressions with the realization that adults frequently distort and withhold the truth Welty s own family s conception of love as a kind of shield and her resistance to this protection finds its way into much of her fiction For many Welty characters this protective love becomes an obstacle to fuller understanding Mortimer invokes two of the writer s most beguiling images the circle and the labyrinth to demonstrate that the perceiver who is both an insider and an outsider is best able to recognize and assimilate new knowledge In *The Golden Apples* Welty contemplates the difficulty and fascination implicit in this quest for knowledge given the ambiguous nature of what we know and given our language s surfaces and of masks myths and falsities to create benevolent illusions Ultimately Mortimer concludes Welty comes to see the concept of protective love as a limited one and in *The Optimist s Daughter* for instance she advocates instead the courage to face even the harshest realities Recognizing the richness of Welty s artistry Mortimer views her through the lens of various literary traditions including that of Shelley and Yeats The latter s poem *Among School Children* from which the title of Mortimer s study is borrowed summons the image of the swan to reflect the solitary human soul in search of knowledge In that same spirit of wonder and curiosity Eudora Welty s fiction illuminates the conditions of that search      *The Tragedy of the Vietnam War* Van Nguyen

Duong,2014-07-15 What Americans call the Vietnam War actually began in December 1946 with a struggle between the communists and the French for possession of the country but Vietnam s strategic position in southeast Asia inevitably led to the involvement of other countries Written by an officer in the Republic of Vietnam Armed Forces this poignant memoir seeks to clarify the nuances of South Vietnam s defeat From the age of 12 Van Nguyen Duong watched as the conflict affected his
