Relativism multiculturalism feminism affirmative action pragmatisms old and new science literature the future of the academy and of philosophy itself all come under her keen scrutiny in Manifesto of a Passionate Moderate Haack's goal in these essays is to get beyond fads fashions obfuscations and false dichotomies to the central and most essential questions whether there is such a thing as truth whether honest inquiry is possible or desirable whether there is a real difference between knowledge and propaganda There is Haack argues but serious inquiry is difficult and demanding evidence can be ambiguous or misleading and what passes for truth is sometimes false Pragmatism Russell B. Dialectic Roy Bhaskar, 2008-07-02 *Dialectic* The Pulse of Freedom is now widely regarded as a classic of contemporary philosophy This book first published in 1993 sets itself three main aims the development of a general theory of dialectic of which Hegelian dialectic can be seen to be a special case the dialectical enrichment and deepening of critical realism viz into the system of dialectical critical realism and the outline of the elements of a totalizing critique of Western philosophy The first chapter clarifies the rational core of Hegelian dialectic Chapter 2 then proceeds to develop a general theory of dialectic Isolating the fallacy of ontological monovalence i e a purely

positive account of being Roy Bhaskar then shows how absence and other negating concepts such as contradiction have a legitimate and necessary ontological employment He then goes on to give a synoptic account of key dialectical concepts such as the concrete universal to sketch the further dialectical development of critical naturalism through an account of what he calls four planar social being and following consideration of the dialectical critique of analytical reason he moves on to the real definition of dialectic as absencing absence and in the human sphere the axiology of freedom Chapter 3 extends and deepens critical realism's characteristic concerns with ontology science social science and emancipation not only into the realms of negativity and totality but also into the fields of reference and truth spatio temporality tense and process the logic of dialectical universalizability and on to the plane of ethics where it articulates a combination of moral realism and ethical naturalism whereby consideration of elemental desire involves commitment to the eudaimonistic society This is then followed in Chapter 4 by a sublime discussion of key moments in the trajectory of Western philosophy the tradition of which can now be seen to be based on what the author calls the unholy trinity of the epistemic fallacy or the reduction of being to knowledge primal squeeze or the collapse of structure and alethic truth and ontological monovalence

Life without a Ground: A Praxis of Being-in-the-World Daniil Koloskov, 2024-07-18 This book argues for the pragmatist thesis of the primacy of praxis on a phenomenological basis Demonstrating the relevance of phenomenology it provides a systematic overview of the contemporary pragmatic landscape taking into account not only a family of neo pragmatic approaches but also the current pragmatic readings of phenomenology This volume offers an innovative formulation of the primacy of practice thesis based on the genetic reformulation of Heidegger's notions of disclosure Dasein and average intelligibility Das Man Investigating the dynamic interrelation among those notions the author arrives at the phenomenological conception of forms of life or average background practices and argues that a form of life is not a pragmatic condition of meaningfulness but an outcome of the dynamic process of meaning formation This text concludes that the formation of meaning has no overarching origin but sources from the bundle of disparate practical spaces and is anarchic in nature It appeals to students and researchers working in phenomenology and philosophical anthropology
