The Encyclopedia of North American Colonial Conflicts to 1775 Spencer C. Tucker, James R. Arnold, Roberta Wiener, 2008-08-13 The only multivolume encyclopedia covering all aspects of North American colonial warfare with special attention paid to the social political cultural and economic affairs that were affected by the conflicts Encyclopedia of North American Colonial Conflicts to 1775 A Political Social and Military History is the first multivolume resource on the full range of combat and confrontation in the New World prior to the American Revolution not just rivalries between European empires but Indian conflicts slave rebellions and popular uprisings as well Organized A Z the encyclopedia covers all major wars and conflicts in North America from the late 15th to mid 18th centuries with discussions of key battles diplomatic efforts military technologies and strategies and tactics Encyclopedia of North American Colonial Conflicts to 1775 explores the context for conflict with essays on competing colonial powers every major Native American tribe all important political and military leaders and a range of social and cultural issues The insights and information contained here will help anyone understand the genesis of North American culture the plight of Native Americans after European contact and the beginnings of the United States of America **A People's History of Florida, 1513-1876** Adam Wasserman, 2010 Howard Zinn author of A People's

History of the United States predicted that the bottom class perspective of history would eventually gain ground enveloping the old way of narrating history as told by the powerful. Since then numerous historical events have been redefined through the outlook of common people that were involved from the bottom up forever altering how we understand history. No more romantic diatribes glittered in patriotic myths. No more traditional heroes, standardized viewpoints, unquestionable facts, or generalized falsehoods. Just plain raw truth that is not afraid to stampede powerful governments with the herd of popular outrage. A People's History of Florida follows the People's History tradition documenting the active involvement of African Americans, indigenous people, women, and poor whites in shaping the Sunshine State's history.

Republic of Indians

Bradley J. Dixon, 2024-12-03. A sweeping history of the Native Southerners who wrote their principles into Spanish and English law. A sweeping history of the Native Southerners who challenged European empires from the inside. Republic of Indians tells the story of Indigenous leaders who wrote their principles into Spanish and English law. While in the Spanish Empire, Natives were a recognized part of *la rep blica de indios*, the Republic of Indians, other Natives across the early American South understood themselves to be joined with European colonists in larger polities, each jealously guarding their own bodies of liberties under royal sanction. Thus, rather than simply rejecting European pretensions to rule them as subjects and vassals, Native Southerners as diverse as the Apalachees, Pamunkeys, Powhatans, and Timucuas redefined their status to become political players in legislative assemblies and the courts of distant monarchs. They pushed for incorporation in larger political systems in which they had a say and were themselves instrumental in creating. Adapting pre-invasion practices to the technology of writing and the challenges of colonialism, Indigenous petitioners sought exemptions from labor and protection for the lands that God gave to them, as well as the right to install preferred leaders, avoid enslavement, ally with the Crown against colonists, ease harsh colonial laws, and even amend the terms of treaties and compacts. Bradley J. Dixon shows how their petitions also stand as enduring contributions to American political thought and how it was these vassals and subjects who gave meaning to the modern idea of tribal sovereignty. In the South, the Spanish and English empires came to resemble one another precisely because they were both dependent to a remarkable degree on maintaining Indigenous political consent and were founded in large part on Indigenous conceptions of law.

The Routledge Handbook of the History of Race and the American Military

Geoffrey Jensen, 2016-04-20. The Routledge Handbook of the History of Race and the American Military provides an important overview of the main themes surrounding race in the American military establishment from the French and Indian War to the present day. By broadly incorporating the latest research on race and ethnicity into the field of military history, the book explores the major advances that have taken place in the past few decades at the intersection of these two fields. The discussion goes beyond the study of battles and generals to look at the other peoples who were involved in American military campaigns and analyzes how African Americans, Native Americans, Asian Americans, and Chicanos helped shape the course of American History both at home and on the battlefield. The book also includes coverage of American

imperial ambitions and the national response to encountering other peoples in their own countries The Routledge Handbook of the History of Race in the American Military defines how the history of race and ethnicity impacts military history over time and comparatively while encouraging scholarship on specific groups periods and places This important collection presents a comprehensive survey of the current state of the field

The Encyclopedia of North American Colonial Conflicts to 1775: A-K, 2008 Covers all major wars and conflicts in North America from the late 15th to mid 18th centuries with discussions of key battles diplomatic efforts military technologies and strategies and tactics Explores the context for conflict with essays on competing colonial powers every major Native American tribe all important political and military leaders and a range of social and cultural issues Publisher's Web site
