Marsh,2009-11-23 Drawing boundaries around wilderness areas often serves a double purpose protection of the land within the boundary and release of the land outside the boundary to resource extraction and other development In *Drawing Lines in the Forest* Kevin R Marsh discusses the roles played by various groups the Forest Service the timber industry recreationists and environmentalists in arriving at these

boundaries He shows that pragmatic rather than ideological goals were often paramount with all sides benefiting After World War II representatives of both logging and recreation use sought to draw boundaries that would serve to guarantee access to specific areas of public lands The logging industry wanted to secure a guaranteed supply of timber as an era of stewardship of the nation s public forests gave way to an emphasis on rapid extraction of timber resources This spawned a grassroots preservationist movement that ultimately challenged the managerial power of the Forest Service The Wilderness Act of 1964 provided an opportunity for groups on all sides to participate openly and effectively in the political process of defining wilderness boundaries The often contentious debates over the creation of wilderness areas in the Cascade Mountains in Oregon and Washington represent the most significant stages in the national history of wilderness conservation since World War II Three Sisters North Cascades and Glacier Peak Mount Jefferson Alpine Lakes French Pete and the state wide wilderness acts of 1984

**The Man Who Built the Sierra Club** Robert Wyss,2016-06-07 David Brower 1912 2000 was a central figure in the modern environmental movement His leadership vision and elegant conception of the wilderness forever changed how we approach nature In many ways he was a twentieth century Thoreau Brower transformed the Sierra Club into a national force that challenged and stopped federally sponsored projects that would have dammed the Grand Canyon and destroyed hundreds of millions of acres of our nation s wilderness To admirers he was tireless passionate visionary and unyielding To opponents and even some supporters he was contentious and polarizing As a young man growing up in Berkeley California Brower proved himself a fearless climber of the Sierra Nevada s dangerous peaks After serving in the Tenth Mountain Division during World War II he became executive director of the

Sierra Club This uncompromising biography explores Brower's role as steward of the modern environmental movement His passionate advocacy destroyed lifelong friendships and at times threatened his goals Yet his achievements remain some of the most important triumphs of the conservation movement What emerges from this unique portrait is a rich and robust profile of a leader who took up the work of John Muir and along with Rachel Carson made environmentalism the cause of our time *Sierra Club* Tom Turner,1993-09 A book which celebrates America's foremost environmental organization Images by America's leading nature photographers depict the national parks forests and wildernesses saved by the Sierra Club's grass roots activism and accompanying text tells the story of the organization *Beacham's Guide to Environmental Issues & Sources* Walton Beacham,1993 **Ansel Adams** Mary Street Alinder,2014-11-04 Traces the life and career of Ansel Adams including his childhood in San Francisco his marriage and affairs his relationship with the Native Americans of Yosemite and the influences on his photography and painting of western landscapes **Nature's Altars** Susan R. Schrepfer,2005 Book Review *Lady Bird Johnson and the Environment* Lewis L. Gould,2021-10-08 In the 1960s Lady Bird Johnson sought to improve the natural appearance of Washington D C to make the nation's highways less cluttered with billboards and junkyards and to advance the environmental agenda of Lyndon Johnson's presidency The popular understanding of what she did remains incomplete and her role as a woman conservationist has not been well understood In this the first book to example her accomplishments as First Lady Lewis Gould shows Lady Bird Johnson as a catalyst for environmental ideas and as a powerful and persuasive force within her husband's administration Although passage of the Highway Beautification Act in 1965 was the legislative apex of her efforts Lady Bird Johnson also articulated a wide range of conservation issues framing policy initiatives and focusing public opinion She instilled conservation and ecological ideas in the national mind Gould argues with a skill and adroitness that puts Mrs Johnson in the front rank among modern First Ladies Indeed in his view only Eleanor Roosevelt surpasses her in importance This book is the result of Gould's extensive research in the LBJ Library and draws on his interviews with such key figures as Interior Secretary Stewart Udall Press Secretary Liz Carpenter District of Columbia Mayor Walter Washington and Lady Bird Johnson herself *Congressional Record* United States. Congress,1993 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Department of the Interior, Environment, and Related Agencies Appropriations for Fiscal Year 2013** United States. and insightful look at one of the most important wide ranging and controversial efforts to protect public forests ever undertaken in the United States The book offers a fascinating overview of the creation of the Clinton roadless rule and the Bush administration s subsequent replacement rule the controversy generated the response of the environmental community and the legal battles that continue to rage more than seven years later It explores the value of roadless areas and why the Clinton rule was so important to environmentalists describes the stakeholder groups involved and takes readers into courtrooms across the country to hear critical arguments

*Developing Interests* McGee Young, 2010-02-04 Organized interests are perennially under fire for distorting public policies Critics charge that they privilege the demands of favored constituencies at the expense of the broader public interest Yet despite the importance of interest groups in the political process little systematic research has been conducted into the development of political identities and lobbying capacities among major advocacy organizations How does a group come to represent a set of interests Are the identities and policy priorities of advocacy organizations stable over time or do they evolve What causes such evolution to occur and what tensions arise as a consequence This book explores the development of interest group politics in the United States through the defining lens of four key advocacy associations in two major and highly contested policy domains the small business and environmental lobbies Through close examination of the National Small Business Association National Federation of Independent Business Sierra Club and National Resources Defense Council McGee Young addresses questions of how groups come to represent particular interests which groups succeed and which fail and how

groups shape political institutions Young explains how political opportunities shape entrepreneurial efforts to form organizations how formative events shape advocacy strategies and tactics and how an interest group's identity arises from entrepreneurial opportunity seekers interacting with the broader ebb and flow of politics He shows that received understandings of what constitutes a small business or environmental interest only gradually solidified as policy conflicts forced group leaders to stake out firm principles such as when pivotal battles in the 1950s over Western dams intersected with a longstanding membership tradition to transform the Sierra Club or when the NFIB struggled to balance its conservatism with its hostility toward big business to the dismay of its political allies *Developing Interests* bridges the gap between traditional interest group research and new research in American political development It marks the first extensive study of small business interest groups in more than 40 years while its organizational perspective provides a fresh look at environmental politics and it features the first organizational histories of the NFIB the NSBA and the NRDC With its illuminating case studies of small business lobbies and environmental groups over time it provides readers with new insights into both the theoretical and empirical significance of interest group development
