Sierra Leone At The End Of The Twentieth Century:

Sierra Leone at the End of the Twentieth Century Earl Conteh-Morgan, Mac Dixon-Fyle, 1999 Sierra Leone's current predicament can best be understood within a continuum spanning its precolonial to its more contemporary history. This study traces the contradictions of the historical legacy and the excesses of the independent nation state to unravel the sequences of dependency that culminated almost inevitably in political instability, unprecedented socio-economic decline and civil war. The authors draw on a rich texture of historical and political insights reflecting established knowledge while also plumbing contemporary orature to present a truly holistic perspective of this soft state. Students, scholars or general readers interested in the dilemmas of developing states will find this essential reading. *Sierra Leone at the End of the Twentieth Century*, 1999. **The Twentieth Century**, 1922. *Human Security and Sierra Leone's Post-Conflict Development* Francis Wiafe-Amoako, 2014-07-22. Achieving security and development in the post-conflict era is a challenge with which stakeholders have to grapple. While stakeholders are quick to claim success when physical hostilities cease between the belligerents, ensuring sustainable peace has been a daunting task. In some countries in Africa, the post-conflict era is characterized by organizing elections to ensure greater political participation. It is believed that elections will begin a process of openness and trust in the governing system. A supplement to electoral democracy has been power sharing arrangements used to resolve post-election violence and ensure stability within the state. However, what underlie most conflicts in Africa is the marginalization and lack of an enabling environment to achieve individual life objectives. Policies and strategies to achieve security and enhance development post-conflict have at best been an extremely slow process and sometimes elusive. In Sierra Leone, for instance, though the official declaration of the end of war and the successful general elections held in 2002, 2007 and 2012 have led to some domestic stability, developmental targets in the post-conflict era have proceeded at a snail's pace. The country continues to rank at the bottom of most UNDP human development indicators since 2002. *Human Security and Sierra Leone's Post-Conflict Development* analyzes the extent to which human security issues have been addressed and subsequently implemented in the post-conflict reconstruction process. While Sierra Leone has made tremendous efforts at implementing reforms in the areas of political sensitization, promotion of civil rights and civil liberties as well as personal security, the lack on the part of the government to effectively address the unemployment problem has negatively affected security and developmental targets. Thus, the post-conflict management strategies in Sierra Leone fail to secure and promote some aspects of human security, leading to fragile peace and slow progress in achieving sustainable security and development. Human security is an all-encompassing phenomenon and must be addressed to achieve overall wellbeing of the people, especially in post-conflict environments. **The Twentieth Century** Clive Ponting, 1999-04-15. Thematically organized into sections on economic and social, international and domestic history, are chapters on such topics as globalization, empires, the environment, dictatorship, repression, democracy, socialism, power, conflict and genocide. The author

adopts a world systems approach throughout and attempts to identify major trends through a comparative approach

The 20th Century Clive Ponting, 2014-07-29 For much of the world the twentieth century can be seen as a big budget disaster film the stifling darkness of oppression the green of the ruling classes For the world's elite the near universal adoption of capitalism today reveals modern history as a narrative of unbroken progress Eschewing conventional chronological accounts The Twentieth Century is organized around the major themes of the last hundred years To help us understand our recent past and probable future Clive Ponting offers a world systems theory His analysis holds that a few core states have dominated much of the rest of the world which provides raw materials and cheap labor and remains tied to the core as virtual colonial territory Between these extremes are Latin America the Middle East and eastern Asia which have a limited shot at self determination Economic social and political differences between the core and periphery continue to grow Atlantic predominance which molded world history for four hundred years has been challenged by the countries of the Pacific The book's central theme revolves around the struggle between progress and barbarism the hope for our future is that our conscience will catch up with our reason Everywhere in the world people now live longer than their predecessors A majority has become literate and most have benefited from recent technological progress Nevertheless democracy is unavailable to the preponderance of people and in the century's final years the chasm between rich and poor continues to expand On the eve of the millennium this vivid history is a must read *Military Interventions in Sierra Leone* Larry J. Woods, 2010 Analyzes the massive turmoil afflicting the nation of Sierra Leone 1995 2002 and the efforts of outside forces to bring stability to that small country The taxonomy of intervention ranged from private mercenary armies through the Economic Community of West African States to the U N and the U K In every case those who intervened encountered a common set of difficulties that had to be overcome Unsurprisingly they also discovered challenges unique to their own org and political circumstances Serving soldiers can often profit vicariously from the mistakes of others as recounted in detailed case studies of historical events A cautionary tale that political leaders and military planners contemplating intervention in Africa ignore at their peril International History of the Twentieth Century and Beyond Antony Best, Jussi M. Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2024-09-03 Now in its fourth edition this highly successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the

Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the last 120 years The fourth edition is thoroughly updated to take account of the most recent research and global developments including new material on the impact of the Trump administration on international politics the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza The book is supported by a fully revised companion website including links to further resources and self testing material which can be found at www.routledgelearning.com/internationalhistory20c

Sierra Leone David Harris, 2014-06-01 Sierra Leone came to world attention in the 1990s when a catastrophic civil war linked to the diamond trade was reported globally This fleeting and particular interest however obscured two crucial processes in this small West African state On the one hand while the civil war was momentous brutal and affected all Sierra Leoneans it was also just one element in the long and faltering attempt to build a nation and state given the country's immensely problematic pre colonial and British colonial legacies On the other the aftermath of the war precipitated a huge international effort to construct a liberal peace with mixed results and thus made Sierra Leone a laboratory for post Cold War interventions Sierra Leone examines 225 years of its history and fifty years of independence placing state society relations at the centre of an original and revealing investigation
