Sight Insight:

Site, Sight, Insight John Dixon Hunt, 2016-03-07 Site Sight Insight presents twelve essays by John Dixon Hunt the leading theorist and historian of landscape architecture The collection's common theme is a focus on sites how we see them and what we derive from that looking Acknowledging that even the most modest landscape encounter has validity Hunt contends that the more one knows about a site and one's own sight of it an awareness of how one is seeing the greater the insight Employing the concepts tropes and rhetorical methods of literary analysis he addresses the problem of how to discuss understand and appreciate places that are experienced through all the senses over time and through space Hunt questions our intellectual and aesthetic understanding of gardens and designed landscapes and asks how these sites affect us emotionally Do gardens have meaning When we visit a fine garden or designed landscape we experience a unique work of great complexity in purpose which has been executed over a number of years a work that occasionally achieves beauty While direct experience is fundamental Hunt demonstrates how the ways in which gardens and landscapes are communicated in word and image can be equally important He returns frequently to a cluster of key sites and writings on which he has based much of his thinking about garden making and its role in landscape architecture the gardens of Rousham in Oxfordshire Thomas Whately's *Observations on Modern Gardening* 1770 William Gilpin's dialogues on Stowe 1747 Alexander Pope's meditation on genius loci the Dersart de Retz Paolo Burgi's Cardada and the designs by Bernard Lassus and Ian Hamilton Finlay

The M4 Carbine Chris McNab, 2021-03-18 The M4 carbine has become one of the defining military firearms of the late 20th and early 21st centuries Developed as a fusion of the XM177E2 Colt Commando and the M16A2 assault rifle the M4 offered a more convenient battlefield firearm than the full length M16 variants and the US Army adopted it as the standard infantry weapon in the 1990s Today military and law enforcement personnel of more than 60 countries have adopted either the M4 or the M4A1 variant both of which have been tested and proven in major combat operations worldwide This study describes the development process in detail from production of the first XM4 prototypes in 1984 through numerous modified types until it emerged into official use as the M4 in 1994 The M4 offered a weapon that was 11lb lighter and 6in shorter than the standard M16A2 yet could still deliver precision semi auto and full auto firepower up to an effective range of 500m Over time its capabilities have been enhanced by the M4A1 modifications plus an extensive range of tactical accessories including optical day night sights laser infrared designators under barrel grenade launchers and shotgun modules foregrips furniture options mounting rails and sound suppressors Numerous M4 M4A1 combat operations are investigated to reveal why the weapon has received such high levels of approval by front line combat troops not only in Afghanistan and Iraq where the M4 M4A1 has been intensively combat tested but also in contexts such as Colombia India Israel and the Philippines Profusely illustrated with photographs and artworks and drawing its research from the latest declassified documents this is a complete guide to one of the most important and widely distributed tactical infantry weapons

Versus/Verses Andrei Rus, 2021-04-25 *Versus Verses* is the first collection of poems by Transylvanian author Andrei Rus. It is the story of the poet facing his darkest fears that arise from his personal struggles. The author explores the more obscure aspects of the mind, diving into an abyss of memories, fears, desperation, and uncertainty. Not only a collection of poems but of conflicting ideas, *Versus Verses* focuses on themes such as pain, regret, and sadness, but also love, hope, change, and overcoming adversity, giving readers an insight into the poet's most personal thoughts and dreams. It is an anthology of life experiences to which the author applies heavy poetic filters, but also of fictional works unbound by physical reality. Ferociously sincere, Andrei's work is cathartic in nature, allowing him to express his deepest thoughts and emotions through verses through words.

Streams of Consciousness Christopher Bollas, 2024-09-26 In Christopher Bollas' *Streams of Consciousness*, a wide spectrum of theory and practice are explored, sometimes appearing in simple fragments, sometimes via complex lines of thinking that are developed in detail over time. As Bollas revisits the received truths and dogmas of his profession, including his own prejudices, he demonstrates the value of open, intelligent uncertainty. Interspersed with clinical preoccupations which highlight the richness as well as the bewildering complexity of psychoanalysis, we find other ideas that reflect his early life as political activist, literature professor, and cultural critic. Throughout the notebooks are enriched by references to the work of numerous writers in many fields who have influenced his thinking. This work is essential reading for all with an interest in psychoanalysis, which will enrich both academic study and clinical practice.

Conjuring the Haint Drea Brown, 2025-05-19 What does it mean to live as a ghost, to live with ghosts, and how might ghosts lead to a path of healing and reimagining? Through an investigation of the intimate relationship between haunting and grief, *Conjuring the Haint: The Haunting Poetics of Black Women* posits that for Black women, haunting is both a condition and a strategy in lived experiences and literary productions. Looking at the poetry of Phillis Wheatley, Lucille Clifton, Ntozake Shange, Lyrae Van Clief Stefanon, and Claudia Rankine, *Conjuring the Haint* explores primary stereotypes of Black women. They are aligned with unruly incarnations of the haint, probing the eerie similarities between this specter and one-dimensional imaginings of Black womanhood, examining how this haintliness manifests in Black women's elegies, the poetry of grief. Disrupting a tradition of consolation and poetic succession, Black women's elegies rework the genre by wrestling with multiple forms of death, physical, social, and spiritual. These elegies aim both to lay to rest and to resurrect. Black women poets are then repositioned as conjurers who, through the spirit work of poetry, reckon with haints as complex figures of despair and repair. Each chapter explores the paradox of haints as evidence of injury and loss and as a pathway to knowledge articulated by various incarnations: the hag, the banshee, and the vengeful revenant. Chapters place these against pervasive images of Mammy, Jezebel, and Sapphire. Through a pairing and dismantling of these ill-fitting myths, *Conjuring the Haint* refigures haints as a means of recognition and self-possession, a manifestation of the ancestral and divine.
