Swords,2012 Governments around the world have had to deal with the UFO phenomenon for a good part of a century How and why they did so is the subject of *UFOs and Government* a history that for the first time tells the story from the perspective of the governments themselves It s a perspective that reveals a great deal about what we citizens have seen and puzzled over from the outside for so many years The story which is unmasked by the governments own documents explains much that is new or at least not commonly known about the seriousness with which the military and intelligence communities approached the UFO problem internally Those approaches were not taken lightly In fact they were considered matters of national security At the same time the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality And it explains why one government the United States government deemed it wise and perhaps even necessary to treat it so Though the book focuses primarily on the U S government s response to the UFO phenomenon also included is the treatment of the subject by the governments of Sweden Australia France Spain and other countries This large format fully illustrated book is the result of a team effort that called itself The UFO History Group a collection of veteran UFO historians and researchers who spent more than four years researching consulting writing and editing to present a work of historical scholarship on government response to the UFO phenomenon Michael Swords was the primary author of the United States chapters The work was coordinated and edited by Robert Powell Clas Svahn Vicente Juan Ballester Olmos Bill Chalker and Robert Powell contributed country chapters Jan Aldrich was the primary content consultant with additional content consultation and writing coming from Barry Greenwood and Richard Thieme Steve Purcell was the primary photo illustration editor From the foreword by Jerome Clark While *UFOs and Government* revisits an often unhappy history the reading of it is far from an unhappy experience The authors eloquent intelligent sophisticated and conscientious provide us with the first credible comprehensive overview of official UFO history in many years Most of the current volume deals with U S military and intelligence responses to the UFO phenomenon but it also features richly informative chapters that expand the story across the international arena If you re looking for an example of a nation that dealt productively with the UFO reports that came its official way you will take heart in the chapter on the French projects From here on every responsible treatment of UFOs and government will have to cite *UFOs and Government* prominently among its sources this is the real story as accurately as it can be reconstructed in the second decade of the new

century I expect to keep my copy close at hand and to return to it often While it cannot be said of many books UFO themed or otherwise this is among the essential ones Stray from it at your peril **Project Mankind** Ashwin Vinoo,2023-10-04

Mankind lives in an illusion of freedom unaware of their true origins and purpose We didn't come directly from apes as Darwinians claim Rather mankind is the seventh version of a hybridization experiment run by extraterrestrials to create a slave warrior race that can also function as a source of genetic material to advance our creators Most of these races look humanoid and were once the Gods of our civilization who descended from the skies in their fiery chariots and guided humanity's first civilizations However over time man was made to forget his origins as it was deemed that him realizing that he wasn't free would interfere with the program A few millennia pass and our cities are buzzing with technology that came out of nowhere shortly after UFO sightings began Since the 1950s people have reported lights in the sky alien encounters and reports of government run secret space programs using reverse engineered extraterrestrial technology In the meantime our governments continue to lie about UFOs and extraterrestrials stating that they lack any tangible evidence despite the incredible number of eyewitnesses coming forward whose testimonies are detailed and interconnecting Unbeknownst to the public there is a plan in place to wipe out the majority of the world population and replace them with grey human hybrids that were created with reproductive material acquired through mass human abductions conducted by grey aliens This plan will take place after a solar flash event will raise the background frequency of our planet and induce a pole shift that will trigger floods and other catastrophes The shift in frequency will result in the failure of all the electronics we have come to depend on and it will render our race helpless In this period of great human suffering the Gods will descend once again bearing gifts that will pacify our situation provided we allow them to administer us The question is Will mankind wake up in time to avert their fate This book is tailored to provide the serious investigator a framework of understanding on the ET and paranormal phenomenon **Extraterrestrials** Ben Zuckerman,Michael H.
