The Model of Love Vincent

Brümmer,1993-09-16 Religious believers understand the meaning of their lives and of the world in terms of the way these are related to God The conceptual models whereby this relationship is described therefore play a key role in the conceptual designs which theologians produce to express the faith of the community of believers Vincent Brümmer examines the implications of using the model of love in this context and looks at a number of the most significant views of the nature of love exclusive attention Ortega y Gasset ecstatic union nuptial mysticism passionate suffering courtly love need love Plato Augustine and gift love Nygren All these views are shown to interpret love as an attitude rather than as a relation between persons In the final chapters a relational concept of love is developed and it is shown how all the various attitudes discussed in the previous chapters have a role to play Finally the implications are addressed of using the model of love as a key model in theology

The Dichotic Dilemma the Fabric of Life RT Chiwuta,2017-04-04 This book is about one man's search for peace in his own world and in the world at large The world always seems in turmoil and humanity intent on tearing itself apart At least that is what we are lead to believe in some of the images we see in the world and the events that happen Some people are more sensitive to this than others so this book charts a journey of a very empathic man trying to make sense of life through his writing in poetry and prose In the book RT Chiwuta seeks to see a transformed world and takes us on a journey through his insights and experiences and proposes how we can bridge the gaps that divide us as a human race Ultimately this book is about the power of perspective and the incredible diverse experience of being a human being which should inform us all of the beauty of our world This ultimately is the resonating emphasis of the book as RT Chiwuta was grasped as a young boy from Africa to the West in his youth and as a man now makes sense of the two worlds and ultimately how we can all live as one Discover the journey

But although his influence is comparable only to Picasso's, Duchamp continues to be relatively unknown outside his narrow circle of followers. This book seeks to explain his oeuvre which has been shrouded with mystery. Duchamp's two great preoccupations were the nature of scientific truth and a feeling for love with its natural limit death. His works all speak of eroticism in a way that pushes the socially acceptable to its outer limits. Juan Antonio Ramirez addresses such questions as the meaning of the artist's groundbreaking ready-mades and his famous installation *Etant donné*. His passionate essay reproduces all of Duchamp's important works in addition to numerous previously unpublished visual sources. *Duchamp: Love and Death* even is a seminal monograph for understanding this crucial figure of modern art. *The Weiser Fields Guide to Ascension* Cal Garrison, 2010-08-01 The Weiser Field Guide to Ascension tackles the vast topic so often misconstrued of the idea of ascending into a universal consciousness and creates a literal handbook to the historical biblical and highly topical implications of the concept of Ascension raising consciousness the earth shift and changes of 2012 and The Great Shift. **The Fourth Dimension and the Bible** William Anthony Granville, 1922 *Love's True Home* Sri Gawn Tu Fahr, Sri Gawn Tu Fahr is a self-described supersonic love tonic a philosophical word comic raining down from the sky.
