Lovebirds and Related Parrots George A. Smith, 1979-01-01 **Parrots of Africa, Madagascar and the Mascarene Islands** Laubscher, Mike Perrin, 2012-12-01 A detailed examination of all aspects of parrots from behavior to their conservation Parrots colour and charisma coupled with the fact that they mimic human speech make them fascinating to many people They are ancient birds with unique bill and foot structures that enable them to forage on fruits in the canopy of forest trees as well as on seeds in grasslands Because they depend on fruits and seeds all year round most species are confined to the tropics or sub tropics where the world s biodiversity is at its greatest There are over three hundred species of parrots of which more than one hundred are recognised as rare endangered vulnerable or threatened with extinction Parrots are largely distributed in tropical areas of developing countries where economies are weak and uncertain and where there is great dependence on the exploitation of natural resources particularly hard wood evergreen forests which are preferred parrot habitats Unfortunately high levels of corruption are common to these regions with much illegal trade in animals and little or no law enforcement Collectors of parrots in the first world pay huge sums for rare parrots However research education and conservation actions are greatly reducing illegal trade in African parrots This book provides complete coverage of all aspects of the biology of extant African Malagasy and Mascarene parrots and reviews our knowledge of extinct and fossil parrots from the region Particular themes include the behavioural and ecological characteristics of parrots their species characteristics and conservation biology Current concepts in avian and conservation biology are also discussed *Parrots of Africa Madagascar and the Mascarene Islands* is aimed at ornithologists conservation biologists avian ecologists academics bird watchers and parrot fans alike It is well illustrated with high quality original photographs and includes distribution maps figures and tables Lovebirds Matthew M. Vriends, 1995 Everything about housing care nutrition breeding and diseases with a special chapter Understanding lovebirds **Handbook of Lovebirds** Horst Bielfeld, Manfred Heidenreich, 1982 **The Lovebird** Pamela Leis Higdon, 2007-08-27 This is our seventh set of Happy Healthy Pet titles Like the others they are books pet owners can turn to for the essential information they need to raise a healthy happy pet All books contain information on feeding grooming housing health care what to expect from the pet basic training As our series expands and focuses on different kinds of pets the emphasis remains on making the pet a companion Owners of more unusual pets will particularly appreciate the expert advice in these books because professional care for exotic animals can be hard to come by As always the instruction on the books is from experts people who know their pets intimately but always remember what it was like to have one the first time Happy Healthy Pet guides are rich with professional quality color photos and are designed to be enjoyable and easy to learn from Parrots Mike Parr, Tony Juniper, 2010-07-30 This is the first book created primarily for the field identification of parrots one of the most familiar and colorful groups of birds From the mighty macaws to the diminutive pygmy parrots the 350 species of parrots include cockatoos parakeets lovebirds and Budgerigars Most are

brightly colored or even gaudy but a few are drab and some are nocturnal and flightless Parrots found throughout most of the warmer regions of the world occur in greatest numbers in Australasian and South America This book includes 88 superb color illustrations of every species and most identifiable subspecies of parrot as well as range maps of their locations It offers many firsthand insights into the ecology of each species vocalizations life cycle characteristics and geographical variation It also provides up to date information on the conservation status of those species of parrots that are threatened or endangered
