GLENNY,1871 **Flora Illustrata** New York Botanical Garden,2014-01-01 Presents the history and significance of some of the most important works held by the renowned New York City library including handwritten manuscripts botanical artworks herbals explorer s notebooks and nineteenth century media *One Writer's Garden* Susan Haltom,Jane Roy Brown,2011-09-08 By the time she reached her late twenties Eudora Welty 1909 2001 was launching a distinguished literary career She was also becoming a capable gardener under the tutelage of her mother Chestina Welty who designed their modest garden in Jackson Mississippi From the beginning Eudora wove images of southern flora and gardens into her writing yet few outside her personal circle knew that the images were drawn directly from her passionate connection to and abiding knowledge of her own garden Near the end of her life Welty still resided in her parents house but the garden and the friends who remembered it had all but vanished When a local garden designer offered to help bring it back Welty began remembering the flowers that had grown in what she called my mother s garden By the time Welty died that gardener Susan Haltom was leading a historic restoration When Welty s private papers were released several years after her death they confirmed that the writer had sought both inspiration and a creative outlet there This book contains many previously

unpublished writings including literary passages and excerpts from Welty's private correspondence about the garden. The authors of *One Writer's Garden* also draw connections between Welty's gardening and her writing. They show how the garden echoed the prevailing style of Welty's mother's generation which in turn mirrored wider trends in American life: Progressive era optimism, a rising middle class prosperity, new technology, women's clubs, garden clubs, streetcar suburbs, civic beautification, conservation, plant introductions, and garden writing. The authors illustrate this garden's history and the broader story of how American gardens evolved in the early twentieth century with images from contemporary garden literature, seed catalogs, and advertisements, as well as unique historic photographs. Noted landscape photographer Langdon Clay captures the restored garden through the seasons.
