Low-Rank Coal Applications in Agriculture L. Edwin Liem, 2021-04-06 Low Rank Coal Applications in Agriculture explores the commercialization and marketing potential of low rank coal which is rich in organic matter and humic substances The author a noted expert on the topic clearly shows from a practical perspective that rather than using it as an energy source this material can be applied for the agricultural sector The author investigates low rank coal s potential as used in dry and liquid humic products This book discusses both raw materials and commercial products and provides data on improved soil quality crop yields and livestock productivity This groundbreaking book details how this material can benefit agriculture thus positioning coal in the more green sector type of industry presents original data collected from laboratories and agricultural fields and summarizes literature on the science and regulation of low rank coal and humic substances Written for field practitioners end users marketers operators regulators researchers and academics Low Rank Coal Applications in Agriculture is the first book on the market to explore the real life use of low rank coal for the agricultural sector

Tone in Yongning Na Alexis Michaud, 2017-04-26 Yongning Na also known as Mosuo is a Sino Tibetan language spoken in Southwest China This book provides a description and analysis of its tone system progressing from lexical tones towards morphotonology Tonal changes permeate numerous aspects of the morphosyntax of Yongning Na they are not the product of a small set of phonological rules but of a host of rules that are restricted to specific morphosyntactic contexts Rich morphotonological systems have been reported in this area of Sino Tibetan but book length descriptions remain few This study of an endangered language contributes to a better understanding of the diversity of prosodic systems in East Asia The analysis is based on original fieldwork data made available online collected over the course of ten years commencing in 2006

Raised to Rage

Michael A. Milburn, Sheree D. Conrad, 2016-08-08 An argument that voter anger and authoritarian political attitudes can be traced to the displacement of anger fear and helplessness Politicians routinely amplify and misdirect voters anger and resentment to win their support Opportunistic candidates encourage supporters to direct their anger toward Mexicans Muslims women protestors and others rather than the true socioeconomic causes of their discontent This book offers a compelling and novel explanation for political anger and the roots of authoritarian political attitudes In *Raised to Rage* Michael Milburn and Sheree Conrad connect vociferous opposition to immigrants welfare and abortion to the displacement of anger fear and helplessness These emotions may be triggered by real economic and social instability but Milburn and Conrad's research shows that the original source is in childhood brutalization or some other emotional trauma Their research also shows that frequent experiences of physical punishment in childhood increase support in adulthood for punitive public policies distorting the political process Originally published in 1996 reprinted now with a new introduction by the authors that updates the empirical evidence and connects it to the current political situation this book offers a timely consideration of a paradox in American politics why voters are convinced by campaign rhetoric exaggeration and scapegoating to vote against their own interests **Standard Daily Trade Service** ,1926 *Rural Development Perspectives* ,1984 Heptinstall's Pathology of the Kidney J. Charles Jennette, 2007 Experts in the field of renal disease offer careful pathologic descriptions appropriate clinical correlations and extensive discussions on causes and pathogenesis to clarify the clinicians understanding and help facilitate easy accurate diagnosis This updated edition features hundreds of razor sharp illustrations along with more international contributors than before **Coalbed Methane in China** Yan Song, Xinmin Zhang, Shaobo Liu, 2021-02-09 The coalbed methane CBM reserve in China ranks third in the world with a total resource of 36 8 10¹² m³ Exploitation of CBM has an important practical significance to ensure the long term rapid development of China natural gas industry Therefore in 2002 the Ministry of Science and Technology of China set up a national 973 program to study CBM system and resolve problems of CBM exploration and exploitation in China All the main research results and new insights from the program are presented in this book The book is divided into 11 chapters The first chapter mainly introduces the present situation of CBM exploration and development in China and abroad Chapters 2 through 9 illustrate the geological theory and prospect evaluation methods Then chapters 10 and 11 discuss CBM recovery mechanisms and technology The book systematically describes the origin storage accumulation and emission of CBM in China and also proposes new methods and technologies on resource evaluation prospect prediction seismic interpretation and enhanced recovery The book will appeal to geologists lecturers and students who are involved in the CBM industry and connected with coal and conventional hydrocarbon resources research *Handbook of Motivation Science* James Y.
