True Women and Westward Expansion Adrienne Caughfield, 2005 Expansion was the fever of the early nineteenth century and women burned with it as surely as men although in a different way Subscribing to the cult of true womanhood which valued domesticity piety and similar feminine virtues women championed expansion for the cause of civilization even while largely avoiding the masculine world of politics Adrienne Caughfield mines the diaries and letters of some ninety Texas women to uncover the ideas and enthusiasms they brought to the Western frontier Although there were a few notable exceptions most of them drew on their domestic skills and values to establish not only civilization but their own security Caughfield sheds light on women's activism the flip side of domesticity attitudes toward race and civilization the tie between a vision of a unified continent and a cultivated wilderness and republican values She offers a new understanding of not only gender roles in the West but also the impulse for expansionism itself In Texas Caughfield demonstrates women never stopped arriving with more fuel for the flames of expansionism as their families tried to find a place to settle down some place with a little more room where national destiny and personal dreams merged into a glorious whole In doing so Texas women expanded not only American borders but their own as well

To Live and Die in Dixie David Zimring, 2014-12-31 According to the 1860 census nearly 350 000 native northerners resided in a southern state by the time of the Civil War Although northern in birth and upbringing many of these men and women identified with their adopted section once they moved south In this innovative study David Ross Zimring examines what motivated these Americans to change sections support or not the Confederate cause and in many cases rise to considerable influence in their new homeland By analyzing the lives of northern emigrants in the South Zimring deepens our understanding of the nature of sectional identity as well as the strength of Confederate nationalism Focusing on a representative sample of emigrants Zimring identifies two subgroups adoptive southerners individuals born and raised in a state above the Mason Dixon line but who but did not necessarily join the Confederacy after they moved south and Northern Confederates emigrants who sided

with the Confederacy during the Civil War After analyzing statistical data on states of origin age education decade of migration and most importantly the reasons why these individuals embarked for the South in the first place Zimring goes on to explore the prewar lives of adoptive southerners the adaptations they made with regard to slavery and the factors that influenced their allegiances during the secession crisis He also analyzes their contributions to the Confederate military and home front the emergence of their Confederate identities and nationalism their experiences as prisoners of war in the North and the reactions they elicited from native southerners In tracing these journeys from native northerner to Confederate veteran this book reveals not only the complex transformations of adoptive southerners but also the flexibility of sectional and national identity before the war and the loss of that flexibility in its aftermath To Live and Die in Dixie is a thought provoking work that provides a novel perspective on the revolutionary changes the Civil War unleashed on American society
