The Real Story Michael Bowman, 2008-04 The Second Coming is unfolding in Tennessee where intelligent design is a fact of life and evolutionary science a lie This is local reporter Laurie Hendricks account of events told through the lives of a small circle of disciples We learn that a Second Coming does not signal the end of the world in a literal sense it is a metaphor for our responsibility to create a better world But first we must recognize that as consciousness we are infinitely more than these material bodies they are simply our access to the material world In allowing ourselves to be controlled by them in struggling to satisfy their urges and demands we create the divisive self interest behind ALL of our problems Laurie s story echoes the words of enlightened thinkers through the ages The world only changes for the better when we do First we must see through material illusions and recognize our Real nature as consciousness

The Killing Season Robert Cowley, 2025-09-02 An in depth authoritative account of the fall of 1914 on the Western Front and the First Battle of Ypres a true turning point in World War I and in modern warfare by the founding editor of MHQ The Quarterly Journal of Military History A masterful and heartbreaking book If you want to know how modern warfare began The Killing Season is for you Geoffrey C Ward co author of The Civil War The War and The Vietnam War The Marne may have saved Paris and prevented a devastating setback for the Allies but it did not spell eventual defeat for Germany Ypres did The final months of 1914 were the bloodiest interval in a famously bloody war a killing season They ended with the First Battle of Ypres a struggle in West Flanders Belgium whose importance has been too long overlooked until now Robert Cowley s fresh novelistic account of this crucial period describes how German armies in France were poised to sweep north to capture the Channel ports and knock England out of the war and were only held back by a brilliant improvisation from a cobbled together handful of desperate British French and Belgian troops In a re examination of events that have too long seemed set in stone Cowley combines a wide array of source materials with sharp portrayals both of military leaders and of the men they led We follow Albert of Belgium the world s last warrior king French General Ferdinand Foch a former professor of military science

and Hendrik Geeraert an alcoholic barge keeper who pulled off Albert's literal last ditch effort. Many other memorable characters emerge including Sir John French a British commander who displayed his greatest talent for maneuver in the bedroom along with both a young Adolf Hitler and Winston Churchill. The vast brawl of four armies in Flanders was a turning point that irrevocably changed the nature of modern warfare. In this visceral account based on thirty years of research and picking up where Barbara Tuchman's *The Guns of August* left off, Cowley details the crucial decisions that determined the outcome of the Great War which may have been decided by a single extraordinary afternoon.
