Ludwig the Second: King of Bavaria Clara Tschudi,2020-09-28 At the birth of Ludwig II enigmatic as he was unfortunate of whom I propose to give a sketch his grandfather the eccentric Ludwig I was still King of Bavaria His father Maximilian Joseph was the Crown Prince The latter had wedded in 1842 the beautiful Princess Marie of Prussia who was only sixteen years of age at the time of her marriage her husband being twenty years her senior To all appearance the marriage was a very happy one

Maximilian was an intelligent and right thinking man devoted to public duty but he had indifferent health and like the greater number of his race was the possessor of a sensitive nervous system For some years it appeared as if the marriage would be childless At the beginning of the year 1845 however the people of Bavaria were informed that the Crown Princess was enceinte and on the 25th of August on the birthday of the reigning King a hundred and one guns proclaimed the birth of a prince at the chateau of Nymphenburg As a matter of fact the princely infant had seen the light two days earlier but the event had been kept a secret in order to give Ludwig I a pleasant surprise the King having expressed a wish that a possible hereditary prince might come into the world on that day The child was named after him and he held it himself at the font The old King at that time was at the height of his popularity Soon however a turning point set in the dancer Lola Montez invaded the lovesick Monarch's life causing a violent insurrection in the Bavarian capital Then came the democratic rising of 1848 general all over Europe which threw fuel on the fire Ludwig was compelled to abdicate and was succeeded by his son Maximilian Joseph who ascended the throne under the title of Maximilian II Shortly after these political disturbances took place the young Queen was brought to bed of another son who was named Otto The effect on her of the alarm and excitement caused by the aforesaid events was such that he came into the world three months too early The physicians declared that it was impossible for the child to live but they proved to be mistaken in their opinion

National Monuments and Nationalism in 19th Century Germany Hans A. Pohlsander,2008 No century in

modern European history has built monuments with more enthusiasm than the 19th Of the hundreds of monuments erected those which sprang from a nation wide initiative and addressed themselves to a nation rather than part of a nation we may call national monuments Nelson s Column in London or the Arc de Triomphe in Paris are obvious examples In Germany the 19th century witnessed a veritable flood of monuments many of which rank as national monuments These reflected and contributed to a developing sense of national identity and the search for national unity they also document an unsuccessful effort to create a genuinely German style They constitute a historical record quite apart from aesthetic appeal or ideological message As this historical record is examined German national monuments of the 19th century are described and interpreted against the background of the nationalism which gave birth to them

Requiem of the Swan Prince A R Valeson,2021-02-18 Ludwig II led a life immersed in dreams and fantasy through which he found comfort from the loneliness and disillusionment of kingship He sought to bring to life the ideal world of medieval chivalry and folklore carried away by the romantic waves of Wagner s music building his castles in the sky and a legacy of otherwordly wonder This surreal tale seeks to rekindle the world which the author believes had dwelt in the king s heart a psychological novel taking place between life and death reality and dreams madness and sanity Forever pursuing the mysteries of the grail and basking in the fading light of ancient heroes Ludwig further distanced himself from the duties and oppressive bureaucracy of his station grasping at beautiful shadows and flames until they engulf the emptiness and longing of his reclusive soul for a forbidden immortal love that survives only in the grotto of ideals

History's 9 Most Insane Rulers Scott Rank,2020-05-12 Madness and Power Can the insane rule Can insanity be a leadership quality Scott Rank says yes well sometimes in this fascinating look at nine of history s most notorious rulers from the Roman emperor Caligula to the North Korean Communist dictator Kim Jong il Rank paints intimate portraits of these deeply flawed but powerful men examining the role that madness played in their lives the repercussions of their madness on history and what their madness can tell us about the times in which they lived In History s 9 Most Insane Rulers you will meet King Charles VI of France who thought he was made of glass Sultan Ibrahim I who was driven mad by the sadistic succession battles of the Ottoman Empire Caligula who built temples to himself and whose reign highlighted the lethal tensions between the power of the new Imperial Rome and the prerogatives of the old Roman Republic The Russian tsar who became known as Ivan the Terrible King George III of Britain who not only lost his American colonies but lost his mind as well Bavaria s Mad King Ludwig II who left the world richer for his fabulous fairy tale castles and his patronage of the composer Richard Wagner Insane rulers did not die off with the last of the mad monarchs who inherited their power Rank also examines the rise to power of crazed modern rulers such as Idi Amin who began as a

lowly army cook and rose to the presidency of Uganda and Saparmurat Niyazov who ruled Turkmenistan and promoted a bizarre cult of personality around himself Both entertaining and illuminating History s 9 Most Insane Rulers is a must read for anyone interested in the role insanity has played in history The Romance Of King Ludwig II Of Bavaria Frances A.
