Department of Economics, Government, and History, 1941 Foreign Powers and Intervention in Armed Conflicts Aysegul Aydin, 2012-07-11 Intervention in armed conflicts is full of riddles that await attention from scholars and policymakers This book argues that rethinking intervention redefining what it is and why foreign powers take an interest in others conflicts is of critical importance to understanding how conflicts evolve over time with the entry and exit of external actors It does this by building a new model of intervention that crosses the traditional boundaries between economics international relations theory and security studies and places the economic interests and domestic political institutions of external states at the center of intervention decisions Combining quantitative and qualitative evidence from both historical and contemporary conflicts including interventions in both interstate conflicts and civil wars it presents an in depth discussion of a range of interventions diplomatic economic and military in a variety of international contexts creating a comprehensive model for future research on the topic *U.S. Commitments to Foreign Powers* United States. leading law enforcement officer in Rwanda from 1996-2003 the book provides an in depth analysis of the social political and legal challenges faced by Rwanda in the aftermath of the genocide and the aspirations and legacy of transitional justice The book explores the role played by the accountability processes not just in pursuing accountability but also in shaping the reconstruction of Rwanda's institutions of democratic governance and political reconciliation Central to this exploration will be the examination of whether or not transitional justice in Rwanda has contributed to a foundational rule of law reform process While recognizing the necessity of pursuing accountability for mass atrocity the book argues that a maximal approach to accountability for genocide may undermine the promotion of core objectives of transitional justice Taking on one of the key questions facing practitioners and scholars of transitional justice today the book suggests that the pursuit of mass accountability particularly where socio economic resources and legal capacity is limited may destabilize the process of rule of law reform endangering core human rights norms Moreover the book suggests that pursuing a strategy of mass accountability may undermine the process of democratic transition particularly in a context where impunity for crimes committed by the victors of armed conflicts persists Highlighting the ongoing democratic deficit in Rwanda and resulting political instability in the Great Lakes region the book argues that the effectiveness of transitional justice ultimately hinges on the nature and success of political transition
