Interpreting the Environment at Museums and Historic Sites Debra A. Reid, David D. Vail, 2019-09-19 Interpreting the Environment at Museums and Historic Sites is for anyone who wants to better understand the environment that surrounds us and sustains us who wants to become a better steward of that environment and who wants to share lessons learned with others The process starts by focusing attention on the environment the physical space that constitutes the largest three dimensional object in museum collections It involves conceptualizing spaces and places of human influence spaces that contain layer upon layer documenting human struggles to survive and thrive This evidence exists in natural environments as well as city centers The process continues by adopting an environment centric view of the spaces destined to be interpreted This mind set forms the basis for devising research plans that document how humans have changed destroyed conserved and sustained spaces over time and the ways that the environment reacts Interpretation built on this evidence then becomes the basis for minds on engagement with the places

that humans inhabit and the spaces that they have changed and continue to manipulate Interpreting the Environment at Museums and Historic Sites provides a tool kit designed to help you research environmental history document evidence of human influence on land and the environment over time and tailor that knowledge to new public engagement It proposes a multi disciplinary approach that requires expertise in the humanities as well as the sciences and social sciences to best understand space and place over time It incorporates case studies of the theory and method of environmental history to explore how human goals take lasting shape in the environment creating working environments getting water generating and harnessing power growing food traveling and trading building things and preserving natural landscapes Features include the Interpreting the Environment Tool Kit to help you launch the good work of interpreting the environment Raw Materials the evidence landscape ecosystems artifacts and the built environmentPreparation methods thinking like a naturalist scientist thinking like a historian combining approachesPlanning envisioning the goal proactive message stewardship sustainabilityPartnerships sharing work strength in numbers allying across disciplinary divides united in efforts to inform the public about their individual and collective effects on the landscape and the environmentPotential educating the public about people and places is part of a world wide goal with the cumulative effect of saving the planet one story at a time A Timeline and Bibliographic essay round out the book s resources

Major Problems in American History Elizabeth Cobbs Hoffman, Jon Gjerde, 2002

The Environment and World History Edmund Burke III, Kenneth Pomeranz, 2009-04-08 Since around 1500 C E humans have shaped the global environment in ways that were previously unimaginable Bringing together leading environmental historians and world historians this book offers an overview of global environmental history throughout this remarkable 500 year period In eleven essays the contributors examine the connections between environmental change and other major topics of early modern and modern world history population growth commercialization imperialism industrialization the fossil fuel

revolution and more Rather than attributing environmental change largely to European science technology and capitalism the essays illuminate a series of culturally distinctive yet often parallel developments arising in many parts of the world leading to intensified exploitation of land and water The wide range of regional studies including some in Russia China the Middle East India Southeast Asia Latin America Southern Africa and Western Europe together with the book s broader thematic essays makes *The Environment and World History* ideal for courses that seek to incorporate the environment and environmental change more fully into a truly integrative understanding of world history

Today's Environmental Issues Teri J. Walker,2017-12-01 An accessible and impartial survey of the positions of the Republican and Democratic parties on the most pressing environmental issues of our time from climate change and wilderness preservation to air and water pollution *Today's Environmental Issues Democrats and Republicans* presents a unique perspective on party politics one that impartially identifies similarities and differences regarding an array of topics ranging from fracking sustainability and pesticides to logging and noise pollution Essays provide both historical information and up to date coverage of partisan opinions on today s environmental concerns Written for upper level high school students undergraduates and general audiences interested in environmental issues and partisan viewpoints this book enables readers to better understand the origins details differences and commonalities of partisan opinions surrounding today s environmental concerns Each environmental issue is unique with its own set of concerns and impacts particularly when viewed from a party perspective By examining a breadth of issues from the party viewpoint readers can understand how the parties could work together or in opposition depending on the environmental issue and that the parties may not always be polar opposites on every issue a characterization that is often portrayed in the media Each essay includes a sidebar that presents a quick look at the party line individuals who have shaped opinion or policy or key court decisions

Rachel Carson and Her Sisters Robert K Musil,2014-04-01 In *Rachel Carson and Her Sisters* Robert K Musil redefines the achievements and legacy of environmental pioneer and scientist Rachel Carson linking her work to a wide network of American women activists and writers and introducing her to a new contemporary audience Rachel Carson was the first American to combine two longstanding but separate strands of American environmentalism the love of nature and a concern for human health Widely known for her 1962 best seller *Silent Spring* Carson is today often perceived as a solitary great woman whose work single handedly launched a modern environmental movement But as Musil demonstrates Carson s life s work drew upon and was supported by already existing movements many led by women in conservation and public health On the fiftieth anniversary of her death this book helps underscore Carson s enduring environmental legacy and brings to life the

achievements of women writers and advocates such as Ellen Swallow Richards Dr Alice Hamilton Terry Tempest Williams Sandra Steingraber Devra Davis and Theo Colborn all of whom overcame obstacles to build and lead the modern American environmental movement *Encyclopedia of Historians and Historical Writing* Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **After the Death of Nature** Kenneth Worthy,Elizabeth Allison,Whitney Bauman,2018-11-09 Carolyn Merchant's foundational 1980 book *The Death of Nature: Women, Ecology, and the Scientific Revolution* established her as a pioneering researcher of human nature relations Her subsequent groundbreaking writing in a dozen books and over one hundred peer reviewed articles have only fortified her position as one of the most influential scholars of the environment This book examines and builds upon her decades long legacy of innovative environmental thought and her critical responses to modern mechanistic and patriarchal conceptions of nature and women as well as her systematic taxonomies of environmental thought and action Seventeen scholars and activists assess praise criticize and extend Merchant's work to arrive at a better and more complete understanding of the human place in nature today and the potential for healthier and more just relations with nature and among people in the future Their contributions offer personal observations of Merchant's influence on the teaching research and careers of other environmentalists **Environmental Issues in American History** Chris J. Magoc,2006-04-30 Uses textual analysis primary source documents and an issues centered approach to introduce American environmental history Creation, God, and Humanity Catherine Wright,2017 Examines the history and development of ecological theological anthropology and how it engages human suffering so that people of faith can better understand the suffering inherent to earth's creative processes and that inflicted by human sin Leaders from the 1960s David De Leon,1994-06-22 The throngs at Woodstock Jane Fonda in Hanoi I Have a Dream burning draft cards fire in the streets these images of the 1960s are still very much alive today What happened to the people and principles that dominated that decade Which leaders from those turbulent years had the most lasting effect on our lives today How well have the principles for which those leaders fought so strongly withstood the test of time This thought provoking biographical dictionary allows the reader to study the leaders both conservative and liberal their ideals and their enduring influence With major sections on racial democracy peace and freedom sexuality and gender the environment radical culture and visions of alternative societies *Leaders from the 1960s* includes entries on a wide

selection of nationally prominent activists of the 1960s In addition to those who dominated only the sixties the volume includes earlier activists who came into prominence in the 1960s and activists of the era who came into prominence since the 1960s Each entry provides a biographical sketch but the focus of the entries is on the person s basic concepts or the essence of his or her work and the public response it generated Included are extensive bibliographies on the individuals and the period
