Majority Finds Its Past Placing Women In History:

The Majority Finds Its Past Gerda Lerner, 1981 Lauded for its contribution to the theory and conceptualization of the field of women's history and for its sensitivity to the differences of class ethnicity race and culture among women The Majority Finds Its Past became a classic volume in women's history after its original publication in 1979 This edition includes a foreword by Linda K Kerber introducing a new generation of readers to Gerda Lerner's body of work and highlighting the importance of the essays in this collection to the development of the field that Lerner helped establish

Why History Matters Gerda Lerner, 1998-02-26 All human beings are practicing historians writes Gerda Lerner We live our lives we tell our stories It is as natural as breathing It is as important as breathing too History shapes our self definition and our relationship to community it locates us in time and place and helps to give meaning to our lives History can be the vital thread that holds a nation together as demonstrated most strikingly in the case of Jewish history Conversely for women who have lived in a world in which they apparently had no history its absence can be devastating In Why History Matters Lerner brings together her thinking and research of the last sixteen years combining personal reminiscences with innovative theory that illuminate the importance of history and the vital role women have played in it Why History Matters contains some of the most significant thinking and writing on history that Lerner has done in her entire career a summation of her life and work The chapters are divided into three sections each widely different from the others each revelatory of Lerner as a woman and a feminist We read first of Lerner's coming to consciousness as a Jewish woman There are moving accounts of her early life as a refugee in America her return to Austria fifty years after fleeing the Nazis to discover a nation remarkable both for the absence of Jews and for the anti-Semitism just below the surface her slow assimilation into American life and her decision to be a historian If the first section is personal the second focuses on more professional concerns Included here is a fascinating essay on nonviolent resistance tracing the idea from the Quakers such as Mary Dyer to abolitionists such as Theodore Dwight Weld the most mobbed man in America to Thoreau's essay Civil Disobedience then across the sea to Tolstoy and Gandhi before finally returning to America during the civil rights movement of the 1950s There are insightful essays on American Values and on the tremendous advances women have made in the twentieth century as well as Lerner's presidential address to the Organization of American Historians which outlines the contributions of women to the field of history and the growing importance of women as a subject of history The highlight of the final section of the book is Lerner's bold and innovative look at the issues of class and race as they relate to women an essay that distills her thinking on these difficult subjects and offers a coherent conceptual framework that will prove of lasting interest to historians and intellectuals A major figure in women's studies and long term activist for women's issues a founding member of NOW and a past president of the Organization of American Historians Gerda Lerner is a pioneer in the field of Women's History and one of its leading practitioners Why History Matters is the summation of the work and thinking of this distinguished historian

One Half the People Anne Firor Scott, Andrew MacKay Scott, 1982 *History And--* Ralph Cohen, Michael S. Roth, 1995 Recent trends in the humanities and social sciences have forced on academia what many might call a crisis of history Conventional assumptions about coherence and meaning in history are being challenged by questions concerning the relevance of history and attempts to refigure its content and mode of representation The publication of *History and* appears at a critical moment in our efforts to understand the importance of history as it relates to a wide range of scholarly disciplines *History and* brings together some of its most thoughtful scholars to better understand not only how our disciplines are connected to professional historiography but how our attempts to understand cultures are connected to our pasts *The Dismissal of Miss Ruth Brown* Louise S. Robbins, 2022-11 In 1950 Ruth W Brown librarian at the Bartlesville Oklahoma Public Library was summarily dismissed from her job after thirty years of exemplary service ostensibly because she had circulated subversive materials In truth however Brown was fired because she had become active in promoting racial equality and had helped form a group affiliated with the Congress of Racial Equality Louise S Robbins tells the story of the political social economic and cultural threads that became interwoven in a particular time and place creating a strong web of opposition This combination of forces ensnared Ruth Brown and her colleagues for the most part women and African Americans who championed the cause of racial equality This episode in a small Oklahoma town almost a half century ago is more than a disturbing local event It exemplifies the McCarthy era foregrounding those who labored for racial justice sometimes at great cost before the civil rights movement In addition it reveals a masking of concerns that led even Brown's allies to obscure the cause of racial integration for which she fought Relevant today Ruth Brown's story helps us understand the matrix of personal community state and national forces that can lead to censorship intolerance and the suppression of individual rights

Writing Women's History Since the Renaissance Mary Spongberg, 2017-03-08 The complaint of Catherine Morland in Jane Austen's *Northanger Abbey* that history has hardly any women at all is not an uncommon one Yet there is evidence to suggest that women have engaged in historical writing since ancient times This study traces the history of women's historical writing reclaiming the lives of individual women historians recovering women's historical writings from the past and focusing on how gender has shaped the genre of history Mary Spongberg brings together for the first time an extensive survey of the progress of women's historical writing from the Renaissance to the present demonstrating the continuities between women's historical writings in the past and the development of a distinctly woman centred historiography *Writing Women's History since the Renaissance* also examines the relationship between women's history and the development of feminist consciousness suggesting that the study of history has alerted women to their unequal status and enabled them to use history to achieve women's rights Whether feminist or anti feminist women who have had their historical writings published have served as role models for women seeking a voice in the public sphere and have been instrumental in encouraging the growth of a feminist discourse
