Make Room For Dreams:

Make Room for Dreams Haim Gordon, 1989-06 *Make Room for Dreams* examines Zionism from both a philosophical and practical point of view. This in-depth study reviews and evaluates the notion that Zionism has become a way of enlisting political or economic support for Israel and is no longer seen as a movement that should seek ways to realize humane or spiritual goals. The discussion focuses on the concept of Zionism as the return of the Jewish people to the land of Israel, a return that must be accompanied by a changing of certain basic attitudes concerning the Jews' mode of being in the world. The manner of blending existentialism with political thought is seen in relation to the Biblical experience and it is shown that Zionist challenges must draw their sustenance from the ability to read the Bible with existential and political awareness. It presents five specific challenges for Zionism in Israel, citing concrete examples from life in Israel and some examples from the history of Zionism. The current situation is also described and precise determinations for responding to the challenges are woven into each chapter. Also included is a thought-provoking summary of the manner in which a more authentic Jewish existence can be lived in Israel. This scholarly work is the first to deal with the complex issues behind the Zionist movement in present-day Israel and will provide a valuable resource for philosophers, political scientists, and students in Jewish studies.

Dream It First Jacqueline R. Robertson, 2012-03 This inspiring book is not just another how-to book that you will find in the psychology, finance, business, or self-help aisles of your local book store nor will it be placed solely on the philosophy or spiritual shelves. However, the compelling messages in this fascinating book can easily be found in any of these venues. The universal messages throughout this groundbreaking book are centered on the mysterious theory of the 80/20 law, which approximately 80 percent or more of today's population isn't familiar with. In today's society, there is an esoteric 20 percent group of successful dreamers and thinkers who understand the workings of this positive spiritual law and use it to manage their personal problems, achieving their dreams and goals by using only their own resources. You can now step away from the trivial many and become a part of the vital few who have it all. You will find the answers you seek in *Dream It First: The 80/20 Law to Manifestation of Dreams and Goals*. So dreamers, let's get started. About the Author: Jacqueline R. Let's be honest the life you lead isn't what you've always dreamt. And maybe the person you've become isn't who you've always imagined. Sure you can clean it up. You can work longer love harder and eat better. You can scrub the surface of your life until it gleams and still never address the fact that somehow you lost sight of who you really are and what you're living for. Is this the life you were meant to live? As the child of Nigerian immigrants in the UK author and speaker Jo Saxton knows firsthand how quickly the world can cause us to doubt our dreams and question who we are. She understands how easily we can exchange our true child of God selves for an identity built on lies guilt and brokenness. In this powerful book Jo examines Biblical figures and shares her personal story as she invites you to turn to the One who knows you intimately and loves you deeply. He sees all you've struggled to hide. He hears the voice inside you that others have silenced. He knows the potential and purpose that no one valued. He longs to redeem the story of your life and set you on the path to reclaim. *The Dream of You* Are you ready? *Performing Dream Homes* Emily Klein, Jennifer-Scott Mobley, Jill Stevenson, 2019-01-22. This anthology explores how theatre and performance use home as the prism through which we reconcile shifts in national cultural and personal identity. Whether examining parlor dramas and kitchen sink realism site specific theatre travelling tent shows domestic labor border performances fences or front yards these essays demonstrate how dreams of home are enmeshed with notions of neighborhood community politics and memory. Recognizing the family home as a symbolic space that extends far beyond its walls the nine contributors to this collection study diverse English language performances from the US Ireland and Canada. These scholars of theatre history dramaturgy performance cultural studies feminist and gender studies and critical race studies also consider the value of home at a time increasingly defined by crises of homelessness a moment when major cities face affordable housing shortages when debates about homeland and citizenship have dominated international elections and when conflicts and natural disasters have displaced millions. Global struggles over immigration sanctuary refugee status and migrant labor make the stakes of home and homelessness ever more urgent and visible as this timely collection reveals. **The Dreams of a Child** Claudio Colace, 2022-06-09. This fascinating and highly original book presents a longitudinal systematic study of the earliest form of human dreaming in a child from ages 4 through 10. Claudio Colace draws upon his extensive research on children's dreams his expertise in brain science and an intimate knowledge of a single subject his son Marco to demonstrate the validity of an ontogenetic approach to the understanding of dream processes. The availability of first hand information about the daytime experiences of the author's son in relation to dream contents as well as the longitudinal approach of the study prove to be useful for a qualitative in depth analysis of the nature and function of infantile dreams and of the changes that occur in the dreaming process as the child grows from the early forms to more

complex ones Affirming the significance of Freud's explorations of infantile dreaming this book attests to the nature of dreaming as a meaningful psychic act rather than the result of random processes Expanding beyond a purely psychotherapeutic context the book analyzes the development of dreams systematically and in relation to Freud's theories on the human mind making it an important read for clinicians scholars and researchers interested in dream functions child development and psychodynamic theory *A Long Dream of Home* Siddhartha Gigoo, Varad Sharma, 2016-10-18 Twenty five years ago in the winter of 1990 about four hundred thousand Pandits of Kashmir were forced to leave Kashmir their homeland to save their lives when militancy erupted there Even today they continue to live as internally displaced migrants in their own country While most Kashmiri Pandits have now carved a niche for themselves in different parts of India several thousands are still languishing in migrant camps in and around Jammu The stories of their struggles and plight have remained untold for years The authors of the memoirs in this anthology belong to four generations Those who were born and brought up in Kashmir and fled while they were in their forties and fifties those who lingered on in their homes in Kashmir despite the threat to their lives those who got displaced in their teens and those who were born in migrant camps in exile These narratives explore several aspects of the history cultural identity and existence of the Kashmiri Pandits These are untold narratives about the persecution of Pandits in Kashmir during the advent of militancy in 1989 the killings and kidnappings loss of homeland uprootedness camp life struggle survival alienation and an ardent yearning to return to their land These are stories about the re-discovery of their past their ancestry culture and roots and moorings **Dream Science** J.
