Maker Of Universes:

The Maker of Universes Philip José Farmer, 1970 **The Maker of Universes** Philip Jose Farmer, 2012-03-19 When Robert Wolff found a strange horn in an empty house he held the key to a different universe To blow that horn would open up a door through space time and permit entry to a cosmos whose dimensions and laws were not those known by our starry galaxy For that other universe was a place of tiers world upon world piled upon each other like the landings of a sky piercing mountain The one to blow that horn would ascend those steps from creation to creation until he would come face to face with the being whose brain child it was But what if that maker of universes was a madman Or an imposter Or a super criminal hiding from the wrath of his own superiors *The maker of universes. The gates of creation* Philip José Farmer, 1981

Chapman, 1984-01-01 Dr Chapman provides the first comprehensive examination of Farmer s major themes and fiction from his earliest writings to his bestseller The Gods of Riverworld The Divine Zetan Trilogy Martin Lundqvist, The Divine Zetan Trilogy is an epic saga that takes place in the 29th century The Divine Dissimulation In the search of immortality Abraham Goldstein funds a secret project to build a replica of the Holy Land and uses mind control technology to convince his captives that he is God of Eden The Divine Sedition The leader of The Martian Humanist Alliance Keila

Embodiment and the Cosmic Perspective in Twentieth-Century Fiction Marco Caracciolo,2020-05-13 In dialogue with groundbreaking technologies and scientific models twentieth century fiction presents readers with a vast mosaic of perspectives on the cosmos The literary imagination of the world beyond the human scale however faces a fundamental difficulty if as researchers in both cognitive science and narrative theory argue fiction is a practice geared toward the human embodied mind how can it cope with scientific theories and concepts the Big Bang quantum physics evolutionary biology and so on that resist our common sense intuitions and appear discontinuous in spatial as well as temporal terms with our bodies This book sets out to answer this question by showing how the embodiment of mind continues to matter even as writers and readers are pushed out of their terrestrial comfort zone Offering thoughtful commentary on work by both mainstream literary authors and science fiction writers from Primo Levi to Jeanette Winterson from Olaf Stapledon to Pamela Zoline Embodiment and the Cosmic Perspective in Twentieth Century Fiction explores the multiple ways in which narrative can radically defamiliarize our bodily experience and bridge the gap with cosmic realities This investigation affords an opportunity to reflect on the role of literature as it engages with science and charts its epistemological and ethical ramifications
