Makers Of The Twentieth Century Novel:

Makers of the twentieth-century novel Harry Raphael Garvin, 1979 Who's Who of Twentieth Century Novelists Tim Woods, 2008-02-21 Taking in novelists from all over the globe from the beginning of the century to the present day this is the most comprehensive survey of the leading lights of twentieth century fiction Superb breadth of coverage and over 800 entries by an international team of contributors ensures that this fascinating and wide ranging work of reference will be invaluable to anyone with an interest in modern fiction Authors included range from Joseph Conrad to Albert Camus and Franz Kafka to Chinua Achebe Who's Who of Twentieth Century Novelists gives a superb insight into the richness and diversity of the twentieth century novel **A Reader's Guide to the Twentieth-century Novel in Britain** Randall Stevenson, 1993-01-01 The novel is the major literary phenomenon of the twentieth century and its development in Britain since 1900 has reflected the tumultuous changes that have characterized modern society Randall Stevenson now presents an accessible and authoritative guide to the work of the century's leading novelists as well as many of its lesser known writers In this stimulating and wide ranging account Stevenson locates the work of individual writers from Conrad to Jeanette Winterson within an evolving literary history and the wider context of social political and cultural change Included are British writers working in exile and writers with origins elsewhere such as James and Rushdie who have chosen to work in Britain Women novelists are accorded their rightful prominence This clear and lively survey deals with a broad range of movements including modernism and postmodernism as well as the influence of other world literatures and the impact of two world wars An ideal text this is a guide in the best sense concise and lucid well informed and perceptive Readers new to the field will appreciate Stevenson's clear direction while the experienced will be delighted by newly revealed connections and fresh perspectives *The Making of the Twentieth-Century Novel* John Orr, 1987-01-01 *Studies in Ontology in Twentieth Century Literature* Doris Enright-Clark Shoukry, 2018-06-11 This book is a study of literary concern with ontology throughout the twentieth century It consists of ten essays each of which focuses on one or various writers absorption with the nature of man and his being in this world The volume discusses Gertrude Stein Virginia Woolf Franz Kafka Thomas Stearns Eliot Milan Kundera Eugène Ionesco Albert Camus Marguerite Duras Toni Morrison and Nathalie Sarraute as reflecting ontological concerns These writers although not subscribing to the Sartrean proclamation that existence precedes essence did consider the related existential questions concerning man's freedom and responsibility for his being living in Stein's terminology Their works are symptomatic of modern man's preoccupation with understanding the self as a source of wisdom These essays were written over many years and represent the author's own findings and thoughts over that time assembled here between the covers of one book In addition to fulfilling that function and their pertinence when they were written they offer the reader a nostalgic journey to the twentieth century's literary adventures and creativity A new novel was born and the breakdown of the rigid distinctions between genres made it possible for a novelist to write poetry and for a poet or playwright to explore a

common theme with a novelist while they all shared with contemporary philosophers an obsession with the nature of man's being in this world This book therefore throws light on the intellectual preoccupations of this era **The Oxford**

Studies of the English gentleman have tended to focus mainly on the nineteenth century encouraging the implicit assumption that this influential literary trope has less resonance for twentieth century literature and culture Christine Berberich challenges this notion by showing that the English gentleman has proven to be a remarkably adaptable and relevant ideal that continues to influence not only literature but other forms of representation including the media and advertising industries Focusing on Siegfried Sassoon Anthony Powell Evelyn Waugh and Kazuo Ishiguro whose presentations of the gentlemanly ideal are analysed in their specific cultural historical and sociological contexts Berberich pays particular attention to the role of nostalgia and its relationship to Englishness Though Englishness and by extension the English gentleman continue to be linked to depictions of England as the green and pleasant land of imagined bygone days Berberich counterbalances this perception by showing that the figure of the English gentleman is the medium through which these

authors and many of their contemporaries critique the shifting mores of contemporary society Twentieth century depictions of the gentleman thus have much to tell us about rapidly changing conceptions of national class and gender identity
