Making A Place For Pleasure In Early Childhood Education:

Making a Place for Pleasure in Early Childhood Education Joseph J. Tobin, 2008-10-01 Kindergarten kissing games four year olds playing doctor a teacher holding a crying child on his lap as he comforts her Interactions like these spontaneous and pleasurable are no longer encouraged in American early childhood classrooms and in some cases they are forbidden The quality of the lives of our children and their teachers is thereby diminished contend the contributors to this timely book In response to much publicized incidents of child abuse by caretakers a moral panic has swept over early childhood education In this book experienced teachers of young children and teacher education experts issue a plea for sanity for restoring a sense of balance to preschool nursery school and kindergarten classrooms The contributors to this book explore how caretakers of preschool children and other adults have overreacted to fears about child abuse Drawing on feminist queer and poststructural theories the authors argue for the restoration of pleasure as a goal of early childhood education

Bodies as Sites of Cultural Reflection in Early Childhood Education Rachael S. Burke, Judith Duncan, 2014-10-30 Taking the body as a locus for discussion Rachael S Burke and Judith Duncan argue not only that implicit cultural practices shape most of the interactions taking place in early childhood curricula and pedagogy but that many of these practices often go unnoticed or unrecognized as being pedagogy Current scholars inspired by Foucault acknowledge that the body is socially and culturally produced and historically situated it is simultaneously a part of nature and society as well as a representation of the way that nature and society can be conceived Every natural symbol originating from the body contains and conveys a social meaning and every culture selects its own meaning from the myriad of potential body symbolisms Bodies as Sites of Cultural Reflection in Early Childhood Education uses empirical examples from qualitative fieldwork conducted in New Zealand and Japan to explore these theories and discuss the ways in which children s bodies represent a central focus in teachers pedagogical discussions and create contexts for the embodiment of children s experiences in the early years

matter in research relationships What does an emphasis on relationships with young children mean for the research process Drawing on data from their own research the authors contend that relationships are part of a wider web of social relations and space time configurations They propose and develop a relational ethics of answerability and social justice inspired by the work of Bakhtin and in addition explore the way material bodies come to matter the ambiguity of consent in educator research and the risks and possibilities of research relationships Chapters include innovative formulations of reciprocity sensing practices and political ethical responsibility This book contributes to current debates about research with young children offering an incisive and thorough exploration of the importance of relationships to the research process Relevant for international audiences this book is essential reading for early childhood students and educators researchers and lecturers with an interest in research with children

Beyond Quality in Early Childhood Education and Care Gunilla Dahlberg, Peter Moss, Alan Pence, 2013-10-23 Taking a broad approach Beyond Quality in Early Childhood Education and Care relates issues of early childhood to the sociology of childhood philosophy ethics political science and other fields and to an analysis of the world we live in today It places these issues in a global context and draws on work from Canada Sweden and Italy including the world famous nurseries in Reggio Emilia Working with postmodern ideas this book questions the search to define and measure quality in the early childhood field and its tendency to reduce philosophical issues of value to purely technical and managerial issues of expert knowledge and measurement With a brand new Preface to this classic text the authors argue that there are other ways than the discourse of quality for understanding and evaluating early childhood pedagogical work and relate these to alternative ways of understanding early childhood itself and the purposes of early childhood institutions

Gender and Childhood Sexuality in Primary School Deevia Bhana, 2016-10-12 This book is an ethnography of teachers and children in grades 1 and 2 and presents arguments about why we should take gender and childhood sexuality seriously in the early years of South African primary schooling Taking issue with dominant discourses

which assumes children's lack of agency the book questions the epistemological foundations of childhood discourses that produce innocence It examines the paradox between teachers' dominant narratives of childhood innocence and children's own conceptualisation of gender and sexuality inside the classroom with peers in heterosexual games in the playground and through boyfriend/girlfriend relationships It examines the nuances and finely situated experiences which draw attention to hegemonic masculinity and femininity where boys and girls challenge and contest relations of power The book focuses on the early makings of gender and sexual harassment and shows how violent gender relations are manifest even amongst very young boys and girls Attention is given to the interconnections with race/class structural inequalities as well as the actions of boys and girls as they navigate gender and sexuality at school The book argues that the early years of primary schooling are a key site for the production and reproduction of gender and sexuality Gender reform strategies are vital in this sector of schooling

Kincheloe and the contributing authors of *Multiple Intelligences Reconsidered* critique and rethink the theory in new frames of reference Initially drawn to multiple intelligences (MI) theory because of its self-proclaimed challenge to the psychology establishment the authors delineate their disillusionment with its evolution over the last two decades The critiques provided here open exciting new doors to innovation in educational psychology and pedagogy and move the fields in the direction initially promised by MI theory Each intelligence presented by Gardner is examined and critiqued while larger concepts in the theory are identified and assessed

Childhood Sexuality and AIDS Education Deevia Bhana, 2015-08-27 Primary schoolchildren are frequently shielded from education on sexuality and sexually transmitted diseases in an effort to protect their innocence In countries like South Africa where AIDS is particularly widespread it is especially important to address prevention with younger boys and girls as active social agents with the capacity to engage with AIDS as gendered and sexual beings This volume addresses the question of children's understanding of AIDS not simply in terms of their dependence but as active participants in the interpretation of their social worlds The volume draws on an interview and ethnographic based study of young children in two socially diverse South African primary schools as well as interviews conducted with teachers and mothers of young children It shows how adults sustain the production of childhood sexual innocence and the importance of scaling up programs in AIDS intervention, gender and sexuality It makes significant contributions to the global debate around childhood sexualities, gender and AIDS education
