The Rise of Anti-Americanism Brendon O'Connor, Martin Griffiths, 2007-05-07 Is anti Americanism one of the last respectable prejudices or are accusations of anti Americanism a way to silence reasonable criticism of the United States Is the recent rise in anti Americanism principally a reaction to President George W Bush and his administration or does it reflect a general turn against America and Americans Have we moved from the American century to the anti American century with the United States as the whipping boy for a growing range of anxieties Can the United States recapture the international goodwill generally extended towards it in the days following 11 September 2001 These key questions are tackled by this new book which offers the first comprehensive overview of anti Americanism in the twenty first century Examining what is sensibly called anti Americanism and its principal sources this study details how the

Bush administration has provoked a recent upsurge in anti Americanism with its stances on a range of issues from the Kyoto Protocol to the war in Iraq However the spread of anti Americanism reflects deeper cultural and political anxieties about Americanization and American global power that will persist beyond the Bush administration At the heart of much of the recent anti Americanism is opposition in the Middle East and elsewhere to US support of Israel This crucial issue is explored in depth as is the associated claim of a clash of civilizations between Islam and the West and the rise of anti American terrorism This book will be of great interest to all students and scholars of American Studies International Relations and Politics Ethical Problem-Solving and Decision-Making for Positive and Conclusive Outcomes Keough, Penelope

D.,2019-01-25 Strategies for effective problem solving and decision making are efficient ways for professionals to solve the moral dilemmas that confront them in their daily practice Feelings of wellbeing and positive outcomes often impeded by the failure to make decisions can result when strategies are developed from psychological theories and positive mindsets Ethical Problem Solving and Decision Making for Positive and Conclusive Outcomes is a pivotal reference source that synthesizes major psychological theories to show that any moral dilemma can be solved by using the correct positive mindset based on psychological theory and superimposing a basic ethical template to reach a conclusive decision While highlighting topics such as cultural identity student engagement and education standards this book is ideally designed for clinical practitioners psychologists education professionals administrators academicians and researchers **A Great Conspiracy Against Our Race** Peter G. Vellon,2017 Racial history has always been the thorn in America s side with a swath of injustices slavery lynching segregation and many other ills perpetrated against Black people This very history is complicated by and also dependent on what constitutes a white person in this country Many of the European immigrant groups now considered white have also had to struggle with their own racial consciousness In A Great Conspiracy against Our Race Peter Vellon explores how Italian immigrants a once undesirable and swarthy race assimilated into dominant white culture through the influential national and radical Italian language press in New York City Examining the press as a cultural production of the Italian immigrant community this book investigates how this immigrant press constructed race class and identity from 1886 through 1920 Their frequent coverage of racially charged events of the time as well as other topics such as capitalism and religion reveals how these papers constructed a racial identity as Italian American and white A Great Conspiracy against Our Race vividly illustrates how the immigrant press was a site where socially constructed categories of race color civilization and identity were reworked created contested and negotiated Vellon also uncovers how Italian immigrants filtered societal pressures and redefined the parameters of whiteness constructing their own identity This work is an important contribution to not only Italian American history but America s history of immigration and race Provided by publisher *Forest Policy and Governance in the United States* Jesse Abrams,2022-12-08 This new textbook provides an up to date and comprehensive introduction to both the policy background and contemporary governance of forests in the United States Starting with a

history of the development of forest policies and conservation agencies the book then explores the diversity of forest owners users and uses and examines emerging approaches to forest governance that cross traditional jurisdictional and property boundaries It tackles key contemporary issues such as the forest water nexus the conservation of threatened and endangered species and the challenges of managing fire insect and disease dynamics under a changing climate Key focal areas include the emergence of collaborative approaches to forest governance community forest relationships changes to corporate timberland ownership and contemporary governance mechanisms such as certification and payments for ecosystem services This text raises the big questions about the distribution of rights and responsibilities in forest management the tensions between equity and efficiency and how to sustain a diversity of forest values under the pressures of ecological and social complexity Written in an accessible and engaging manner this textbook provides a timely synthesis of both the foundations and current trends and issues in forest policy and governance in the United States with a strong emphasis on illustrative real world cases Forest Policy and Governance in the United States is essential reading for students in forest and natural resource policy courses and will be of great use to students in environmental governance courses It will also be of interest to policymakers and professionals working in forest conservation and in the forest industry

AA.VV.,2014-03-13T00:00:00+01:00 Trimestrale di studi analisi e commenti diretta da Alessandro Campi La politica appare ai giorni nostri sempre pi screditata e impotente Le si imputa di aver accumulato troppi fallimenti di non aver realizzato le sue tante promesse e di aver alimentato al solo scopo di perpetuare i suoi privilegi pericolose e mortali illusioni La si considera con riferimento alle nuove sfide che la storia le ha posto dinnanzi sempre pi incapace di assolvere le sue finalit peculiari in primis quella di garantire una pacifica e ordinata convivenza tra gli uomini Si ritiene che le menzogne e gli inganni ai quali abitualmente ricorrono abbiano infine tolto valore alle sue originarie e legittime ragioni L accusa che le si muove che le sue parole peraltro spesso reticenti sommarie e meramente propagandistiche corrispondano sempre meno alle sue azioni concrete il che ovviamente non pu che accrescere la diffidenza e i pregiudizi nei suoi confronti Il significato pi autentico della politica la sua ragion d essere pi profonda era un tempo la libert individuale e collettiva I motivi che la rendevano una pratica necessaria per l esistenza di ogni societ organizzata erano la concordia interna e la pace esterna la difesa dell ordine civile e il perseguimento del benessere collettivo e di una relativa eguaglianza Oggi si sostiene essa sarebbe invece mossa solo da interessi meschini e da una totale mancanza di senso morale da un ossessiva fame di potere e da cinico pragmatismo Per alcuni che magari ne lamentano il declino la politica dunque un attivit ormai residuale destinata ad essere scalzata dalla tecnica e dall economia Per altri che ne auspicano la fine invece un male necessario da contenere nei suoi effetti negativi e da contrastare nella sua pretesa a indirizzare dall alto la vita degli uomini L autonomia e la centralit della politica sulla quale nel corso dei secoli si sono esercitati teorici e pensatori sembra essersi tradotta nella nostra epoca nella subordinazione della politica a fattori ad essa esterni ovvero in un crescente bisogno di autonomia o di indipendenza dalla politica All interno di questo disarmante quadro storico la decisione di promuovere una rivista il cui obiettivo dichiarato invece quello di mostrare il carattere insopprimibile della politica e la funzione regolativa che essa continua a rivestire in tutte le societ potrebbe apparire un azzardo In effetti c una scommessa intellettuale alla base di questa scelta Ma c anche la consapevolezza che argomentare a difesa della politica e delle sue ragioni non significa rinunciare a criticarne le pratiche contraddittorie e ambigue o a svelarne la dimensione sovente opaca e irrazionale Molti di coloro che animano questo progetto si riconoscono in un orizzonte di pensiero definibile in senso lato realista nelle sue molte accezioni e varianti che non disgiunge pur mantenendoli tra di loro separati l analisi dal giudizio la conoscenza dei fatti per quanto possibile obiettiva e neutrale dalla loro valutazione secondo criteri morali *Handbook of Sociological Science* Gërxhani, Klarita, de Graaf, Nan D., Raub, Werner, 2022-06-10 22 out of the 26 Chapters will be available Open Access on Elgaronline when the book is

published The Handbook of Sociological Science offers a refreshing integrated perspective on research programs and ongoing developments in sociological science It highlights key shared theoretical and methodological features thereby contributing to progress and cumulative growth of sociological knowledge

Unacknowledged Traces Tony Baldwinson,2012 The Governance Report 2017 The Hertie School of Governance,2017-03-31 Looking at recent developments around the world it seems that democratic values from freedom of association and speech to fair and free elections and a system of checks and balances have come under threat Experts have however disproportionately focused on the problems of democracy in the West and pointed to familiar sets of shortcomings and emerging deficiencies By contrast and with few exceptions there is less attention to assessing the numerous efforts and innovative activities that are taking place at local national and international levels They seek to counteract backsliding and subversion by improving resilience and consolidation and by promoting the expansion of democracy especially in an era of limited sovereignty and frequently also statehood The Governance Report 2017 focuses on those policies programs and initiatives meant to address the causes of the current democratic malaise to foster democratic resilience and to stimulate the re consolidation and development of democratic regimes The Report s ambition reflecting its evidence based approach is to shed light on how to manage and care for democracy itself Specifically against the backdrop of an assessment of the state of democracy and enriched by cross national comparative indicators and case studies the Report emphasizes solutions geared toward enhancing citizen participation and improving institutions in various contexts including the rise of neo populism Going beyond descriptions of best practices the Report also examines their origins identifies the actual and potential trade offs these solutions entail and makes concrete recommendations to policymakers

We Make Our Own History Laurence Cox, Alf Gunvald Nilsen, 2014-08-20 We live in the twilight of neoliberalism the ruling classes can no longer rule as before and ordinary people are no longer willing to be ruled in the old way Pursued by global elites since the 1970s neoliberalism is defined by dispossession and ever increasing inequality The refusal to continue to be ruled like this ya basta appears in an arc of resistance stretching from rural India to the cities of the global North From this network of movements new visions are emerging of a future beyond neoliberalism *We Make Our Own History* responds to these visions by reclaiming Marxism as a theory born from activist experience and practice This book marks a break both with established social movement theory and with those forms of Marxism which treat the practice of social movement organising as an unproblematic process It shows how movements can develop from local conflicts to global struggles how neoliberalism operates as a social movement from above and how popular struggles can create new worlds from below
