Making Cities Work:

Making Cities Work: The Dynamics Of Urban Innovation David Morley, 2019-03-13 This book is an outcome of the conference Urban Innovation Working Solutions to the Problems of Human Settlement held in 1977 It focuses on urban innovations as working alternatives that reflect an institutional capacity to adapt complex human systems in response to basic environmental change *Making Cities Work* Basil Entwistle, 1992 *Making Cities Work* Robert P. Inman, 2009

Making Cities Work Robert P. Inman, 2009-01-05 Making Cities Work brings together leading writers and scholars on urban America to offer critical perspectives on how to sustain prosperous livable cities in today's fast evolving economy Successful cities provide jobs quality schools safe and clean neighborhoods effective transportation and welcoming spaces for all residents But cities must be managed well if they are to remain attractive places to work relax and raise a family otherwise residents firms and workers will leave and the social and economic advantages of city living will be lost Drawing on cutting edge research in the social sciences the contributors explore optimal ways to manage the modern city and propose solutions to today's most pressing urban problems Topics include the urban economy transportation housing and open space immigration race the impacts of poverty on children education crime and financing and managing services The contributors show how to make cities work for diverse urban constituencies and why we still need cities despite the many challenges they pose Making Cities Work brings the latest findings in urban economics to policymakers researchers and students as well as anyone interested in urban affairs In addition to the editor the contributors are David Card Philip J Cook Janet Currie Edward L Glaeser Joseph Gyourko Richard J Murnane Witold Rybczynski Kenneth A Small and Jacob L Vigdor *Making Cities Work* Richard Gilbert, Don Stevenson, Herbert Girardet, Richard Stren, 2013-11-05 For too long cities have been thought of as environmental blackspots with high levels of air and soil pollution overcrowding poor sanitation and growing waste disposal problems This book takes a more positive attitude cities can be made to work sustainably Their high population density can work in the environment's favour if they can achieve efficient use of resources such as energy and water supplies and improve transport and infrastructure The best cities today are clean resource efficient green and pleasant and not only act as cultural and entertainment centres but also harbour great varieties of wildlife Making Cities Work looks at the vital role which local authorities can and must play in safeguarding and developing our towns and cities Their role is crucial and the aim of the book is to make governments international bodies and local authority associations aware of how potential environmental and social problems can be overcome and what can be achieved This book is being written by urban development experts based on material supplied by the world's leading city associations It is being edited by one of the world's most highly regarded cultural ecologists and has been commissioned by UNHCS for the Habitat II conference Clearly written accessible and fully illustrated throughout with photographs figures and graphs it is ideal for students fascinating reading for the general public and essential for those involved in local authorities planning and development *Making*

Cities Work for All Data and Actions for Inclusive Growth OECD,2016-10-13 This report provides ground breaking internationally comparable data on economic growth inequalities and well being at the city level in OECD countries and a framework for action to help national and local governments reorient policies towards more inclusive growth in cities

How Cities Work Barrie Needham,2013-10-22 How Cities Work An Introduction discusses how cities work and compares methods used in understanding the cities Organized into five parts this book begins by elucidating the interactions between city and its region as well as between people and facilities Subsequent part explains how the interactions of activities people and buildings cause activities to cluster into functional areas and how functional areas interact with each other The effect of public policies on cities and an economic viewpoint on how cities work are also described This book will be valuable to citizens and planners of the cities

Beyond Zuccotti Park Ronald Shiffman,Executive Director Rick Bell,Rick Bell,Lance Jay Brown,Lynne Elizabeth,2012-10-02 In the wake of the Occupy movement leading planners and social scientists examine public space today and freedom to assemble

The Art of City Making Charles Landry,2012-05-16 City making is an art not a formula The skills required to re enchant the city are far wider than the conventional ones like architecture engineering and land use planning There is no simplistic ten point plan but strong principles can help send good city making on its way The vision for 21st century cities must be to be the most imaginative cities for the world rather than in the world This one change of word from in to for gives city making an ethical foundation and value base It helps cities become places of solidarity where the relations between the individual the group outsiders to the city and the planet are in better alignment Following the widespread success of *The Creative City* this new book aided by international case studies explains how to reassess urban potential so that cities can strengthen their identity and adapt to the changing global terms of trade and mass migration It explores the deeper fault lines paradoxes and strategic dilemmas that make creating the good city so difficult

Sustainable Education and Development - Making Cities and Human Settlements Inclusive, Safe, Resilient, and Sustainable Joseph N. Mojekwu,Wellington Thwala,Clinton Aigbavboa,Emmanuel Bamfo-Agyei,Lawrence Atepor,Rexford Assasie Oppong,2022-01-01 This book presents papers from the 10th Applied Research Conference in Africa ARCA showcasing the latest research on education and inclusive safe resilient and sustainable communities The conference is focused on applied research discussion and its dissemination developing understanding about the role of research and researchers in the development of the continent Education is a key driver to transform lives build peace eradicate poverty and drive sustainable development in Africa Researchers face large challenges to making a meaningful contribution to the development of Africa It is a continent where research can at time be not viewed directly related to development The aim of the Applied Research Conference in Africa is to provide a platform for capacity building and networking among researchers in Africa The proceedings is focussed on applied research its discussion and dissemination and will be of interest to researchers professors graduate students policymakers and professionals in industry

Market Cities, People Cities Michael Oluf Emerson, Kevin T. Smiley,2018-04-03 An in depth look at the urban environments of Houston and Copenhagen How are modern cities changing and what implications do those changes have for city inhabitants What kinds of cities do people want to live in and what cities do people want to create in the future Michael Oluf Emerson and Kevin T Smiley argue that western cities have diverged into two specific and different types market cities and people cities Market cities are focused on wealth jobs individualism and economic opportunities People cities are more egalitarian with government investment in infrastructure and an active civil society Analyzing the practices and policies of cities with two separate foci markets or people has substantial implications both for everyday residents and future urban planning and city development Market Cities People Cities examines these diverging trends through extended case studies of Houston Texas as a market city and Copenhagen Denmark as a people city and draw on data from nearly 100 other cities Emerson and Smiley track the history of how these two types of cities have been created and how they function for governments and residents in various ways examining transportation the environment and inequality among other topics Market Cities People Cities also outlines the means and policies cities can adapt in order to become more of a market or people focused city The afterword reflects on Houston s response to the devastation caused by Hurricane Harvey in 2017 As twenty first century cities diverge Market Cities People Cities is essential for urban dwellers anxious to be active in their pursuit of their best cities as well as anyone looking to the future of cities around the world *OECD Regional Outlook 2019*

Leveraging Megatrends for Cities and Rural Areas OECD,2019-03-19 Large and persistent inequalities in regional economic performance within countries exist throughout the OECD The 2019 Regional Outlook discusses the underlying causes of economic disparities across regions and highlights the need for place based policies to address them The report makes the

Divided Cities Richard Scholar,2006-01-26 Cities at their best are cradles of diversity opportunity and citizenship Why then do so many cities today seem scarred by divisions separating the powerful and privileged from the victims of deprivation and injustice What is it like to live on the wrong side of the divide in Paris London New York Sao Paulo and other cities all over the world In this book based on the internationally renowned Oxford Amnesty Lectures eight leading urban thinkers argue about why divisions arise in cities and about what could and should be done to bring those divisions to an end The book features essays by Patrick Declerck Stuart Hall David Harvey Richard Rogers Patricia Williams and James Wolfensohn with commentaries from Peter Hall Michael Likosky and others The many contemporary issues that the book addresses include the impact of globalization and migration on the urban environment the consequences of the war on terror for those

living in cities the new development paradigm being adopted by international institutions in the developing world the need for a genuine urban renaissance in Britain and elsewhere and the suffering of the homeless These controversial and sometimes conflicting essays linked by Richard Scholar s incisive introduction aim to encourage and inform debate about the challenges to human rights in our increasingly urban world

City Power Richard C. Schragger,2016 Reigning theories of urban power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In City Power Richard Schragger challenges this conventional wisdom arguing that cities can and should pursue aims other than making themselves attractive to global capital Using the municipal living wage movement as an example Schragger explains why cities are well positioned to address issues like income equality and how our institutions can be designed to allow them to do so

Healthy Cities Namir Khan,Willem H. Vanderburg,2001 Modern cities can be designed to constitute a more supportive environment for a great many activities provide a more livable habitat and reduce the burden imposed on the biosphere They can be made healthier in terms of the definition by World Health Organization and more sustainable by means of new and emerging preventive approaches Healthy Cities focuses on those preventive approaches that can make cities healthier and more sustainable This book as well as the two companion volumes Sustainable Energy and Sustainable Production is the result of a twelve year research project carried out at the Center for Technology and Social Development at the University of Toronto The research findings led to the development of a new conceptual framework and strategy aimed at converting technological and economic growth into development that would gradually become more sustainable

Restarting the Future Jonathan Haskel,Stian Westlake,2022-03-22 From the acclaimed authors of Capitalism without Capital radical ideas for restoring prosperity in today s intangible economy The past two decades have witnessed sluggish economic growth mounting inequality dysfunctional competition and a host of other ills that have left people wondering what has happened to the future they were promised Restarting the Future reveals how these problems arise from a failure to develop the institutions demanded by an economy now reliant on intangible capital such as ideas relationships brands and knowledge In this groundbreaking and provocative book Jonathan Haskel and Stian Westlake argue that the great economic disappointment of the century is the result of an incomplete transition from an economy based on physical capital and show how the vital institutions that underpin our economy remain geared to an outmoded way of doing business The growth of intangible investment has slowed significantly in recent years making the world poorer less fair and more vulnerable to existential threats Haskel and Westlake present exciting new ideas to help us catch up with the intangible revolution offering a road map for how to finance businesses improve our cities fund more science and research reform monetary policy and reshape intellectual property rules for the better Drawing on Haskel and Westlake s experience at the forefront of finance and economic policymaking Restarting the Future sets out a host of radical but practical solutions that can lead us into the future

Disposable Cities Garth Andrew Myers,2017-03-02 Based on in depth fieldwork in three cities

Dar es Salaam Zanzibar and Lusaka this book provides a critical analysis of the United Nations Sustainable Cities Program in Africa SCP Focusing on the SCP s policies for solid waste management which was identified as the top priority problem by the SCP the book examines the success of these pilot schemes and the SCP s record in building new relationships between people and government It argues that the SCP has operated in a political vacuum without recognition of the long and problematic histories and cultural politics of urban environmental governance in Eastern and Southern Africa This book brings these cultural and political histories to the fore in its examination of the contemporary dynamics In doing so it not only provides an insightful analysis of the policies and outcomes for the SCP but also puts forward a historically grounded critique of neoliberalism good governance and sustainable development discourses **Cities in Relations** Ola

Söderström,2014-03-19 Cities in Relations advances a novel way of thinking about urban transformation by focusing on transnational relations in the least developed countries Examines the last 20 years of urban development in Hanoi Vietnam and in Ouagadougou Burkina Faso Considers the ways in which a city s relationships with other places influences its urban development Provides fresh ideas for comparative urban studies that move beyond discussions of economic and policy factors Offers a clear and concise narrative accompanied by more than 45 photos and maps
