For a Liberatory Politics of Home Michele Lancione, 2023-10-06 In *For a Liberatory Politics of Home*

Michele Lancione questions accepted understandings of home and homelessness to offer a radical proposition homelessness cannot be solved without dismantling current understandings of home Conventionally home is framed as a place of security and belonging while its loss defines what it means to be homeless On the basis of this binary a whole industry of policy interventions knowledge production and organizing fails to provide solutions to homelessness but perpetuates violent and precarious forms of inhabitation Drawing on his research and activism around housing in Europe Lancione attends to the interlocking crises of home and homelessness by recentering the political charge of precarious dwelling It is there if often in unannounced ways that a profound struggle for a differential kind of homing signals multiple possibilities to transcend the violences of home homelessness In advancing a new approach to work with the politics of inhabitation Lancione provides a critique of current practices and offers a transformative vision for a renewed liberatory politics of home

Tactics of Hope

Paula Mathieu, 2005 Institutions of higher learning seem traditionally isolated from the realities of the neighborhoods around them But increasingly colleges and universities have thrown open their gates and made a public turn toward school community partnerships bringing literacy activities to the streets and service learning opportunities to faculty staff and student volunteers Paula Mathieu is one such faculty volunteer and in *Tactics of Hope* she examines the workings behind the public turn in composition studies at several institutions Recounting various types of initiatives she describes how these ideas for outreach were received by both local residents and members of the campus and she outlines how each side worked

together to relieve town gown tensions More important Mathieu examines why a tactical not strategic approach to outreach provides the most flexibility for all involved and creates the best opportunities for real learning and deeper interaction between volunteers and their community Outside the dormitories the classrooms and the gates of every university live people who can benefit from public academic partnerships And on the inside of those very same structures are people who can benefit equally Read *Tactics of Hope* and discover ideas and tactics for tapping the transformative power of learning on and from the streets

Office of Education, 1930 *Finding Home* Julie K. Aageson, 2020-07-24 For all who know the security of home in all its iterations and for those who don t finding home is complicated Home always is characterized by joy and sorrow grief and gladness the realities of complicated lives What is it like to flee the horrors of war as a refugee in search of home When daily life is unbearable what exactly does home mean How do we learn to be at home in our bodies at home with ourselves What does it mean to be made in the likeness of the Holy One Can we find home in the company of strangers and how do we reclaim our earth home So many images swim just below the surface of my memory all the houses where I came to know home It takes little to retrieve them a shared story the pungent smell of tide flats the sound of rain on a tin roof But home of course is much more than houses These reflections invite readers to explore identity the importance of rootedness discovering home away from home what it means to be home for one another Finding home literally and metaphorically is challenging
