

FOREWORD

My woodcock appeared on a gilded plate, alongside a sprig of watercress and a shock of straw-colored french fries. He sat with his head tucked under his wing on top of a square of toasted white bread over which was spooned a dark purée. The French waiter ceremoniously swept away my empty soup bowl and neatly replaced it with "*une bécasse pour monsieur.*" I was ten years old.

It looked okay, a little like squab, except that for some ungodly reason someone had forgotten to dispatch its head. Not knowing what to do, I looked to my father for guidance. He had selected a species of perch, a prisoner of the deep waters of Lac d'Anecy, and had already deboned it. He laughed and advised, "Pretend you're Robespierre and cut it off. Then if you feel ambitious, pinch its bill and bite off the top of its head. The brain is what you want." It was an ambition I did not share, but the bird was delicious. I finished it with my fingers, much to the disapproval of the waiter. Visible through the nuisance of a few bones was a hunting scene baked into the plate, depicting a Gordon setter on point and a farm girl reclining on a haystack with her thumb in her mouth. I discovered the woodcock, nestled beneath her

Making Game An Essay On Woodcock:

Making Game Guy de la Valdène, 2025-09-02 Guy de la Valdène's beautifully written essay and first book is an ode to an iconic bird part natural history and part hunting memoir. It's a well-regarded and undisputed classic, an edgy elegant examination of the habits and history of a reclusive gamebird, the Woodcock, native to Europe and North America, a bird that's been hunted and celebrated since Roman times. Valdène writes exuberantly of the bird, the hunt, and the feast, gracefully balancing the obsessions of a naturalist sportsman and gourmand.

Making Game Guy De LA Valdene, 1985-09-01 **A Fall of Woodcock** Tom Huggler, 2014-09-02 A fall of woodcock into a covert you have either chosen or to which you have been directed is a magic all its own. Tom Huggler writes in this book devoted to the woodcock and to those who await the return to their favorite coverts each autumn. This book with a new introduction by Charley Waterman casts a similar spell as it chronicles Tom's travels to New England, the Maritimes, Maine, Louisiana, then back to his beloved Michigan in search of a better understanding of the woodcock and finally a better understanding of himself. Like the annual migratory flights of the woodcock, *A Fall of Woodcock* follows no particular line but rather meanders along the main currents and causeways of Huggler's life, dropping down here and there in places that both sustain it and give it meaning. It covers his early hunting years, old friends and new ones, four-legged partners, woodcock researchers, and a visit with H.G. Tap. Tapply Huggler also traces his evolution from a run and gun birder to a slower but surer hunter who sets his own pace and his own bag limits. Those familiar with the magic and mystery of the American woodcock are sure to find a kindred spirit here. Sky Dance of the Woodcock Greg Hoch, 2019-03-15 Woodcock are one of the oddest birds in North America. They are a shorebird that got lost and ended up in the scrubby parts of the forest and look like they were put together with the leftover parts of other birds. Oddities aside, each spring they rise to great beauty with their sky dance at dusk. Greg Hoch combines natural history, land management, scientific knowledge, and personal observation to examine this little game bird. Woodcock have a complex life history, and the management of their habitat is also complex. The health of this bird can be considered a key indicator of what good forests look like.

With Respect for Nature J. Claude Evans, 2012-02-01 We eat inevitably at the expense of other living creatures. How can we take the lives of plants and animals while maintaining a proper respect for both ecosystems and the individuals who live in them, including ourselves? In this book, philosopher J. Claude Evans challenges much of the accepted wisdom in

environmental ethics and argues that human participation in the natural cycles of life and death can have positive moral value With a guide for the nonphilosophical reader and set against the background of careful and penetrating critiques of Albert Schweitzer's principle of reverence for life and Paul Taylor's philosophy of respect for nature Evans uses hunting and catch and release fishing as test cases in calling for a robust sense of membership in the natural world The result is an approachable existential philosophy that emphasizes the positive value of human involvement in natural processes in which life and death giving and receiving self and other are intertwined **Wisconsin Bird Hunting Tales** Ken M.

FROM THE INTRODUCTION I am watching a thousand feathers grey partridge feathers floating high on the surface of the pond in front of the cabin I pretend to work in I have plucked a million feathers from the bodies of all the grey partridge I have cooked in my life beautiful golden brown feathers that match the fall colors of the cypress tress that grow on the edge of my pond It is November and all at once winter includes me On the porch of the cabin there is a wooden rocking chair weathered and comfortable that I sit in every day On quiet afternoons I think about the slowing growth of the loblolly pines I have been watching for twenty years the everchanging face of the pond now active with fish and the condition of the natural world outside of my custody I have hunted at least one hour a day for three months a year ever since I was eight years old That translates into more than 5 000 hours in the field a lifetime walk that under different circumstances might have taken me from Paris to Istanbul and back If to this hike I add the time I have spent shooting I can safely assume that I have had my hands on the stock of a gun for one whole year of the sixty plus that I have been around I like to walk and I know guns
