school food policy discourse is made up of an amalgamation of discourses on obesity prevention nutrition education welfarism and foodiness Whilst schools endeavor to enact policy in a variety of ways this book shows how foodiness is taken up and can only be taken up differently in different schools The book s unique contribution is to identify the discourse of foodiness and to show how this discourse whilst seemingly universal is actually situated in middle class ideas and is therefore more easily taken up by certain schools The book argues that the classed nature of foodiness leads to certain food knowledges becoming marginalized or lost and this then positions some schools in tension with their local communities resulting in widely variant food experiences for children Earl demonstrates how foodiness is taken up in schools by first exploring how the foodscape at school is shaped by policy and media sources The book then examines how foodiness is taken up by schools with different SES profiles by showing how food moves through the school day Asking critical questions on class and poverty that are often overlooked this book will be of interest to researchers academics and students working on food issues related to teaching food policy and schools in the fields of education sociology and food studies It should also be of interest to policymakers parents and teachers Food Service Rebecca Thompson,1991 *Nutrition* Dr. Paul Insel,Don Ross,Kimberley McMahon,Melissa Bernstein,2016-08-08 Written for majors and advanced non majors the Sixth Edition of Nutrition provides a modern comprehensive introduction to nutrition concepts guidelines and functions Its student focused approach provides readers with the knowledge they need to make informed decisions about their overall nutrition
