Making Of Energy And Telecommunications Policy:

The Making of Energy and Telecommunications Policy Georgia Persons,1995-02-22 This is a study of how policy ideas first raised as definitions of specific problems and as solutions for those problems get translated into formal public policy Specifically the work tracks the making of energy and telecommunications policy taking the reader inside the legislative policy debate involving elected officials administrators industry representatives lobbyists and citizen representatives The author analyzes the many legislative proposals representing the preferences of the various participants which over the course of the seven year policy cycle seen here illustrate the process of synthesis and analysis which underlies congressional policy making today [Media and Communications Policy Making](#) Robert G. Picard,2020-03-25 This textbook focuses on how media and communications policy is made and what influences its design It explores the structures and processes in which policymaking takes place worldwide the factors that determine its forms influence its elements and affect its outcomes It explores how to analyze policy proposals evaluate policy and use policy studies approaches to examine policy and policymaking Truly international in scope it lays out the variety of political social economic and institutional influences on policy the roles of industries and policy advocates in the processes and issues and factors that complicate effective policymaking and skew policy outcomes This textbook is a valuable resource for advanced undergraduate and postgraduate students

Telecommunication Policy Act United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Telecommunications and Finance,1990

Optimization and Decision-Making in the Renewable Energy Industry Balo, Figen,Topal, Ayşe, Demir, Ezgi,Ulutaş, Alptekin,2022-03-11 With immense consumption of resources increased global warming and environmental pollution the energy sector has inevitably embraced sustainability Countries are releasing plans and programs to shift their fossil fuel dependent energy sectors into clean energy sectors and projections show that renewable energy will be a significant part of nations energy mixes in the near future Optimization and decision making techniques have been commonly used in the energy sector as problems encountered in this sector are complex and therefore need comprehensive techniques to solve them With the uncertainty and high cost issues of renewable resources the complexity increases in the sector and requires optimization and decision making techniques Optimization and Decision Making in the Renewable Energy Industry analyzes renewable energy sources using current mathematical methods and techniques and provides advanced knowledge on key opportunities and challenges The book discusses current and trending mathematical methods tests their validity and verification and considers their practical application in the field Covering topics such as urban sustainability and renewable energy systems this reference work is ideal for practitioners academicians industry professionals researchers scholars instructors and students [Federal Telecommunications Policy Act of 1986](#)
