Making Of The Republican Citizen:

The Making of the Republican Citizen Henrietta Harrison, 2023 Being a modern citizen of the Chinese republic meant repudiating the rituals that had previously defined one as Chinese This book uses new sources to look at the political history of the period and the relations between citizen and state An Unfinished Republic David Strand, 2011-07-06 Strand eloquently joins political theories to historical reinterpretation offering a cogent and multifaceted re reading of China s political culture in the twentieth century An Unfinished Republic is a stunning book of scholarly imagination diligence and sophistication Wen hsin Yeh Richard H Laurie C Morrison Professor in History Walter Elise Haas Professor in Asian Studies Director Institute of East Asian Studies University of California Berkeley An Unfinished Republic proposes a compelling new interpretation of early twentieth century Chinese history It opens up unvisited avenues of inquiry into the uniquely Chinese mode and meaning of Republicanism and remaps the trajectory of Chinese politics over the course of the century Strand is a particularly thoughtful and well read scholar who commands knowledge of a range of literatures including political science cultural history women s history and political philosophy He adeptly uses tools from all of these fields to support fresh insight into how Chinese Republicanism was understood and more importantly into how it was practiced Joan Judge author of *The Precious Raft of History The Past the West and the Woman Question in China* A Political Sociology of Educational Knowledge Thomas A. Popkewitz, Jennifer Diaz, Christopher Kirchgasser, 2017-01-20 Bringing together the sociology of knowledge cultural studies and post foundational and historical approaches this book asks what schooling does and what are its limits and dangers The focus is on how the systems of reason that govern schooling embody historically generated rules and standards about what is talked about thought and acted on about the nature of children about the practices and paradoxes of educational reform These systems of reason are examined to consider issues of power the political and social exclusion The transnational perspectives interrelate historical and ethnographic studies of the modern school to explore how curriculum is translated through social and cognitive psychologies that make up the subjects of schooling and how educational sciences act to order and divide what is deemed possible to think and do The central argument is that taken for granted notions of educational change and research paradoxically produce differences that simultaneously include and exclude Articulating Citizenship Robert Culp, 2020-03-23 At the genesis of the Republic of China in 1912 many political leaders educators and social reformers argued that republican education should transform China s people into dynamic modern citizens social and political agents whose public actions would rescue the national community Over subsequent decades however they came to argue fiercely over the contents of citizenship and how it should be taught Moreover many of their carefully crafted policies and programs came to be transformed by textbook authors teachers administrators and students Furthermore the idea of citizenship once introduced raised many troubling questions Who belonged to the national community in China and how was the nation constituted What were the best modes of political action How should modern

people take responsibility for public matters What morality was proper for the modern public This book reconstructs civic education and citizenship training in secondary schools in the lower Yangzi region during the Republican era It also analyzes how students used the tools of civic education introduced in their schools to make themselves into young citizens and explores the complex social and political effects of educated youths civic action Republican Citizens, Precarious Subjects Jeremy F. Lane, 2020 Over recent decades concerns at the increased scarcity and precarity of salaried employment have dominated political struggles theoretical debates and cultural representations in France This study argues that such concerns are evidence of a profound shift in contemporary French economy culture and society Engaging with work in political economy and sociology the book sketches a new interpretative framework the better to understand the nature and implications of these profound changes It examines the challenges such changes have posed to fundamental French republican values arguing they have opened up a rift between older notions of French republican citizenship and the precarious forms of subjectivity characteristic of post Fordist labour The book traces the symptoms of this rift in a range of cinematic and literary representations of the contemporary workplace as these depict the dilemmas faced the trajectories followed and the geographical regions inhabited by French workers of different ages sexes social classes and ethnicities

To Be a Citizen James R. Lehning, 2018-09-05 France s Third Republic confronts historians and political scientists with what seems a paradox it is at once France s most long lived experiment with republicanism and a regime remembered primarily for chronic instability and spectacular scandal From its founding in the wake of France s humiliation at the hands of Prussia to its collapse in the face of the Nazi Blitzkrieg the Third Republic struggled to consolidate the often contradictory impulses of the French revolutionary tradition into a set of stable democratic institutions To Be a Citizen is not an institutional history of the regime but an exploration of the political culture gradually formed by the moderate republicans who steered it In James R Lehning s view that culture was forced to reconcile conflicting views of the degree of citizen participation a republican form of government should embrace The moderate republicans called upon the entire nation to act as citizens of the Republic even as they limited the ability of many including women Catholics and immigrants to assume this identity and to participate in political life This participation based on universal male suffrage alone was at odds with the notion of universal citizenship the tradition of direct democracy as expressed in 1789 1793 1830 and 1848 Lehning examines a series of events and issues that reveal both the tensions within the republican tradition and the regime s success It forged a political culture that supported the moderate republican synthesis and blunted the ideal of direct democracy To Be a Citizen not only does much to illuminate an important chapter in the history of modern France but also helps the reader understand the dilemmas that arise as political elites attempt to accommodate a range of citizens within ostensibly democratic systems

New Narratives of Urban Space in Republican Chinese Cities , 2013-03-27 The nine empirical studies in New Narratives of Urban Space in Republican Chinese Cities organized under the general framework of urban space examine three critical

dimensions of the great urban transformation in Republican China social legal and governance orders Together these narratives suggest a new perception of this historical urbanism While modern economic development was a major drive for Chinese urban transformation this volume highlights the dimension of the multilayered forces that shape urban space by looking into that less quantifiable but equally important cultural realm and by exposing the ways in which these forces created new urban narratives which became themselves shapers of urban space and of our perception of the Republican urbanity

The Political Education of Democratus Brian W. Dotts, 2012-03-15 Thomas Paine described the American Revolution as educative However as examined in Brian W Dotts The Political Education of Democratus Negotiating Civic Virtue during the Early Republic what was learned was neither standardized nor uniform The Federalists for example viewed the revolution as a triumph for representative government but one intended to maintain many remnants of the colonial experience Anti Federalists saw a confirmation of

representative government at the state and local levels and considered the revolution as authenticating Montesquieu's theories of republicanism. A third more extreme interpretation of the revolution emerged from radical democrats who viewed the revolution as a fundamental break with mainstream thinking about republicanism. These radicals helped turn conventional understanding of representative government upside down, taking part in unconventional or extra-constitutional action during their negotiation of citizen virtue during the 1790s. Members of each of the societies took an active part in trying to fulfill their expectations for the new American experiment by contributing to the democratization of republicanism. The Political Education of Democrats illuminates the emergence of democratic thought from Aristotle and Machiavelli to more contemporary influences from the British Commonwealth tradition. Dotts examines how the radical ideas of Algernon Sidney, James Harrington, John Milton, Joseph Priestley, and Thomas Paine develop a rich tapestry among the democratic society's correspondence, constitutions, resolutions, and early media. Individual members of the Democratic Republican Societies, including Philip Freneau, Robert Coram, Benjamin Bache, George Logan, and others energized these radical interpretations of civic republican thought and plunged headlong into party politics, educating early Americans about the practical potentialities of democratic action.

Privacy in the Republic Andrew Roberts, 2022-07-12 This book rethinks the idea of privacy. It argues that a satisfactory account of privacy should not limit itself to identifying why privacy might be valuable. It also needs to attend to the further question of how it can be secured in those circumstances in which it proves to be valuable. Drawing on republican ideas about the relationship between freedom and self-government, the book asserts that privacy is valuable because it enables us to lead non-dominated lives. It prevents others from acquiring power to interfere in our choices, to remove options that would otherwise be available to us, and to manipulate our decision making. It further examines the means through which citizens might exercise effective control over decisions and actions that affect their privacy and proposes a democratic theory of privacy. With the emergence of the surveillance state, this volume will be indispensable for scholars, students, and researchers in political theory, political philosophy, law, and human and civil rights. It will be of particular interest to policymakers, lawyers, and human rights activists.

Citizenship and National Identity David L. Miller, 2013-05-31 A good political community is one whose citizens are actively engaged in deciding their common future together. Bound together by ties of national solidarity, they discover and implement principles of justice that all can share, and in doing so, they respect the separate identities of minority groups within the community. In the essays collected in this book, David Miller shows that such an ideal is not only desirable but feasible. He explains how active citizenship on the republican model differs from liberal citizenship and why it serves disadvantaged groups better than currently fashionable forms of identity politics. By deliberating freely with one another, citizens can reach decisions on matters of public policy that are both rational and fair. He couples this with a robust defence of the principle of nationality, arguing that a shared national identity is necessary to motivate citizens to work together in the name of justice. Attempts to create transnational forms of citizenship in

Europe and elsewhere are therefore misguided He shows that the principle of nationality can accommodate the demands of minority nations and does not lead to a secessionist free for all And finally he demonstrates that national self determination need not be achieved at the expense of global justice This is a powerful statement from a leading political theorist that not only extends our understanding of citizenship nationality and deliberative democracy but engages with current political debates about identity politics minority nationalisms and European integration Perfecting the Union Max M. Edling,2021 In Perfecting the Union Max M Edling focuses on the reform of the American Union brought about by the framing and adoption of the Constitution and the resulting division of duties and powers between the national government and the states He argues that the Constitution profoundly altered the structure of the American Union and made the federal government more effective than under the defunct Articles of Confederation but does not accept that federal power expanded at the expense of the states He therefore offers a powerful new interpretation of the Constitution that has important implications for our understanding of the American founding **The Citizen of a Republic** Cebà,1845 **Intercultural Citizenship in the Post-Multicultural Era** Ricard Zapata-Barrero,2019-07-08 This book explores the intercultural policy paradigm emerging within diversity and migration studies Drawing on empirical studies of cultural diversity and placing a focus on the current crises of identity in Europe Zapata Barrero argues for an intercultural model of citizenship that prioritises contact between diverse people In looking forward to a post multicultural era his analysis suggests how we can better manage the challenges presented by our increasingly complex multifaceted societies This thoughtful text will appeal to students and scholars across politics sociology anthropology and social psychology as well as policy makers and social entrepreneurs around the world grappling with issues around migration diversity and citizenship Ricard Zapata Barrero is a Full Professor of Political and Social Sciences at the Universitat Pompeu Fabra Barcelona Catalonia Spain He is also Director of the Interdisciplinary Research Group on Immigration at UPF and Master in Migration Studies He is member of the Board of Directors for IMISCOE and Chair of the External Affairs Committee For information about publications go to his webpage www.upf.edu/web/ricardzapata **Rhetorical Citizenship and Public Deliberation** Christian Kock,Lisa S. Villadsen,2012 A collection of essays examining citizenship as a discursive phenomenon in the sense that important civic functions take place in deliberation among citizens and that discourse is not prefatory to real action but in many ways constitutive of civic engagement Provided by publisher *A Re-definition of Belonging?* Ricky Van Oers,Eva Ersbøll,Theodora Kostakopoulou, The introduction of language and integration tests as a condition for naturalisation and other types of legal residence permits reflects an important recent change in citizenship policies in European countries In this book experts from nine countries reflect on the redefinition of political belonging by examining the policies concerning immigrant integration Republican Citizenship in French Colonial Pondicherry, 1870-1914 Anne Raffin,2025-10-01 Republican Citizenship in French Colonial Pondicherry 1870 1914 revisits and analyses the earlier part of the Third Republic when France granted citizenship rights to

Indians in Pondicherry This work of historical sociology explores the nature of this colonial citizenship and enables comparisons with British India especially the Madras Presidency as well as the rest of the French empire as a means of demonstrating how unique the practice of granting such rights was The difficulties of implementing a new political culture based on the language of rights and participatory political institutions were not so much rooted in a lack of assimilation into the French culture on the part of the Indian population Rather they were the result of political infighting and long term conflicts over status both in relation to caste and class and between inclusive and exclusive visions of French citizenship
