Dirt and Stardust Jeremy Duncan, 2021-11-30 Are you ready to give Jesus a second look Many of us have absorbed an image of Jesus from the culture around us Once that sinks in everything we experience watch hear or read only serves to reinforce what we think we already know about him There is so much more to the story though In this book we ll take an honest look at one of the best known passages in Scripture Jesus Sermon on the Mount Some of the concepts you will explore in a new way are What it means to be poor in spirit How to be the salt of the earth Why Jesus turned the law on its head How God s judgment displays graciousness and generosity What Jesus model for prayer really tells us about our relationship with God How seeking asking and knocking impacts you and those around you What taking the narrow road means for your life If you are interested in exploring Jesus teaching read **Dirt and Stardust** and see that you are a part of what is good about both the dirt under your feet and the cosmos above your head You are invited into a story much bigger than you were perhaps first told about

Between Eden and Armageddon : The Future of World Religions, Violence, and Peacemaking Diplomacy Marc Gopin James H. Laue Professor and Director of the Center on Religion, and Conflict Resolution George Mason University, 2000-06-26 Recent years have seen a meteoric rise in the power and importance of organized religion in many parts of the world At the same time there has been a significant

increase in violence perpetrated in the name of religion While much has been written on the relationship between violence and religious militancy history shows that religious people have also played a critical role in peacemaking within numerous cultures In the new century will religion bring upon further catastrophes Or will it provide human civilization with methods of care healing and the creation of peaceful and just societies In this groundbreaking book Marc Gopin integrates the study of religion with the study of conflict resolution He argues that religion can play a critical role in constructing a global community of shared moral commitments and vision a community that can limit conflict to its nonviolent constructive variety If we examine religious myths and moral traditions Gopin argues we can understand why and when religious people come to violence and why and when they become staunch peacemakers He shows that it is the conservative expression of most religious traditions that presents the largest challenge in terms of peace and conflict Gopin considers ways to construct traditional paradigms that are committed to peacemaking on a deep level and offers such a paradigm for the case of Judaism Throughout Gopin emphasizes that developing the potential of the world's religions for coping with conflict demands a conscious process on the part of peacemakers and theologians His innovative and carefully argued study also offers a broad set of recommendations for policy planners both inside and outside of government

Military Chaplains in Afghanistan, Iraq, and Beyond Eric Patterson, 2014-08-07 The role of military chaplains has changed over the past decade as Western militaries have deployed to highly religious environments such as East Africa Afghanistan and Iraq U S military chaplains who are by definition non combatants have been called upon by their war fighting commanders to take on new roles beyond providing religious services to the troops Chaplains are now also required to engage the local citizenry and provide their commanders with assessments of the religious and cultural landscape outside the base and reach out to local civilian clerics in hostile territory in pursuit of peace and understanding In this edited volume practitioners and scholars chronicle the changes that have happened in the field in the twenty first century Using concrete examples this volume takes a critical look at the rapidly changing role of the military chaplain and raises issues critical to U S foreign and national security policy and diplomacy
