Creating a Campus-Wide Culture of Student Success Ronald E. Hallett, Adrianna Kezar, Joseph A. Kitchen, Rosemary J. Perez, 2023-10-23 Offering a new approach to institutional practices, this book describes evidence-based strategies to create a campus culture conducive to truly supporting all students. We are at a critical crossroads in higher education where large numbers of low-income, racially minoritized, and first-generation college students referred to in this book as "at promise" students are attending college in greater numbers than ever, yet access has not translated to significantly improved retention and graduation rates. This book therefore proposes a realignment of existing initiatives to create campus-wide support through a new model of coordination. The ideas presented in this book are the culmination of one of the largest studies of comprehensive college support programs for "at promise" students. Chapters include illustrations of the key concepts and promising practices of the Promoting "At Promise" Student Success (PASS) Project as well as guiding questions that can be used to facilitate conversations on campus. In this helpful resource, the authors address how student supports are delivered in validating ways rather than focusing solely on what supports are offered, as has typically been the way institutions address the issues that "at promise" students face. This book is intended to provide guidance and support to educators who want to be a part of changing how higher education supports "at promise" students toward increased equity.
