Making It Happen Peter Ueberroth And The 1984 Olympics:

Making it Happen Kenneth Reich, 1986 Kenneth Reich who covered the Olympic games for the Los Angeles Times from 1977 to 1984 presents an unvarnished story of the Los Angeles Olympic Organizing Committee and how its president Peter Ueberroth galvanized 70 000 employees and volunteers into action and produced a stunning spectacle of glory pageantry and fun Based on the testimonies of 104 Olympics staff members the author shows how Ueberroth's passion for control his tireless energy and unerring skill made him the most intimidating and inspiring boss sports business had ever known He also reveals how the organizing committee was managed and the fears and frustrations of the staff ISBN 0 88496 246 6 17 95

The Cold War and the 1984 Olympic Games Philip D'Agati, 2013-06-05 The Soviet boycott of the 1984 Olympic Games is explained as the result of a complex series of events and policies that culminated in a strategic decision to not participate in Los Angeles Using IR framework D Agati develops and argues for the concept of surrogate wars as an alternative means for conflict between states

The 1984 Los Angeles Olympic Games Matthew Llewellyn, John Gleaves, Wayne Wilson, 2017-10-02 The 1984 Los Angeles Olympic Games stand as the most profitable and arguably the most important event in the history of the modern Olympic movement Fresh off the back of the financially disastrous Montreal Games of 1976 and the politically controversial Moscow Games of 1980 the Olympic movement returned to the United States for the sixth time in an attempt to salvage the economic viability and global prestige of the Olympics The Los Angeles Olympics proved to be both provocative and polarizing On the one hand they have been heralded as an overwhelming transformative success ushering the Olympic movement into the modern commercial age On the other hand critics have repudiated the Games as a manifestation of commercial excess and a platform for western political and cultural propaganda In conjunction with the 30th anniversary of the Los Angeles Olympics this volume examines their legacy With an international collection of contributing scholars this volume will span a range of global legacies including the increasing commercialization of the Games the changing participation of women the Communist boycott movement nationalism and sporting identity and the modernization and California cation of the Games This book was originally published as a special issue of the International Journal of the History of Sport

The Olympics and the Cold War, 1948-1968 Erin Elizabeth Redihan, 2017-03-08 For Olympic athletes fans and the media alike the games bring out the best sport has to offer unity patriotism friendly competition and the potential for stunning upsets Yet wherever international competition occurs politics are never far removed Early in the Cold War when all U S Soviet interactions were treated as potential matters of life and death each side tried to manipulate the International Olympic Committee Despite the IOC's efforts to keep the games apolitical they were quickly drawn into the superpowers global struggle for supremacy with medal counts the ultimate prize Based on IOC U S government and contemporary media sources this book looks at six consecutive Olympiads to show how high the stakes became once the Soviets began competing in 1952 threatening America's athletic supremacy

Celebration Capitalism and the Olympic Games Jules Boykoff, 2013-08-15

The Olympic Games have become the world's greatest media and marketing event: a global celebration of exceptional athletics gilded with corporate cash. Huge corporations vie for association with the Olympic Image in the hope of gaining a worldwide marketing audience of billions. In this provocative critical study of the contemporary Olympics Jules Boykoff argues that the Games have become a massive planned economy designed to shield the rich from risk while providing them with a spectacle to treasure. Placing political economy at the center of the analysis and drawing on interdisciplinary research in sociology, politics, geography, history, and economics, Boykoff develops an innovative theory of celebration capitalism: the manipulation of state actors as partners that drives us towards public-private partnerships in which the public pays and the private profits. He argues that the Athens Games in 2004 marked the full emergence of celebration capitalism, with London 2012 representing its quintessential expression, characterized by a state of exception, unfettered commercialism, repression of dissent, questionable sustainability claims, and the complicity of the mainstream media. Controversial, challenging, and forthright, this book opens up a fascinating new avenue for understanding the contemporary Olympics in the context of global capitalist society. It is essential reading for anybody with an interest in the Olympic Games, the relationship between sport and society, or global politics and culture.

International Security and the Olympic Games, 1972-2020 Austin

Duckworth, 2022-08-24 Drawing on new archival documents and interviews, this book demonstrates the evolving role of international politics in Olympic security planning. Olympic security concerns changed forever following the terrorist attack on Israeli athletes at the 1972 Munich Olympic Games. The International Olympic Committee's (IOC) choice to ignore security after the attack in Munich left individual Olympic Games Organizing Committees to organize, fund, and provide security for the major international event. Future Olympic hosts planned security amidst increasing numbers of international terrorist attacks and with the Cold War in full swing. For some Olympic hosts, Olympic security now represented their nation's largest ever military operations. By the time the IOC made security more of a priority in the early 1980s, the trends in Olympic security were set for the future.

City of Revolution Jamie Peck,Kevin Ward,2002-10-11 This book provides a comprehensive reflective and critical analysis of the far reaching process of urban transformation searching beneath the hype to expose the true character of the new Manchester Has Manchester engineered an urban renaissance having finally turned its back on the grimy factory economy Or is it on a slow motion slide into the post industrial sludge of economic insecurity and social polarization Drawing on the work of leading researchers and commentators in the field this collection provides answers to these and other questions concerning Manchester s changing political economy **Spitting in the Soup** Mark Johnson,2025-11-04 Doping is as old as organized sports From baseball to horse racing cycling to track and field drugs have been used to enhance performance for 150 years For much of that time doping to do better was expected It was doping to throw a game that stirred outrage Doping is as old as organized sports From baseball to horse racing cycling to track and field drugs have been used to enhance performance for 150 years For much of that time doping to do better was expected It was doping to throw a game that stirred outrage Today though athletes are vilified for using performance enhancing drugs Damned as moral deviants who shred the fair play fabric dopers are an affront to the athletes who don t take shortcuts But this tidy view swindles sports fans While we may want the world sorted into villains and victims putting the blame on athletes alone ignores decades of history in which teams coaches governments the media scientists sponsors sports federations and even spectators have played a role The truth about doping in sports is messy and shocking because it holds a mirror to our own reluctance to spit in the soup that is to tell the truth about the spectacle we crave In *Spitting in the Soup* sports journalist Mark Johnson explores how the deals made behind closed doors keep drugs in sports Johnson unwinds the doping culture from the early days when pills meant progress and uncovers the complex relationships that underlie elite sports culture the essence of which is not to play fair but to push the boundaries of human performance It s easy to assume that drugs in sports have always been frowned upon but that s not true Drugs in sports are old It s banning drugs in sports that is new *Spitting in the Soup* offers a bitingly honest clear eyed look at why that s so and what it will take to kick pills out of the locker room once and for all The Trojan Horse Deborah Philips,Garry Whannel,2013-08-29 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com The Trojan Horse traces the growth of commercial

sponsorship in the public sphere since the 1960s its growing importance for the arts since 1980 and its spread into areas such as education and health The authors central argument is that the image of sponsorship as corporate benevolence has served to routinize and legitimate the presence of commerce within the public sector The central metaphor is of such sponsorship as a Trojan Horse helping to facilitate the hollowing out of the public sector by private agencies and private finance The authors place the study in the context of the more general colonization of the state by private capital and the challenge posed to the dominance of neo liberal economics by the recent global financial crisis After considering the passage from patronage to sponsorship and outlining the context of the post war public sector since 1945 it analyses sponsorship in relation to Thatcherism enterprise culture and the restructuring of public provision during the 1980s It goes on to examine the New Labour years and the ways in which sponsorship has paved the way for the increased use of private public partnerships and private finance initiatives within the public sector in the UK Understanding the Olympics John Horne, Garry Whannel, 2016-05-20 The Olympic Games is unquestionably the greatest sporting event in the world with billions of viewers across the globe How did the Olympics evolve into this multi national phenomenon How can the Olympics help us to understand the relationship between sport and society What will be the impact and legacy of the 2016 Olympics in Rio Now in a fully revised and updated new edition that places Rio 2016 in the foreground *Understanding the Olympics* answers all these questions by exploring the social cultural political historical and economic context of the Games This book presents the latest research on the Olympics including new material on legacy sustainability and corruption and introduces the reader to all of the key themes of contemporary Olympic Studies including the history of the Olympics Olympic politics access and equity the Olympics and the media festival and spectacle the Olympic economy urban development Olympic futures The most up to date and authoritative introduction to the Olympic Games this book contains a full Olympic history timeline as well as illustrations information boxes and Olympic Stories in every chapter *Understanding the Olympics* is essential reading for anybody with an interest in the Olympics or the wider relationship between sport and society *Bearing Light: Flame Relays and the Struggle for the Olympic Movement* John J. Macaloon, 2020-07-24 The Flame Relay and the Olympic Movement is the first book length scholarly study in English of the contemporary Olympic flame relay Reporting for the first time on years of intensive ethnographic research and organizational intervention MacAloon literally follows the Olympic flame through twenty years of intercultural encounter conflict and negotiation Focusing on the frequently harmonious sometimes perilous encounters among Greek flame relay officials cultural agents and discourses foreign Olympic Games organizing committees and such transnational actors as the IOC and its corporate sponsors since 1984 a context is created for understanding the significance for the Olympic movement and for globalization studies of the 2004 Athens flame relay the first to travel the entire world Through intensive interviews and co participations with leading Greek and American actors and the contributions of young Greek researchers who worked backstage on the relay *Bearing Light* demonstrates how

culturally parochial the managerial regime of world s best practices often turns out to be and yet how inescapable it has become for those who wish to communicate across cultural and political boundaries This dilemma the contributors argue constitutes the practical form in which the struggle to preserve a sense of Olympism and the Olympic Movement against the demands and prerogatives of today s Olympic sports industry is being chiefly fought out This book was previously published as a special issue of Sport in Society
