Early English Performance: Medieval Plays and Robin Hood Games John Marshall, 2019-10-08 Covering a period of nearly 40 years work by the author this collection of essays in the *Shifting Paradigms in Early English Drama Studies* series brings the perspective of a Drama academic and practitioner of early English plays to the understanding of how medieval plays and Robin Hood games of the fifteenth and sixteenth centuries were performed It explores why where when and how the plays happened who took part and who were the audiences The insights are informed by a combination of research and the public presentation of surviving texts The research included in the volume unites the early English experiences of religious and secular performance This recognition challenges the dominant critical distinction of the past between the two and the consequent privileging of biblical and moral plays over secular entertainments What further binds rather than separates the two is that the destination of funds raised by the different activities maintained the civic and parochial needs of the institutions upon which the people depended This collection redefines the inclusive nature and common interests of the purposes that lay behind generically different

undertakings They shared an extraordinary investment of human and financial resources in the anticipation of a profit that was pious and practical CS1081 *The Heads of Religious Houses* David M. Smith, Vera C. M. London, 2001-08-09 This book is a continuation of *The Heads of Religious Houses England and Wales 940-1216* edited by David Knowles, C. N. L. Fourteenth Century S. J. Drake, 2019 The links between Cornwall a county frequently considered remote and separate in the Middle Ages and the wider realm of England are newly discussed WINNER The Federation of Old Cornwall Societies FOCS Holyer an Gof Cup for non fiction 2020 Stretching out into the wild Atlantic fourteenth century Cornwall was a land at the very ends of the earth Within its boundaries many believed that King Arthur was a real life historical Cornishman and that their natal shire had once been the home of mighty giants Yet if the county was both unusual and remarkable it still held an integral place in the wider realm of England Drawing on a wide range of published and archival material this book seeks to show how Cornwall remained strikingly distinctive while still forming part of the kingdom It argues that myths saints government and lordship all endowed the name and notion of Cornwall with authority in the minds of its inhabitants forging these people into a commonalty At the same time the earldom duchy and the Crown together helped to link the county into the politics of England at large With thousands of Cornishmen and women drawn east of the Tamar by the needs of the Crown warfare lordship commerce the law the Church and maritime interests connectivity with the wider realm emerges as a potent integrative force Supported by a cast of characters ranging from vicious pirates and gentlemen criminals through to the Black Prince the volume sets Cornwall in the latest debates about centralisation devolution and collective identity about the nature of Cornishness and Englishness themselves S J DRAKE is a Research Associate at the Institute of Historical Research He was born and brought up in Cornwall

Medieval Market Morality James Davis, 2011-11-24 This important study examines the market trade of medieval England by providing a wide ranging critique of the moral and legal imperatives that underpinned retail trade James Davis shows how market goers were influenced not only by practical and economic considerations of price quality supply and demand but also by the moral and cultural environment within which such deals were conducted This book draws on a broad range of cross disciplinary evidence from the literary works of William Langland and the sermons of medieval preachers to state civic and guild laws Davis scrutinises everyday market behaviour through

case studies of small and large towns using the evidence of manor and borough courts From these varied sources Davis teases out the complex relationship between morality law and practice and demonstrates that even the influence of contemporary Christian ideology was not necessarily incompatible with efficient and profitable everyday commerce

Chatteris Abbey,1999 Takes its place as perhaps the finest available study of a house for women religious ENGLISH
HISTORICAL REVIEWThe fifteenth century cartulary of the Benedictine nunnery of Chatteris Abbey in Cambridgeshire
founded in the early eleventh century has important implications for the study of women religious especially in the light of
the small number of surviving cartularies from English nunneries yet until now it has received little attention perhaps due to
its damage in the Cotton Library fire of 1731 This critical edition of the manuscript which contains documents copied into it
from the mid twelfth to the fifteenth centuries offers a full transcription together with historical notes and apparatus The
introduction draws on the cartulary itself as well as manorial and episcopal records to analyse the nunnery's relationship
with its patron the bishop of Ely and the development and management of its estates it also examines the location and layout
of the abbey the social and geographical origins of the nuns and the production and organisation of the cartulary The edition
is accompanied by an annotated list of all known abbesses prioresses and nuns CLAIRE BREAY gained her Ph D at the
Institute for Historical Research at the University of London she is currently a curator of medieval manuscripts at the British
Library **Medieval Statistics** Mark Casson,John S. Lee,2024-12-26 This book is the first to systematically examine the
sources of medieval statistics It will be useful as a handbook for researchers in financial and cultural history as a history of
financial record keeping and as a review of recent research into medieval finance and accounting based on statistical sources
Medieval statistics provide a unique window on the past Medieval documents produced by royal governments monastic and
ecclesiastical institutions urban boroughs and legal cases for debt recovery provide a mine of useful information on economic
life and financial affairs They show that medieval administration was far more numerate and far more sophisticated than is
usually recognized This book provides a comprehensive review of the key sources written by leading experts in the field The
strengths and weaknesses of each source are reviewed using original documents for illustration and discussing examples
from the recent literature The book is mainly concerned with English statistics as they have survived particularly well in both
state and private records but which showcase the potential of digital technology in enabling systematic study of medieval
primary sources where large databases can now be compiled from original manuscripts This edited volume will be a valuable
tool for those working in financial cultural and political history as it seeks to analyse the various ways in which medieval life
was documented numerically and the ways in which this information was used within existing power structures

Necessary Conjunctions D. Shaw,2016-04-30 *Necessary Conjunctions* is an original study of how regular medieval people
created their public social identities Focusing especially on the world of English townspeople in the later Middle Ages the
book explores the social self the public face of the individual It gives special attention to how prevalent norms of honor
fidelity and hierarchy guided and were manipulated by medieval citizens With variable success medieval men and women
defined themselves and each other by the clothes they wore the goods they cherished as well as by their alliances and

enemies their sharp tongues and petty violence Employing a highly interdisciplinary methodology and an original theory makes it possible to see how personal agency and identity developed within the framework of later medieval power structures *Henry Despensers* Richard Allington-Smith, 2003
