History and Historiography in Classical Utilitarianism, 1800-1865 Callum Barrell, 2021-10-07 This first comprehensive account of the utilitarians historical thought intellectually resituates their conceptions of philosophy and politics at a time when the past acquired new significances as both a means and object of study Drawing on published and unpublished writings and set against the intellectual backdrops of Scottish philosophical history German and French historicism romanticism positivism and the rise of social science and scientific history Callum Barrell recovers the depth with which Jeremy Bentham James Mill George Grote and John Stuart Mill thought about history as a site of philosophy and politics He argues that the utilitarians contrary to their reputations as ahistorical and even antihistorical thinkers developed complex frameworks in which to learn from and negotiate the past inviting us to rethink the foundations of their ideas as well as their place in and relationship to nineteenth century philosophy and political thought

The War Between the Two Beasts and the Two Witnesses Antoninus King Wai Siew,2005-11-01 Siew seeks to examine the events that will unfold within the three and a half years before the dawn of the kingdom of God on earth He argues that John composed the textual unit of Rev 11 1 14 5 as a coherent and unified literary unit structured in a macro chiasm He pays special attention to the fusion of form and content and seeks to elucidate how the concentric and chiasmic pattern informs the meaning of the literary units within 11 1 14 5 and proposes that the text of 11 1 14 5 is best analyzed using Hebraic literary conventions devices and compositional techniques such as chiasm parallelism parataxis and structural parallelism The macro chiasmic pattern provides the literary structural framework for John to portray that the events of the last three and a half years unfold on earth as a result of what transpires in heaven Specifically the war in heaven between Michael and the dragon has earthly ramifications The outcome of the heavenly war where Satan is defeated and thrown out of heaven to earth results in the war on earth between the two beasts of Rev 13 and the two witnesses of Rev 11 The narrative of the war in heaven 12 7 12 is seen as the pivot of the macro chiasmic structure Siew pays close attention to the time period of the three and a half years as a temporal and structural marker which functions to unite the various units in 11 1 14 5 into a coherent and integral whole The events of the last days will be centred in Jerusalem

footprints entrusted to the future *The Mythological and Political Origins of Christianity* David J.P Haasbroek,2020-08-28
 Previous research about Jesus was confined to Israel only Researchers did so because they took it for granted that
 Christianity had begun on Jewish soil only Therefore the lacking information of the gospels forced researchers to conclude
 that Jesus was mythical and not historical This conclusion was due to the many Old Testament quotations that attribute to
 Jesus in the New Testament The Old Testament deals with Jewish history and the myths of the ancient world with whom the
 Jews have come into contact On that basis any nation can write an overview of its history and then use the myths of the
 ancient world to explain the intervention of gods in its history Likewise evangelists several centuries later have also been
 able to associate Jesus an orthodox Jewish king with the myths and politics of their times *Hermathena* ,1977 Socrates
Against Athens James A. Colaiaco,2013-04-15 As an essential companion to Plato s *Apology* and *Crito* Socrates *Against*
Athens provides valuable historical and cultural context to our understanding of the trial **Rhetoric Reclaimed** Janet M.
 Atwill,2009 Thoroughly embedded in postmodern theory this book offers a critique of traditional conceptions of the liberal
 arts exploring the challenges posed by cultural diversity to the aims and methods of a humanist education Janet M Atwill
 investigates a neglected tradition of rhetoric exemplified by Protagoras and Isocorates and preserved in Aristotle s *Rhetoric*
 This tradition was rooted in the ancient sophistic and platonic conceptions of techn or productive knowledge that appears
 both in literary texts from the seventh century B C E and in medical and technical treatises from the fifth century B C E Atwill
 examines these traditions together with sophistic and platonic conceptions and considers the commentaries on Aristotle s
Rhetoric by E M Cope and William S J Grimaldi where the concepts of techn and productive knowledge disappear in the
 modern opposition between theory and practice Since models of knowledge are closely tied to models of subjectivity Atwill s
 examination of techn also explores the role of political economic and educational institutions in standardizing a specific
 model for subjectivity She argues that the liberal arts traditions largely eclipsed the social and political functions of rhetoric
 transforming it from an art of disrupting and reinventing lines of power to a discipline of producing a normative subject
 defined by virtue but modeled on a specific gender and class type **Creating Democratic Societies** Plamen
 Makariev,Andrew M. Blasko,Asen Davidov,1999 Studies ,1974 An Irish quarterly review *Apuleius and Africa*
 Benjamin Todd Lee,Ellen Finkelpearl,Luca Graverini,2014-05-09 *The Metamorphoses or Golden Ass of Apuleius* ca 170 CE is
 a Latin novel written by a native of Madauros in Roman North Africa roughly equal to modern Tunisia together with parts of
 Libya and Algeria Apuleius novel is based on the model of a lost Greek novel it narrates the adventures of a Greek character
 with a Roman name who spends the bulk of the novel transformed into an animal traveling from Greece to Rome only to end
 his adventures in the capital city of the empire as a priest of the Egyptian goddess Isis Apuleius Florida and *Apology* deal
 more explicitly with the African provenance and character of their author while also demonstrating his complex interaction
 with Greek Roman and local cultures Apuleius philosophical works raise other questions about Greek vs African and Roman

cultural identity Apuleius in Africa addresses the problem of this intricate complex of different identities and its connection to Apuleius literary production It especially emphasizes Apuleius African heritage a heritage that has for the most part been either downplayed or even deplored by previous scholarship The contributors include philologists historians and experts in material culture among them are some of the most respected scholars in their fields The chapters give due attention to all elements of Apuleius oeuvre and break new ground both on the interpretation of Apuleius literary production and on the culture of the Roman Empire in the second century The volume also includes a modern sub Saharan contribution in which Africa mainly means Mediterranean Africa
