Prologue ,2012 **Tsushima 1905** Mark Lardas,2018-11-29 Japan was closed to the world until 1854 and its technology then was literally medieval Great Britain France and Russia divided the globe in the nineteenth century but Japan was catching up Its army and navy were retrained by Western powers and equipped with the latest weapons and ships Japan wanted to further emulate its European mentors and establish a protectorate over Korea yet Japanese efforts were blocked by Imperial Russia who had their own designs on the peninsula The Russo Japanese War started with a surprise Japanese naval attack against an anchored enemy fleet still believing itself at peace It ended with the Battle of Tsushima the most decisive surface naval battle of the 20th century This gripping study describes this pivotal battle and shows how the Japanese victory over Russia led to the development of the dreadnought battleship and gave rise to an almost mythical belief in Japanese naval invincibility **London's Hidden Rivers** David Fathers,2024-10-24 A fantastic guide to exploring the hidden rivers of London London has many rivers but they are often hidden under centuries of development Rivers like the Walbrook the Fleet or the Effra have left their mark on the city and still form an important part of our subterranean world From the former watering hole by the Earl's Sluice where Canterbury pilgrims rested David Bowie rehearsed and Henry Cooper trained to the Gardens by the Westbourne where a young Mozart performed From Counter's Creek and its burial grounds of Kensal Green and Brompton to the River Effra and the West Norwood cemetery From the pipe carrying the River

Tyburn over Baker Street Underground station to the grate in Farringdon through which the River Fleet can be heard and seen David Fathers shows the course of London's hidden rivers in a series of detailed guided walks illustrating the traces they have left and showing the ways they have shaped the city Each walk starts at the tube or rail station nearest to the source of the river and then follows it down to the Thames through parkland suburbia historic neighbourhoods and the vestiges of our industrial past London's Hidden Rivers contains over 120km of walks both north and south of the Thames Winding through the hills valleys and marshes that underlie the city every page is a revelation *Midnight Ghosts* Thirteen O'Clock Press,2016-03-29 Ghosts walk at night when they can be seen against the darkness ghosts haunt houses deserted crossroads silenced cars ghosts can be anywhere any place around midnight Ghost stories are always a challenge and the Thirteen authors met that challenge superbly in this varied and fascinating collection of ghost stories Enjoy in the daylight
