Capability Maturity Model (CMM) – a standardized framework for assessing the maturity level of an organization's information system development and management processes and products. It consists of five levels of maturity:

- **Level 1—Initial:** System development projects follow no prescribed process.
- **Level 2—Repeatable:** Project management processes and practices established to track project costs, schedules, and functionality.
- **Level 3—Defined:** Standard system development process (methodology) is purchased or developed. All projects use a version of this process.
- **Level 4—Managed:** Measurable goals for quality and productivity are established.
- **Level 5—Optimizing:** The standardized system development process is continuously monitored and improved based on measures and data analysis established in Level 4.

The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
