On the Eighteenth Century as a Category of Asian History Leonard Blussé,Femke S Gaastra,2016-12-05 The starting point of this volume is the scathing attack far reaching in its consequences launched in 1942 by J C van Leur on the views then current on the character and significance of the 18th century as a category in Asian history His denial of European pre eminence in Asian waters represented a direct attack on colonial historiography The essays here derive from an international conference held 50 years later to assess the impact of van Leur s work In part historiographic in part drawing on new research they aim to delimit the boundaries of European Asian interaction and to provide case studies of what this period actually meant for the history of South and East Asia

South Asian Diaspora Narratives Amit Sarwal,2017-05-03 This book analyses the metaphysical and poetical notions and the processes of rooting into a culture and routing out of a culture in the context of South Asian diaspora in Australia These diasporic narratives are often characterised by bifurcated and dislocated identities that exist in a liminal space in between two identities two cultures and two histories Yet home remains through acts of imagination remembering and re creation an important reference point The author argues that a clearer notion of politics of location is required to distinguish between the different kinds of dislocation the immigrants suffer both psychologically and sociologically The diaspora in Australia is an under studied topic and this book fills a lacuna in South Asian diaspora studies by analysing and calling upon a wide range of works in this field from historical anthropological sociological cultural and literary studies
