New Dealers Power Politics In The Age Of Roosevelt:

The New Dealers Jordan A. Schwarz, 2011-07-06 This bold new analysis of the New Deal dramatically revises our vision of the Roosevelt legacy and of the new relation between government and business it made a central fact of American life With impressive scholarship and narrative brio Jordan A Schwarz persuasively demonstrates that the New Deal s architects sought not merely to save an endangered American capitalism but to integrate economically underdeveloped regions of the nation within the scope of a dynamic state capitalism capable after World War II of dominating the global marketplace As he assesses the contributions of such figures as Supreme Court Justice Louis D Brandeis the legal and political fixer Thomas G Corcoran Texas legislators Sam Rayburn and Lyndon Johnson and the quintessential New Deal industrialist Henry Kaiser Schwarz produces a volume that should be required reading for anyone concerned with current American industrial policy And he does so with a liveliness and depth of insight that make The New Dealers comparable to the best work of Arthur Schlesinger or Robert Caro

America's Three Regimes Morton Keller, 2009-03-11 Hailed in The New York Times Book Review as the single best book written in recent years on the sweep of American political history this groundbreaking work divides our nation s history into three regimes each of which lasts many many decades allowing us to appreciate as never before the slow steady evolution of American politics government and law The three regimes which mark longer periods of continuity than traditional eras reflect are Deferential and Republican from the colonial period to the 1820s Party and Democratic from the 1830s to the 1930s and Populist and Bureaucratic from the 1930s to the present Praised by The Economist as a feast to enjoy and by Foreign Affairs as a masterful and fresh account of U S politics here is a major contribution to the history of the United States an entirely new way to look at our past our present and our future packed with provocative and original observations about American public life

Presidents and Political Thought David J. Siemers, 2010-01-01 What did the president know and when did he know it takes on a whole new meaning in Presidents and Political Thought Though political philosophy is sometimes considered to be dry and abstract many of our presidents have found usable ideas embedded within it In this first comparative study of presidents and political theory David Siemers examines how some of them have applied this specialized knowledge to their job Presidents and Political Thought explores the connection between philosophy and practical politics through a study of six American chief executives John Adams Thomas Jefferson James Madison Woodrow Wilson Franklin D Roosevelt and Bill Clinton Writing at the intersection of politics history and philosophy Siemers combines his extensive understanding of political philosophy with careful research and analysis of individual presidents to produce provocative and astute judgments about how their understanding of political theory affected their performance Each chapter examines a particular president s attitude about political theory the political theorists he read and admired and the ways in which he applied theory in his activities as president Viewing presidents through the lens of political theory enables Siemers to conclude that Madison and Adams have been significantly underrated

Wilson is thought to have abandoned his theoretical viewpoint as president but actually he just possessed an unorthodox interpretation of his favorite thinker Edmund Burke Often thought to be so pragmatic or opportunistic that they lacked any convictions FDR and Clinton gained their orientations to politics from political theory These and other insights suggest that we cannot understand these presidencies without being more aware of the ideas the presidents brought to the office Siemers's study takes on special relevance as the United States experiences regime change and a possible party realignment because as he notes Barack Obama has read and learned from political theory too Avoiding much of the jargon that often accompanies political theory this book demonstrates the relevance of political theory in the real world chronicling both the challenges and potentially rich payoffs when presidents conceive of politics not just as a way to reward friends and punish enemies but as a means to realize principles

Moralizing the Market Yves-Marie Péréon, 2018-03-01 A novel historical perspective on how stock markets influence each other internationally A nation usually overhauls its financial regulations after a stock market crash or the collapse of its banking system In 1967 France did something rare Out of pure political expediency Gaullist leaders and senior civil servants seized the opportunity offered by an insider trading case and established an independent commission to regulate the securities market the Commission des Opérations de Bourse or COB Despite their staunch defense of national sovereignty these reformers drew their inspiration from an American model the Securities and Exchange Commission Highlighting the international sources for national reform Yves Marie P r on s *Moralizing the Market* explores the dynamics of policy transfer in securities regulation a subject that has rarely been considered from a historical perspective That regulation has been used to attract investors and foster market development challenges the view that the French government only attempted to develop the stock market as part of a global wave of deregulation in the 1980s Indeed the creation of the COB reveals a great deal about the exercise of power in modern democracies the interaction between business and government and the mechanisms of institutional innovation *Moralizing the Market* will appeal to professors and students of economic history international relations and political science as well as business and finance historians policy makers and professionals

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the *Encyclopedia* includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Roosevelt's Peacetime Administrations, 1933-41 George Henry Bennett, 2004 This book serves as an essential

introduction to Roosevelt's domestic policy during his tenure from the struggles of the Depression to the outbreak of the Second World War Incorporating archival discoveries at the Roosevelt Presidential Library this documentary collection focuses on the debates and controversies surrounding the implementation and practice of New Deal policies It highlights the meanings flaws and outcomes of Roosevelt's attempts to refashion American society With an extensive introduction the book reproduces extracts from a variety of sources including Government records public addresses and speeches and the private papers of Roosevelt and some of his closest associates **Salt of the Earth, Conscience of the Court** John M.

Ferren, 2006-03-08 The Kentucky born son of a Baptist preacher with an early tendency toward racial prejudice Supreme Court Justice Wiley Rutledge 1894-1949 became one of the Court's leading liberal activists and an early supporter of racial equality free speech and church state separation Drawing on more than 160 interviews John M Ferren provides a valuable analysis of Rutledge's life and judicial decisionmaking and offers the most comprehensive explanation to date for the Supreme Court nominations of Rutledge Felix Frankfurter and William O Douglas Rutledge was known for his compassion and fairness He opposed discrimination based on gender and poverty and pressed for expanded rights to counsel due process and federal review of state criminal convictions During his brief tenure on the Court he died following a stroke at age fifty-five he contributed significantly to enhancing civil liberties and the rights of naturalized citizens and criminal defendants became the Court's most coherent expositor of the commerce clause and dissented powerfully from military commission convictions of Japanese generals after World War II Through an examination of Rutledge's life Ferren highlights the development of American common law and legal education the growth of the legal profession and related institutions and the evolution of the American court system including the politics of judicial selection *Earth Matters on Stage* Theresa J.

May, 2020-08-09 *Earth Matters on Stage* Ecology and Environment in American Theater tells the story of how American theater has shaped popular understandings of the environment throughout the twentieth century as it argues for theater's potential power in the age of climate change Using cultural and environmental history seven chapters interrogate key moments in American theater and American environmentalism over the course of the twentieth century in the United States It focuses in particular on how drama has represented environmental injustice and how inequality has become part of the American environmental landscape As the first book length ecocritical study of American theater *Earth Matters* examines both familiar dramas and lesser known grassroots plays in an effort to show that theater can be a powerful force for social change from frontier drama of the late nineteenth century to the eco theater movement This book argues that theater has always and already been part of the history of environmental ideas and action in the United States *Earth Matters* also maps the rise of an ecocritical thought and eco theater practice what the author calls ecodramaturgy showing how theater has informed environmental perceptions and policies Through key plays and productions it identifies strategies for artists who want their work to contribute to cultural transformation in the face of climate change **Short of the Glory** Tracy

Campbell,2010-09-12 Arthur Schlesinger Jr thought that he might one day become president He was a protege of Felix Frankfurter and Fred Vinson a political prodigy who held a series of important posts in the Roosevelt and Truman administrations Whatever became of Edward F Prichard Jr so young and brilliant and seemingly destined for glory Prichard was a complex man and his story is tragically ironic The boy from Bourbon County Kentucky graduated at the top of his Princeton class and cut a wide swath at Harvard Law School He went on to clerk in the U S Supreme Court and become an important figure in Roosevelt s Brain Trust Yet Prichard known for his dazzling wit and photographic memory fell victim to the hubris that had helped to make him great In 1948 he was indicted for stuffing 254 votes in a U S Senate race J Edgar Hoover never a fan of the young genius made sure he was prosecuted and so many of the members of the Supreme Court were Prichard s friends that not enough justices were left to hear his appeal So the man Roosevelt s advisors had called the boy wonder of the New Deal went to jail Prichard s meteoric rise and fall is essentially a Greek tragedy set on the stage of American politics Pardoned by President Truman Prichard spent the next twenty five years working his way out of political exile Gradually he became a trusted advisor to governors and legislators though without recognition or compensation Finally in the 1970s and 1980s Prichard emerged as his home state s most persuasive and eloquent voice for education reform finally regaining the respect he had thrown away in his arrogant youth

Does Atlas Shrug? Joel Slemrod,2000 Since the introduction of the income tax in 1913 controversy has raged about how heavily to tax the rich Opponents of high tax rates claim that heavy assessments have negative incentives on the productivity of some of our most talented citizens supporters stress the importance of the rich shouldering their fair share and decry the loopholes that permit many to escape their obligations Notably absent from this debate is hard evidence about the actual impact of taxes on the behavior of the affluent This book presents evidence by leading economists of the effects of taxes on the formation of businesses the supply of labor the form of executive compensation the accumulation of wealth the allocation of portfolios and the realization of capital gains Among its findings are that the labor supply of the rich remained unchanged in the face of large tax cuts in 1986 and that in late 1992 executives exercised billions of dollars worth of stock options in order to beat the tax increases expected in 1993 The book also presents a history of efforts to tax the rich a demographic snapshot of the financially affluent and a road map to widely used tax avoidance strategies *Does Atlas Shrug* will be of great interest to policymakers and interested citizens who want to know how much tax revenue could really be gained by increasing tax rates on the rich or whether low capital gains tax rates really spur economic growth

Party Politics in the Age of Roosevelt Michael P. Riccards,Cheryl A. Flagg,2022-04-29 Riccards and Flagg examine in detail the development of Franklin Delano Roosevelt from a young politician in Albany to assistant secretary of the Navy to governor of the state of New York The volume shows how Roosevelt developed his rhetorical skills his art of manipulation and coalition building and his incredible bond to the American people through the Depression and World War II As commander in chief he mastered the leadership skills that made him a great military leader

and a political leader who established himself as a paramount figure using control of the Democratic party In the process he solidified the party as a long lasting coalition that set the United States as a world empire

The Moral Consequences of Economic Growth Benjamin M. Friedman,2010-11-03 From the author of Day of Reckoning the acclaimed critique of Ronald Reagan s economic policy Every citizen should read it said The New York Times a persuasive wide ranging argument that economic growth provides far more than material benefits In clear cut prose Benjamin M Friedman examines the political and social histories of the large Western democracies particularly of the United States since the Civil War to demonstrate the fact that incomes on the rise lead to more open and democratic societies He explains that growth rather than simply a high standard of living is key to effecting political and social liberalization in the third world and shows that even the wealthiest of nations puts its democratic values at risk when income levels stand still Merely being rich is no protection against a turn toward rigidity and intolerance when a country s citizens lose the sense that they are getting ahead With concrete policy suggestions for pursuing growth at home and promoting worldwide economic expansion this volume is a major contribution to the ongoing debate about the effects of economic growth and globalization

Airlines and Air Mail F. Robert van der Linden,2021-10-21 Conventional wisdom credits only entrepreneurs with the vision to create America s commercial airline industry and contends that it was not until Roosevelt s Civil Aeronautics Act of 1938 that federal airline regulation began In Airlines and Air Mail F Robert van der Linden persuasively argues that Progressive republican policies of Herbert Hoover actually fostered the growth of American commercial aviation Air mail contracts provided a critical indirect subsidy and a solid financial foundation for this nascent industry Postmaster General Walter F Brown used these contracts as a carrot and a stick to ensure that the industry developed in the public interest while guaranteeing the survival of the pioneering companies Bureaucrats entrepreneurs and politicians of all stripes are thoughtfully portrayed in this thorough chronicle of one of America s most resounding successes the commercial aviation industry

The Best Transportation System in the World Mark H. Rose,Bruce Edsall Seely,Paul F. Barrett,2006 From 1920 to the mid 1990s American transportation in the form of railroads trucks and airlines was simply a creature of politics and public policy In brief the markets for rail truck and airlines were not natural entities but had been created through hard fought political contests full time lobbying and unceasing litigation Between 1940 and the late 1970s moreover leaders of rail truck and airline firms lobbied and litigated to protect the workings of this regulatory regime In the mid 1950s President Eisenhower asked Congress to award railroad executives authority to modify prices and service Eisenhower was concerned about a railroad industry in decline During the 1960s President Johnson sought broad deregulation of rail trucks and airline firms Johnson wanted another device to fine tune the economy In the 1970s Presidents Nixon Ford and Carter sought to deregulate transportation with a view toward reversing stagflation Between 1978 and 1980 Congress and President Carter approved deregulation of airlines trucking and railroads Carter aide Mary Schuman played a crucial role in bringing about airline deregulation For all the market talk that

surrounded transportation politics before and after 1980 however officials of the American state had been and remained the principal agents creating those markets BOOK JACKET Paving the Way Michael R. Fein, 2008 Tells the surprising story of how road construction helped to pave the way to the modern American state Shows how the growing transportation needs of a steadily industrializing population changed political order from local to state and ultimately to federal governance

More: The Politics of Economic Growth in Postwar America Robert M. Collins, 2000-02-21 James Carville famously reminded Bill Clinton throughout 1992 that it's the economy stupid Yet for the last forty years historians of modern America have ignored the economy to focus on cultural social and political themes from the birth of modern feminism to the fall of the Berlin Wall Now a scholar has stepped forward to place the economy back in its rightful place at the center of his historical narrative In *More* Robert M Collins reexamines the history of the United States from Franklin Delano Roosevelt to Bill Clinton focusing on the federal government's determined pursuit of economic growth After tracing the emergence of growth as a priority during FDR's presidency Collins explores the record of successive administrations highlighting both their success in fostering growth and its partisan uses Collins reveals that the obsession with growth appears not only as a matter of policy but as an expression of Cold War ideology both a means to pay for the arms build up and proof of the superiority of the United States market economy But under Johnson this enthusiasm sparked a crisis spending on Vietnam unleashed runaway inflation while the nation struggled with the moral consequences of its prosperity reflected in books such as John Kenneth Galbraith's *The Affluent Society* and Rachel Carson's *Silent Spring* *More* continues up to the end of the 1990s as Collins explains the real impact of Reagan's policies and astutely assesses Clinton's disciplined growthmanship which combined deficit reduction and a relaxed but watchful monetary policy by the Federal Reserve Writing with eloquence and analytical clarity Robert M Collins offers a startlingly new framework for understanding the history of postwar America

The Revolution of '28 Robert Chiles, 2018-03-15 *The Revolution of 28* explores the career of New York governor and 1928 Democratic presidential nominee Alfred E Smith Robert Chiles peers into Smith's work and uncovers a distinctive strain of American progressivism that resonated among urban ethnic working class Americans in the early twentieth century The book charts the rise of that idiomatic progressivism during Smith's early years as a state legislator through his time as governor of the Empire State in the 1920s before proceeding to a revisionist narrative of the 1928 presidential campaign exploring the ways in which Smith's gubernatorial progressivism was presented to a national audience As Chiles points out new stock voters responded enthusiastically to Smith's candidacy on both economic and cultural levels Chiles offers a historical argument that describes the impact of this coalition on the new liberal formation that was to come with Franklin Delano Roosevelt's New Deal demonstrating the broad practical consequences of Smith's political career In particular Chiles notes how Smith's progressive agenda became Democratic partisan dogma and a rallying point for policy formation and electoral success at the state and national levels Chiles sets the record straight in *The Revolution of 28* by paying close

attention to how Smith identified and activated his emergent coalition and put it to use in his campaign of 1928 before quickly losing control over it after his failed presidential bid *Reader's Guide to American History* Peter J.

Parish,2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history *Nothing to Fear* Adam Seth Cohen,2009 A dramatic account of the first one hundred days of FDR s presidency traces the transformation that took place throughout the federal government in the wake of unprecedented bank failures unemployment and poverty levels in a history that also cites the pivotal contributions of the thirty second president s inner circle 40 000 first printing **The Great Depression and the New Deal** Robert F. Himmelberg,2000-11-30 This essential guide to the Great Depression and the New Deal provides a wealth of information analysis biographical profiles primary documents and current resources that will help students to understand this pivotal era in American history The author an expert on this age of U S history and politics brings to life the traumatic period that began in 1929 and ended only with America s entrance into World War II in 1941 He carefully explains the causes of the Depression the actions taken by Franklin D Roosevelt to lift America out of its economic morass and the economic political social and cultural aspects of the age Following a chronology of events a narrative overview examines the events of the Great Depression and the New Deal Other topical essays address the causes and cure of the Depression America s struggle against the Depression the effect of the Depression on American politics changes in society and culture during the Depression decade and an evaluation of the New Deal from a contemporary perspective Twenty seven biographical profiles of key figures of the era the text of ten important primary documents a glossary of frequently cited terms and an annotated bibliography of print and nonprint materials for student use complete the work This work is an essential source for the most current thinking and resources on the Great Depression and the New Deal

The book delves into New Dealers Power Politics In The Age Of Roosevelt. New Dealers Power Politics In The Age Of Roosevelt is a crucial topic that must be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into New Dealers Power Politics In The Age Of Roosevelt, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to New Dealers Power Politics In The Age Of Roosevelt
 - Chapter 2: Essential Elements of New Dealers Power Politics In The Age Of Roosevelt
 - Chapter 3: New Dealers Power Politics In The Age Of Roosevelt in Everyday Life
 - Chapter 4: New Dealers Power Politics In The Age Of Roosevelt in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, this book will provide an overview of New Dealers Power Politics In The Age Of Roosevelt. This chapter will explore what New Dealers Power Politics In The Age Of Roosevelt is, why New Dealers Power Politics In The Age Of Roosevelt is vital, and how to effectively learn about New Dealers Power Politics In The Age Of Roosevelt.
 3. In chapter 2, this book will delve into the foundational concepts of New Dealers Power Politics In The Age Of Roosevelt. The second chapter will elucidate the essential principles that must be understood to grasp New Dealers Power Politics In The Age Of Roosevelt in its entirety.
 4. In chapter 3, this book will examine the practical applications of New Dealers Power Politics In The Age Of Roosevelt in daily life. The third chapter will showcase real-world examples of how New Dealers Power Politics In The Age Of Roosevelt can be effectively utilized in everyday scenarios.
 5. In chapter 4, this book will scrutinize the relevance of New Dealers Power Politics In The Age Of Roosevelt in specific contexts. The fourth chapter will explore how New Dealers Power Politics In The Age Of Roosevelt is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, this book will draw a conclusion about New Dealers Power Politics In The Age Of Roosevelt. The final chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of New Dealers Power Politics In The Age Of Roosevelt.
