AERO TRADER, AUGUST 1996 Causey Enterprises, LLC, AERO TRADER, SEPTEMBER 1996 Causey Enterprises, LLC, *After the Factory* James J. Connolly, 2010-10-14 The most pressing question facing the small and mid sized cities of America's industrial heartland is how to reinvent themselves Once thriving communities in the Northeastern and Midwestern U S have decayed sharply as the high wage manufacturing jobs that provided the foundation for their prosperity disappeared A few larger cities had the resources to adjust but most smaller places that relied on factory work have struggled to do so Unless and until they find new economic roles for themselves the small cities will continue to decline Reinventing these smaller cities is a tall order A few might still function as nodes of industrial production But landing a foreign owned auto manufacturer or a green energy plant hardly solves every problem The new jobs will not be unionized and thus will not pay nearly as much as the positions lost The competition among localities for high tech and knowledge economy firms is intense Decaying towns with poor schools and few amenities are hardly in a good position to attract the creative class workers they need Getting to the point where they can lure such companies will require extensive retooling not just economically but in terms of their built environment cultural character political economy and demographic mix Such changes often run counter to the historical currents that defined these places as factory towns After the Factory examines the fate of industrial small cities from a variety of angles It includes essays from a variety of disciplines that consider the sources and character of economic growth in small cities They delve into the history of industrial small cities explore the strategies that some have adopted and propose new tacks for these communities as they struggle to move forward in the twenty first century Together they constitute a unique look at an important and understudied dimension of urban studies and globalization **Country Home Plans** Garlinghouse Company, 1998 Provides detailed square footage descriptions and plans for such houses as the Southern belle the compact country cottage and the Western ranch with Spanish influence *Texas Houses Built by the Book* Margaret Culbertson, 1999 In addition to identifying design sources actually used in Texas Culbertson provides personal background information on several of the original owners many of whom were prosperous and respected members of their communities By providing such contextual information about the houses and their owners Culbertson shows that using designs published in magazines and catalogues was socially and culturally acceptable during this period The book closes with an in depth look at the use of published designs in one particular community Waxahachie and the place of these houses within the community and in the lives of their original owners **BOOK JACKET** **Report of the Administrator of the Farmers Home Administration** United States.
