Oakley, 2019-03-15 In the late eighties and early nineties driven by the post Cold War environment and lessons learned during military operations United States policy makers made intelligence support to the military the Intelligence Community s top priority In response to this demand the CIA and DoD instituted policy and organizational changes that altered their relationship with one another While debates over the future of the Intelligence Community were occurring on Capitol Hill the CIA and DoD were expanding their relationship in peacekeeping and nation building operations in Somalia and the Balkans By the late 1990s some policy makers and national security professionals became concerned that intelligence support to military operations had gone too far In *Subordinating Intelligence The DoD CIA Post Cold War Relationship* David P Oakley reveals that despite these concerns no major changes to national intelligence or its priorities were implemented These concerns were forgotten after 9 11 as the United States fought two wars and policy makers increasingly focused on tactical and operational actions As policy makers became fixated with terrorism and the United States fought in Iraq and Afghanistan the CIA directed a significant amount of its resources toward global counterterrorism efforts and in support of military operations U.S. Foreign Policy Toward the Third World: A Post-cold War Assessment Jurgen Ruland, Theodor Hanf, Eva Manske, 2016-07-22 The contributors to this work examine the evolution of U S foreign policy toward the Third World and the

new policy challenges facing developing nations in the post Cold War era The book incorporates the key assessment standards of U S foreign policies directed toward critical regions including Latin America Africa the Middle East Central Asia and Southeast Asia Through this region by region analysis readers will get the information and insight needed to fully understand U S policy objectives especially with regard to economic and security issues in the wake of 9 11 vis a vis the developing world The book outlines both successes and failures of Washington as it seeks to deal with the Third World in a new era of terrorism trade and democratic enlargement It also considers whether anti Western sentiment in Third World regions is a direct result of U S foreign policies since the end of the Cold War

Societal Impact of Spaceflight Steven J. Dick, Roger D. Launius, 2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions abound about the impact of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions

International Conflict Resolution After the Cold War National Research Council, Commission on Behavioral and Social Sciences and Education, Committee on International Conflict Resolution, 2000-12-07 The end of the Cold War has changed the shape of organized violence in the world and the ways in which governments and others try to set its limits Even the concept of international conflict is broadening to include ethnic conflicts and other kinds of violence within national borders that may affect international peace and security What is not yet clear is whether or how these changes alter the way actors on the world scene should deal with conflict Do the old methods still work Are there new tools that could work better How do old and new methods relate to each other International Conflict Resolution After the Cold War critically examines evidence on the effectiveness of a dozen approaches to managing or resolving conflict in the world to develop insights for conflict resolution practitioners It considers recent applications of familiar conflict management strategies such as the use of threats of force economic sanctions and negotiation It presents the first systematic assessments of the usefulness of some less familiar approaches to conflict resolution including truth commissions engineered electoral systems autonomy arrangements and regional organizations It also opens up analysis of emerging issues such as the dilemmas facing humanitarian organizations in complex emergencies This book offers numerous practical insights and raises key questions for research on conflict resolution in a transforming world system

The Making of US Foreign Policy John Dumbrell, David M. Barrett, 1997 Fully revised and updated this new edition analyses the relationship between the process and substance of

US foreign policy since the mid 1960s **A Political Geography of Latin America** Jonathan R. Barton, 2002-11-01 The nation states and peoples of South and Central America Cuba Haiti and the Dominican Republic that together form the political geographical region of Latin America encompass a wide range of societies politics and economies This text exposes the differences between places regions and countries individuals and societies offering an invaluable insight into the themes of political and economic development and provides a guide to understanding power and space relations From the Antarctic to the tropical jungles the coastal communities to the highland villages the mega cities to isolated rural existence the political geographies of lives localities cities and rurality are too sophisticated to be subjected to generalizations Adopting a critical human geography perspective Jonathon Barton provides an understanding of similarities difference and sophisticated human geographies The Search for Reconciliation Yanan He, 2009-04-27 Why have some former enemy countries established durable peace while others remain mired in animosity When and how does historical memory matter in post conflict interstate relations Focusing on two case studies Yanan He argues that the key to interstate reconciliation is the harmonization of national memories Conversely memory divergence resulting from national mythmaking harms long term prospects for reconciliation After WWII Sino Japanese and West German Polish relations were both antagonized by the Cold War structure and pernicious myths prevailed in national collective memory In the 1970s China and Japan brushed aside historical legacy for immediate diplomatic normalization But the progress of reconciliation was soon impeded from the 1980s by elite mythmaking practices that stressed historical animosities Conversely from the 1970s West Germany and Poland began to de mythify war history and narrowed their memory gap through restitution measures and textbook cooperation paving the way for significant progress toward reconciliation after the Cold War **Contemporary China in the Post-Cold War Era** Bih-jaw Lin, James T. Myers, 1996 Consists of 17 papers delivered at the 23rd Sino American Conference on Contemporary China held in Taipei in June 1994 Contributors from the fields of economics political science international relations sociology and Asian studies analyze recent changes in politics economics foreign relation US Military Strategy and the Cold War Endgame Stephen J. Cimbala, 2014-01-14 At the end of the Cold War security concerns are more about regional and civil conflicts than nuclear or Eurasian global wars Stephen Cimbala argues that deterrence characteristics of the pre Cold War period will in the 21st century again become normative
