Irresistible Joshua Paul Dale, 2023-10-26 Why are some things cute and others not What happens to our brains when we see something cute And how did cuteness go global from Hello Kitty to Disney characters Cuteness is an area where culture and biology get tangled up Seeing a cute animal triggers some of the most powerful psychological instincts we have the ones that elicit our care and protection but there is a deeper story behind the broad appeal of Japanese cats and saccharine greetings cards Joshua Paul Dale a pioneer in the burgeoning field of cuteness studies explains how the cute aesthetic spread around the globe from pop brands to Lolita fashion kids cartoons and the unstoppable rise of Hello Kitty *Irresistible* delves into the surprisingly ancient origins of Japan's kawaii culture and uncovers the cross cultural pollination of the globalised world If adorable things really do rewire our brains it can help answer some of the biggest questions we have about our evolutionary history and the mysterious origins of animal domestication This is the fascinating cultural history of cuteness and a revealing look at how our most powerful psychological impulses have remade global style and culture
