Andrew Cordier, Wilder Foote

Public Papers Of The Secretaries General Of The United Nations Vol 4 Dag Hammarskjold 1958 196:

Public Papers of the Secretaries General of the United Nations Andrew Cordier, Wilder Foote, 2010-06-01 Public Papers of the Secretaries General of the United Nations *Canada, the Congo Crisis, and UN Peacekeeping, 1960-64* Kevin A. Spooner, 2010-01-01 In 1960 the Republic of Congo teetered near collapse as its first government struggled to cope with civil unrest and mutinous armed forces When the UN established what would become the largest peacekeeping operation of the Cold War the Canadian government faced a difficult decision Should it support the intervention As Kevin Spooner demonstrates Canada's involvement in the mission was not preordained The Diefenbaker government became enmeshed in a complex web of foreign and defence policy determinants that caused it to have immediate and ongoing reservations reservations that challenge cherished notions of Canada's commitment to the UN and its status as a peacekeeper This book offers one of the first detailed accounts of Canada's involvement in UN peacekeeping It will appeal to those interested in Canadian foreign policy and relations with Africa in particular and the Congo crisis and United Nations peacekeeping more generally Public Papers of the Secretaries-General of the United Nations United Nations. Secretary-General, 1975

General Catalogue of Printed Books British Museum. Department of Printed Books, 1969 **Public Papers of the Secretaries-General of the United Nations Vol.4 - Dag Hammarskjold 1958-1960** United Nations.

Secretary-General, 1972 **Theory as Ideology in International Relations** Benjamin Martill, Sebastian Schindler, 2020-03-13 Are theoretical tools nothing but political weapons How can the two be distinguished from each other What is the ideological role of theories like liberalism neoliberalism or democratic theory And how can we study the theories of actors from outside the academic world This book examines these and related questions at the nexus of theory and ideology in International Relations The current crisis of politics made it abundantly clear that theory is not merely an impartial and neutral academic tool but instead is implicated in political struggles However it is also clear that it is insufficient to view theory merely as a political weapon This book brings together contributions from a number of different scholarly perspectives to engage with these problems The contributors drawn from various fields of International Relations and Political Science cast new light on the ever problematic relationship between theory and ideology They analyse the ideological underpinnings of existing academic theories and examine the theories of non academic actors such as staff members of international organisations Ecovillagers and liberal politicians This edited volume is a must read for all those interested in the contemporary political crisis and its relation to theories of International Relations **Yearbook of International Organizations 2013-2014 (Volume 3)** Union Of International Associations, Union of International Associations, 2013-08-09 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the

history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Volume 3 allows readers to locate organizations by subjects or by fields of activity and specialization and includes an index to Volumes 1 through 3 University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles University of California (System). Institute of Library Research, University of California, Berkeley, 1972

National Union Catalog, 1973 Includes entries for maps and atlases *To Reform the World* Guy Fiti Sinclair, 2017-03-02

This book explores how international organizations IOs have expanded their powers over time without formally amending their founding treaties IOs intervene in military financial economic political social and cultural affairs and increasingly take on roles not explicitly assigned to them by law Sinclair contends that this mission creep has allowed IOs to intervene internationally in a way that has allowed them to recast institutions within and interactions among states societies and peoples on a broadly Western liberal model Adopting a historical and interdisciplinary socio legal approach Sinclair supports this claim through detailed investigations of historical episodes involving three very different organizations the International Labour Organization in the interwar period the United Nations in the two decades following the Second World War and the World Bank from the 1950s through to the 1990s The book draws on a wide range of original institutional and archival materials bringing to light little known aspects of each organization's activities identifying continuities in the ideas and practices of international governance across the twentieth century and speaking to a range of pressing theoretical questions in present day international law and international relations Reference Services Review, 1973 *Public Papers of the Secretaries-General of the United Nations* Andrew W.
