Kevin L. Borg,2007-06 The history of automobiles is not just the story of invention manufacturing and marketing it is also a story of repair Auto Mechanics opens the repair shop to historical study for the first time by tracing the emergence of a dirty difficult and important profession Kevin L Borg s study spans a century of automotive technology from the horseless carriage

of the late nineteenth century to the check engine light of the late twentieth Drawing from a diverse body of source material Borg explores how the mechanic s occupation formed and evolved within the context of broad American fault lines of class race and gender and how vocational education entwined these tensions around the mechanic s unique expertise He further shows how aspects of the consumer rights and environmental movements as well as the design of automotive electronics reflected and challenged the social identity and expertise of the mechanic In the history of the American auto mechanic Borg finds the origins of a persistent anxiety that even today accompanies the prospect of taking one s car in for repair

Oil on the Brain Lisa Margonelli,2007-01-30 Oil on the Brain is a smart surprisingly funny account of the oil industry the people economies and pipelines that bring us petroleum brilliantly illuminating a world we encounter every day Americans buy ten thousand gallons of gasoline a second without giving it much of a thought Where does all this gas come from Lisa Margonelli s desire to learn took her on a one hundred thousand mile journey from her local gas station to oil fields half a world away In search of the truth behind the myths she wriggled her way into some of the most off limits places on earth the Strategic Petroleum Reserve the New York Mercantile Exchange s crude oil market oil fields from Venezuela to Texas to Chad and even an Iranian oil platform where the United States fought a forgotten one day battle In a story by turns surreal and alarming Margonelli meets lonely workers on a Texas drilling rig an oil analyst who almost gave birth on the NYMEX trading floor Chadian villagers who are said to wander the oil fields in the guise of lions a Nigerian warlord who changed the world price of oil with a single cell phone call and Shanghai bureaucrats who dream of creating a new Detroit Deftly piecing together the mammoth economy of oil Margonelli finds a series of stark warning signs for American drivers

Exposing the Wilderness Robert Bogdan,1999-10-01 Robert Bogdan combines a richly descriptive text with striking illustrations to create vivid biographical sketches of these pioneer photographers who worked their individual styles to illuminate six different regions of the Adirondack Mountains The book also provides insight into the popular culture of the times mainly through postcards but it also takes an in depth look at the families and work lives of these artisans as they plied their trade in the popular venue of commercial postcards Aside from the Adirondack locals and a few postcard connoisseurs the gifted folk artists and craftspeople profiled here were virtually unknown until now Bogdan has collected nearly 250 illustrations including postcards and photographs depicting Adirondack life of the time Many of these images have never before been published

The 1930s William H. Young,2002-10-30 Most historical studies bury us in wars and politics paying scant attention to the everyday effects of pop culture Welcome to America s other history the arts activities common items and popular opinions that profoundly impacted our national way of life The twelve narrative chapters in this volume provide a textured look at everyday life youth and the many different sides of American culture during the 1930s Additional resources include a cost comparison of common goods and services a timeline of important events notes arranged by chapter an extensive bibliography for further reading and a subject index The dark cloud of the Depression shadowed most Americans

lives during the 1930s Books movies songs and stories of the 1930s gave Americans something to hope for by depicting a world of luxury and money Major figures of the age included Fred Astaire and Ginger Rogers Irving Berlin Amelia Earhart Duke Ellington the Marx Brothers Margaret Mitchell Cole Porter Joe Louis Babe Ruth Shirley Temple and Frank Lloyd Wright Innovations in technology and travel hinted at a Utopian society just off the horizon group sports and activities gave the unemployed masses ways to spend their days and a powerful new demographic the American teenager suddenly found itself courted by advertisers and entertainers

Fill 'er Up Jim Draeger, Mark Speltz, 2012-12-01 Step back to the day when a visit to the gas station meant service with a smile a wash of the windshield and the cheerful question Fill 'er up Since their unremarkable beginnings as cheap shacks and curbside pumps at the dawn of the automobile age gas stations have taken many forms and worn many guises castles cottages and teepees Art Deco and Streamline Moderne clad with wood stucco or gleaming porcelain in seemingly infinite variety The companion volume to the Wisconsin Public Television documentary of the same name Fill 'er Up The Glory Days of Wisconsin Gas Stations visits 60 Wisconsin gas stations that are still standing today and chronicles the history of these humble yet ubiquitous buildings The book tells the larger story of the gas station's place in automobile culture and its evolution in tandem with American history as well as the stories of the individuals influenced by the gas stations in their lives Fill 'er Up provides a glimpse into the glory days of gas stations when full service and free oil changes were the rule and the local station was a gathering place for neighbors More importantly Fill 'er Up links the past and the present showing why gas stations should be preserved and envisioning what place these historic structures can have in the 21st century and beyond
