gender The Changing of the Guard offers a significant meditation on the politics of older lesbians and gays Combining interviews and sustained critical thought Rosenfeld links the development of lesbian and gay elders identity with the key moments in the 20th century reinvention of homosexuality In doing so she bridges the gap between history and interaction that has characterized and constrained previous studies of identity Rosenfeld first summarizes the meaning of homosexuality that prevailed when her subjects came of age and the radical changes it underwent during their middle years She uses these changes to trace the paths they took toward one of two homosexual identities a discreditable one adopted before the advent of gay liberation or an accredited one adopted during and through those momentous years She theorizes that there is the existence of two distinct identity cohorts shaped by a willingness or resistance to accept the historical forces at work on lesbian and gay identity Such decisions on identities Rosenfeld argues strongly shaped her subjects in later life specifically their understanding of th

Johnson, 2023-03-22 A new edition of a classic work of history revealing the anti homosexual purges of midcentury Washington In The Lavender Scare David K Johnson tells the frightening story of how during the Cold War homosexuals were considered as dangerous a

threat to national security as Communists Charges that the Roosevelt and Truman administrations were havens for homosexuals proved a potent political weapon sparking a Lavender Scare more vehement and long lasting than Joseph McCarthy's Red Scare Drawing on declassified documents years of research in the records of the National Archives and the FBI and interviews with former civil servants Johnson recreates the vibrant gay subculture that flourished in midcentury Washington and takes us inside the security interrogation rooms where anti homosexual purges ruined the lives and careers of thousands of Americans This enlarged edition of Johnson's classic work of history the winner of numerous awards and the basis for an acclaimed documentary broadcast on PBS features a new epilogue bringing the still relevant story into the twenty first century Families We Choose Kath Weston,1997 This study brings together two areas of investigation relationships of gay and lesbian individuals with their biological families and lesbian and gay relationships in the context of research on alternative forms of family Culturally Diverse Mental Health Jeffery Scott Mio,Gayle Y. Speaking for Vice Jonathan Weinberg,1993-01-01 Grapples with the problems of identifying homosexual content in a work of art showing how artists often used sexual codes to communicate to their subculture The major part of the book is a discussion of Demuth's and Hartley's lives and works **Gay and Gray** Raymond Mark Berger,1996 In the absence of accurate information American culture has upheld a distorted view of what it means to be an older gay man Gay and Gray is the first and only scholarly full length treatment of older gay men in America today It breaks the stereotype that older gay men are strange lonely creatures and reveals that most older gay men are well adjusted to their homosexuality and the aging process This second edition contains four new chapters that present additional perspectives on the reality of gay aging Dr Minnigerode's study shows that older gay men do not perceive themselves as growing old faster than their heterosexual counterparts and that forty is the age at which most gay men believe that the label young no longer applies this finding led Berger and other researchers to define older gay men as those over forty Pope and Schulz confirm Berger's finding that for most older gay men a continuation of sexual activity and sexual enjoyment is the norm John Grube's paper on the interaction of older gay men with younger gay liberationists explores the cultural divide between today's older gay man and his younger counterpart filling a gap left in the first edition And a concluding chapter by Richard Friend on a theory of successful gay aging summarizes much of the current thinking about this topic The true situation of the older homosexual male presented in Gay and Gray challenges preconceptions about what it means to be old and gay It asserts that in most ways older gay men

are indistinguishable from other older people. Because the book portrays older gay men in a realistic and sympathetic light, it is therapeutic for the many gay men who have been burdened with society's negative and distorted views about them. These men may compare their own lives to those of the respondents described in the book. *Gay and Gray* offers younger gay men a rare glimpse into their futures and enlightens and comforts those who count older gay men among their family and friends. The conclusions drawn in the book will change people's perspectives and offer new ways of thinking for and about older gay men. *Gay and Gray* is filled with rich case histories and treats its subject with dignity and compassion. Topics of focus include love relationships, social and psychological adjustment, gay community, self-acceptance, being in the closet, and coming out as a gay person, intergenerational attitudes, popular stereotypes. As the first intensive interview and questionnaire study of gay men aged 40 and older in America, *Gay and Gray* examines the lives of these men in light of cultural stereotypes. Author Berger asks about the social lives of these men, their involvement in both the heterosexual and homosexual communities, their coming out experiences, their attitudes about younger gays, their experiences in growing older, and their strategies for adapting to life's challenges. In the study, Berger reveals that contrary to stereotypic views, most older gay men are well integrated into social networks and lead active and generally satisfying lives. He found that few live alone; most scored as well as younger gays on measures of psychological adjustment, such as self-acceptance; many are open about their homosexuality with family, friends, and colleagues; and the most well-adjusted older gay men were integrated into a homosexual community associated with younger gay men and were unwilling to change their sexual orientation.
