Quite Contrary Stephen Dixon, 1979      Donald Barthelme Jerome Klinkowitz, 1991-05-22 Donald Barthelme 1931 1989 is regarded as one of the most imitated and influential American fiction writers since the early 1960s In Donald Barthelme An Exhibition Jerome Klinkowitz presents both an appreciation and a comprehensive examination of the life work of this pathbreaking contemporary writer A blend of close reading biography and theory this retrospective informed by Klinkowitz's expert command of postmodern American fiction contributes significantly to a new understanding of Barthelme's work Klinkowitz argues that the central piece in the Barthelme canon and the key to his artistic method is his widely acknowledged masterpiece The Dead Father In turning to this pivotal work as well as to Barthelme's short stories and other novels Klinkowitz explores the way in which Barthelme reinvented the tools of narration characterization and thematics at a time when fictive techniques were largely believed to be exhausted Klinkowitz who was one of the first scholars to study Barthelme's work and became its definitive bibliographer situates Barthelme's life and work within a broad spectrum of influences and affinities A consideration of developments in painting and sculpture for example as well as those of contemporaneous fiction contribute to Klinkowitz's analysis This astute reading will provide great insight for readers writers and critics of contemporary American fiction seeking explanations and justifications of Barthelme's critical importance in the literature of our times      Encyclopedia of the American Short Story Abby H. P. Werlock, 2015-04-22 Two volume set that presents an introduction to American short fiction from the 19th century to the present      You've Got to be Carefully Taught Jerome Klinkowitz, 2001 For his 40th published book Klinkowitz English U of Northern Iowa details what he calls his own wasteful mis education the snake pit of academic politics and the joy of teaching after he found a peaceful niche in Introduction to Literature He does not provide an index c Book News Inc      **Other People's Mail** Gail Pool, 2000 The first collection of its kind Other People's Mail is a unique and important anthology Pool's highly informative introduction explores the nature of letter fiction and her individual preface to each story provides background information on both the author and the tale A select listing of additional letter stories rounds out the anthology      Structuring the Void Jerome Klinkowitz, 1992 If as the literary theorists of postmodernism contend content does not exist then how can fiction continue to be written Jerome Klinkowitz himself a veteran practitioner and theorist of fiction addresses this question in Structuring the Void an account of what today's novelists and short story writers do when they produce a fictive work Klinkowitz focuses on the ways in which writers finding themselves in the same position as abstract painters and death of God theologians have turned their inquiry itself into subject matter and he shows how this approach has in recent years produced something more than mere metafictional self questioning With no subject to structure the writers Klinkowitz discusses nonetheless persist in the act of structuring For Kurt Vonnegut this has meant finding a form for an otherwise unrepresentable world by organizing his autobiography as a narrative device In the generation following Vonnegut Max Apple makes a similar move in the

ritualization of a national history and popular culture while Gerald Rosen and Rob Swigart invent a style of literary comedy based on their comic response to a new imaginative state the state of California Klinkowitz also considers subjects that though they cannot be represented nevertheless exercise constraints on a writer's intention to structure In recent decades two of these pressing themes have been gender as seen here in the works of Grace Paley and war the Vietnam conflict itself as well as the struggles of two generations to come to terms with it Structuring the void left when content collapses these writers have as Klinkowitz demonstrates developed an entirely new style of fiction one that necessarily privileges space over time and self invention over representation
