Wright, 2024-07-11 Presenting a new approach to Euripides plays this book explores the playwright's ancient tragedies in relation to quotation culture Treating extant works and lost works side by side Matthew Wright presents a selective survey of ways in which Euripidean tragedy was quoted within antiquity both in social contexts on the comic stage at symposia in law courts in education and in different literary genres drama biography oratory philosophy literary scholarship history and anthologies There is also a discussion of the connection between quotability and classic status where Wright asks what quotations can tell us about ancient reading habits The implication is that Euripides actively participated in quotation culture by deliberately making certain portions of his plays stand out as especially quotable Within classical antiquity Euripides was the most widely quoted author apart from Homer His plays are full of quotable quotes which were repeated so often that they acquired a life of their own Hundreds of famous verses from Euripidean drama circulated widely within the ancient world even after the plays in which they originally featured became forgotten or vanished completely Indeed the majority of Euripides' tragedies now survive only in the form of scattered quotations otherwise known to us as fragments It is this corpus of fragmentary quotations along with his extant plays that makes Euripides such an interesting case study in the world of quotation culture This book is the first of its kind to understand Euripides' work through this lens as well as opening up quotation culture as a major theme of interest within classical scholarship **Sherlock Holmes Mystery Magazine #6**
